Scholar and singer Benjamin Schultz offers a rich repertoire of works virtually unknown outside of Poland, providing a unique catalyst for the introduction of Polish vocal music into the English-speaking world of performance. Never before has Polish vocal music been made so accessible to the musical world. With a foreword by Timothy Cheek, the author of *Singing in Czech*, as well as an overview of the development of Polish music by renowned violinist, Polish music specialist, and scholar Tyrone Greive, *Singing in Polish* concisely outlines the science and art of Polish lyric diction through the use of the International Phonetic Alphabet (IPA). The included texts of more than 60 art songs and arias from some of the most distinguished Polish composers of all time each feature IPA transcriptions and English translations. Appendixes include lists of key Polish music publishing companies, cultural centers, and Polish poets. *Singing in Polish* fills a void for singers, voice teachers, and vocal coaches in the Western tradition. It is an invaluable resource for anyone looking to add global variety to vocal performance in the studio, classroom, concert hall, or on the operatic stage.

Stephen Paul Tolmie,2012-02-18 The Tree of Life The tree of life is so like man ever stretching to the skies Its branches ever reaching upwards as though to heaven above Like mans quest here on earth to reach for that high unknown The tree requires the staples of life for its very existence here But man in his slight wisdom knows these details all too clear The tree roots securely planted are not allowed to roam But mans feet here on earth Have mobility all their own Unlike the tree man does possess a single separate entity A brain you see though seldom used a total shame indeed The tree of life depends on man for its daily lifes survival Man depends on his own lifes skills to hopefully see his tomorrow Which is a sad virtue for his thinking process is not always clear He makes good and bad decisions its effects are not yet known Man should take his lifes lessons from the tree of life pursuit As our single lifes true purpose to reach for heaven above As the tree stretches forth its limbs ever skyward in its growth We should heed this very lesson and praise the Lord above For all that He has done for mankind and this our earth as well

Grace Paley Jacqueline Taylor,2014-02-19 Grace Paley is a writer s writer admired by both scholars and the reading public for her originality and unique voice In this first book length study of her work Jacqueline Taylor explores the source of Paley s originality locating it in the way Paley transforms language to create strongly woman centered stories Drawing on interviews with the author as well as the stories themselves Taylor emphasizes Paley s awareness that women s voices have been muted and their stories ignored or left untold in our culture s male oriented dominant discourse She watches Paley in the process of reshaping language at both the semantic and narrative levels to make it express women s perceptions and experiences In Paley s stories it becomes possible to ignore traditional heroic and dramatic themes and instead talk about women and children in such everyday settings as the playground the kitchen and the grocery store Some of the specific techniques Paley uses to accomplish this include identifying and repudiating sexist language in the dominant discourse and redefining ordinary words from the perspective of women At the narrative level Taylor reveals how she draws on women s oral traditions to tell open ended stories that resist rigid beginning middle and end structuring This transformed language enables Paley to construct a social world where woman centered meanings can flourish In her nontraditional stories no single narrator or version of events dominates Anyone can be a storyteller and no one has the last word
