**Akira Kurosawa and Modern Japan** David A. Conrad, 2022-05-06 The samurai films of legendary Japanese director Akira Kurosawa are set in the past but they tell us much about the present as do his crime stories romances military films medical dramas and art films His movies are beloved for their timeless protagonists and haunting vistas of old Japan but we haven't yet fully grasped everything they can teach us about modern Japan Kurosawa's films evolved as Japan redefined and reinvented itself from movies made for the wartime regime to those made amid the trials of American occupation From the lavish epics of the economic miracle years to searching masterpieces made with international assistance in a globalizing world Kurosawa's movies responded to changing times This detailed study of all 30 of Kurosawa's films analyzes the links between the thrilling narratives onscreen and the equally remarkable events that occurred in Japan over his long productive career This book explores how Kurosawa's classics depict the political economic cultural sexual and environmental upheavals of a nation at the center of a turbulent century both directly and through period piece mythmaking

**Daitokuji** Gregory P. A. Levine, 2005 The Zen Buddhist monastery Daitokuji in Kyoto has long been revered as a cloistered meditation centre a repository of art treasures and a wellspring of the Zen aesthetic Gregory Levine's Daitokuji unsettles these conventional notions with groundbreaking inquiry into the significant and surprising visual and social identities of sculpture painting and calligraphy associated with this fourteenth century monastery and its enduring monastic and lay communities The book begins with a study of Zen portraiture at Daitokuji that reveals the precariousness of portrait likeness the face that gazes out from an abbot's painting or statue may not be who we expect it to be or submit quietly to interpretation By tracing the life of Daitokuji's famed statue of the chanoyu patriarch Sen no Rikyū 1522-91 which was all but destroyed by the ruler Toyotomi Hideyoshi 1537-98 but survived in Rashōmon like narratives and reconstituted sculptural forms Levine throws light upon the contested status of images and their mytho-poetic potential Levine then draws from the seventeenth century journal of Kōgetsu Sōgan Bokuseki no utsushi to explore practices of calligraphy connoisseurship at Daitokuji and the pivotal role played by the monastery's abbots within Kyoto art circles The book's final section explores Daitokuji's annual airings of temple treasures not merely as a practice geared toward preservation but also

as a space in which different communities vie for authority over the artistic past An epilogue follows the peripatetic journey of the monastery's scrolls of the 500 Luohan from China to Japan to exhibition and partial sale in the West and back to Daitokuji Illuminating canonical and heretofore ignored works and mining a trove of documents diaries and modern writings Levine argues for the plurality of Daitokuji's visual arts and the breadth of social and ritual circumstances of art making and viewing within the monastery This diversity encourages reconsideration of stereotyped notions of Zen art and offers specialists and general readers alike opportunity to explore the fertile and sometimes volatile nexus of the visual arts and religious sites in Japan

**From Book to Screen** Keiko I. McDonald, 2016-09-16 Of all the world's cinemas Japan's is perhaps unique in its closeness to the nation's literature past and contemporary The Western world became aware of this when Akira Kurosawa's *Rashomon* was awarded the Grand Prize at the Venice film festival in 1951 and the Oscar for best foreign film in 1952 More recent examples include Shohei Imamura's *Eel* which won the Palm d'Or Best Picture at Cannes in 1997 *From Book to Screen* breaks new ground by exploring important connections between Japan's modern literary tradition and its national cinema The first part offers an historical and cultural overview of the working relationship that developed between pure literature and film It deals with three important periods in which filmmakers relied most heavily on literary works for enriching and developing cinematic art The second part provides detailed analyses of a dozen literary works and their screen adoptions

**Hiroshima Bugi** Gerald Robert Vizenor, 2003-01-01 A strange fascinating novel set in Japan follows the efforts of a dissident who has determined to trash the safe accepted notions of Hiroshima history and sets out on an epic journey to do just that by creating his own calendar among other acts of defiance

*General Fiction* *Memory in World Cinema* Nancy J. Membrez, 2019-09-17 Film itself is an artifact of memory A blend of all the other fine arts film portrays and preserves human memory someone's memory faulty or not dramatically or comically in a documentary feature film or short Hollywood may dominate 80 percent of cinema production but it is not the only voice World cinema is about those other voices Drawn initially from presentations from a series of film conferences held at the University of Texas at San Antonio this collection of essays covers multiple geographical linguistic and cultural areas worldwide emphasizing the historical and cultural interpretation of films Appendices list films focusing on memory and invite readers to explore the films and issues raised

*Literature into Film* Linda Costanzo Cahir, 2014-12-24 For most people film adaptation of literature can be summed up in one sentence The movie wasn't as good as the book This volume undertakes to show the reader that not only is this evaluation not always true but sometimes it is intrinsically unfair Movies based on literary works while often billed as adaptations are more correctly termed translations A director and his actors translate the story from the written page into a visual presentation Depending on the form of the original text and the chosen method of translation certain inherent difficulties and pitfalls are associated with this change of medium So often our reception of a book based movie has more to do with our expectations and reading of the literature than with the job that the movie production did or did not do

Avoiding these biases and fairly evaluating any particular literary based film takes an awareness of certain factors. Written with a formalistic rather than historical approach, this work presents a comprehensive guide to literature based films, establishing a contextual and theoretical basis to help the reader understand the relationships between such movies and the original texts as well as the reader's own individual responses to these productions. To this end, it focuses on recognizing and appreciating the inherent difficulties encountered when basing a film on a literary work, be it a novel, novella, play, or short story. Individual chapters deal with the specific issues and difficulties raised by each of these genres, providing an overview backed up by case studies of specific film translations. Films and literary works receiving this treatment include *The Unbearable Lightness of Being*, *The Manchurian Candidate* (1962), *Lady Windemere's Fan* by Oscar Wilde, and Shakespeare's *Henry V*. Interspersed throughout the text are suggestions for activities the film student or buff can use to enhance his or her appreciation and understanding of the films. Instructors considering this book for use in a course may request an examination copy here: [Make Believe in Film and Fiction](#). K. Kroeber, 2006-05-12. This study provides the first detailed contrast between the experiences of reading a novel and watching a movie. Kroeber shows how fiction evokes morally inflected imagining and how movies reveal through magnification of human movements and expression subjective effects of complex social changes.

**Japanese Cinema** Peter Cowie, 2022-06-07. An informal yet informed journey through the classic works of Japanese cinema and their directors. This is a passionate personal journey through one of the world's greatest national cinemas, beginning with the classic directors who came to the fore in the postwar period and became legendary names on the art house circuit: Kurosawa, Mizoguchi, Ozu, Kobayashi, Naruse, and Oshima, among others. *Japanese Cinema* traces the common themes explored by these directors as well as the impact of important historical and cultural issues, including World War 2, the representation of women, and the revolutionary spirit of the 1960s. Finally, Peter Cowie surveys the state of contemporary Japanese film and its greatest living practitioners, Hirokazu Kore-eda, among them, as well as the international face of Japanese animation, Hayao Miyazaki. Cowie brings a lifetime's commitment to film to bear on the human relationships so well explored by these Japanese auteurs. *Japanese Sword-mounts in the Collections of Field Museum*, Field Museum of Natural History, Helen Cowen Gunsaulus, 1923.

**Akira Kurosawa** Peter Wild, 2014-09-15. Most directors have one film for which they are known, or possibly two, said Francis Ford Coppola. Akira Kurosawa has eight or nine. Through masterpieces such as *Kagemusha*, *Seven Samurai*, and *High and Low*, Akira Kurosawa (1910-1998) influenced directors from George Lucas and Steven Spielberg to Martin Scorsese, and his groundbreaking innovations in cinematography and editing combined with his storytelling made him a cinematic icon. In this succinct biography, Peter Wild evaluates Kurosawa's films while offering a view of the man behind the camera, from his family life to his global audience. After discussing Kurosawa's childhood in Japan, Wild explores his years as an assistant director at a new film studio and his early films during and after World War II, before he won international acclaim with *Rashomon*. While surveying Kurosawa's impressive career, Wild also examines the myriad

criticisms the director faced both within his own country and abroad he was too influenced by Western cinema not authentically Japanese and he was too sentimental naïve arrogant or out of touch By placing Kurosawa and his films in the context of his times Wild helps us to understand the director and the reproaches against him Cogent and concise Akira Kurosawa will be essential reading for anyone interested in the work of this masterful filmmaker **Deleuze, Japanese Cinema, and the Atom Bomb** David Deamer, 2014-07-31 David Deamer establishes the first ever sustained encounter between Gilles Deleuze's Cinema books and post war Japanese cinema exploring how Japanese films responded to the atomic bombings of Hiroshima and Nagasaki From the early days of occupation political censorship to the social and cultural freedoms of the 1960s and beyond the book examines how images of the nuclear event appear in post war Japanese cinema Each chapter begins by focusing upon one or more of three key Deleuzian themes image history and thought before going on to look at a selection of films from 1945 to the present day These include movies by well known directors Kurosawa Akira Shindo Kaneto Oshima Nagisa and Imamura Shohei popular and cult classics Godzilla 1954 Akira 1988 and Tetsuo 1989 contemporary genre flicks Ring 1998 Dead or Alive 1999 and Casshern 2004 the avant garde and rarely seen documentaries The author provides a series of tables to clarify the conceptual components deployed within the text establishing a unique addition to Deleuze and cinema studies *Pragmatism, Law, and Literature* David Kenny, 2024-08-06 This book uses literary examples to make the case for understanding law and the legal system through the lens of philosophical pragmatism For pragmatists experience is everything they argue against understanding the world through any abstraction maintaining that it is simply too complicated to fit into categories or theories Legal pragmatism is the application of this philosophy to the making of law the practice of law and the practice of judging This book maintains that the best way to understand legal pragmatism is not through bare theoretical exegesis but through literature that is through stories that cast light on various pragmatic aspects of law Engaging a range of literary sources including works by Seamus Heaney Hilary Mantel Harper Lee and Ian McEwan the book makes a compelling case for the contemporary relevance of pragmatism This book will appeal to legal theorists law and literature humanities scholars readers of literary criticism and those with interests in pragmatist philosophy Mapping Courtship and Kinship in Classical Japan Doris G. Bergen, 2015-08-31 Literary critiques of Murasaki Shikibu's eleventh century The Tale of Genji have often focused on the amorous adventures of its eponymous hero In this paradigm shifting analysis of the Genji and other mid Heian literature Doris G Bergen emphasizes the thematic importance of Japan's complex polygynous kinship system as the domain within which courtship occurs Heian courtship conducted mainly to form secondary marriages was driven by power struggles of succession among lineages that focused on achieving the highest position possible at court Thus interpreting courtship in light of genealogies is essential for comprehending the politics of interpersonal behavior in many of these texts Bergen focuses on the genealogical maze the literal and figurative space through which several generations of men and women in the Genji moved She demonstrates that courtship politics

sought to control kinship by strengthening genealogical lines while secret affairs and illicit offspring produced genealogical uncertainty that could be dealt with only by reconnecting dissociated lineages or ignoring or even terminating them The work examines in detail the literary construction of a courtship practice known as *kaimami* or looking through a gap in the fence in pre Genji tales and diaries and Sei Shōnagon's famous Pillow Book In Murasaki Shikibu's Genji courtship takes on multigenerational complexity and is often used as a political strategy to vindicate injustices counteract sexual transgressions or resist the pressure of imperial succession Bergen argues persuasively that a woman observed by a man was not wholly deprived of agency She could choose how much to reveal or conceal as she peeked through shutters from behind partitions fans and kimono sleeves or through narrow carriage windows That mid Heian authors showed courtship in its innumerable forms as being influenced by the spatial considerations of the Heian capital and its environs and by the architectural details of the residences within which aristocratic women were sequestered adds a fascinating topographical dimension to courtship In *Mapping Courtship and Kinship in Classical Japan* readers both familiar with and new to *The Tale of Genji* and its predecessors will be introduced to a wholly new interpretive lens through which to view these classic texts In addition the book includes charts that trace Genji characters' lineages maps and diagrams that plot the movements of courtiers as they make their way through the capital and beyond and color reproductions of paintings that capture the drama of courtship

*Action and Image* Roy Armes, 1994 The concern of film theorists to read films as texts has led them to neglect the equally pressing need to see films as drama Roy Armes sets out to redress the balance by drawing on the insights offered by recent developments in the theoretical study of drama and performance
