

REGIMES AND OPPOSITIONS

EDITED BY ROBERT A. DAHL

Regimes And Oppositions

Alexander S. Kirshner

Regimes And Oppositions:

Islamist Opposition in Authoritarian Regimes Eva Wegner, 2011-09-16 What electoral mobilization choices do Islamist opposition parties make How do they relate to authoritarian incumbents Which key factors influence the choices these parties make Islamist Opposition in Authoritarian Regimes explores the answers to these questions by studying the path of the Islamist Party of Justice and Development PJD in Morocco from 1992 to 2007 Wegner traces the party's choices through an analysis of organizational ideological and institutional constraints Adopting a simple but novel perspective Wegner distinguishes Islamist parties from other opposition parties because of their connection to a powerful social movement The author shows how the PJD initially made major progress in electoral politics by building up a strong party organization sustaining full support of the Islamist movement and positioning itself as the only credible opposition party Ultimately the failure of the PJD to win elections was due to political concessions it made to secure its legality combined with a distancing from the Islamist movement Based on extensive field research in Morocco in 2003 and 2007 and drawing upon personal interviews with members candidates and leaders of the PJD Islamist Opposition in Authoritarian Regimes presents a meticulous and enlightening case study Wegner enriches our understanding of electoral authoritarianism in Morocco and throughout the Arab Islamic world

Political Oppositions in Industrialising Asia Garry Rodan, 2013-04-15 Rodan dissects the extent of political oppositions in Asia and analyzes the nature of new social movements outside institutional party politics which are contesting the exercise of state power The book provides nine in depth case studies **The**

Revolutionary City Mark R. Beissinger, 2022-04-12 List of illustrations List of tables Preface Introduction revolution and the city A spatial theory of revolution The growth and urbanization of revolution The urban civic revolutionary moment The repression disruption trade off and the shifting odds of success Revolutionary contingency and the city Public space and urban revolution The individual and collective action in urban civic revolution The pacification of revolution The evolving impact of revolution The city and the future of revolution Appendix 1 construction of cross national data on revolutionary episodes Appendix 2 revolutionary episodes 1900 2014 Appendix 3 data sources used in statistical analyses Appendix 4 choices of statistical models

The Franco Regime, 1936-1975 Stanley G. Payne, 2011-09-27 The history of modern Spain is dominated by the figure of Francisco Franco who presided over one of the longest authoritarian regimes of the twentieth century Between 1936 and the end of the regime in 1975 Franco's Spain passed through several distinct phases of political institutional and economic development moving from the original semi fascist regime of 1936 45 to become the Catholic corporatist organic democracy under the monarchy from 1945 to 1957 Distinguished historian Stanley G Payne offers deep insight into the career of this complex and formidable figure and the enormous changes that shaped Spanish history during his regime

Transitions and Non-Transitions from Communism Steven Saxonberg, 2013-02-14 Since the fall of the Berlin Wall many scholars have sought to explain the collapse of communism Yet more than two decades on communist regimes

continue to rule in a diverse set of countries including China Cuba North Korea and Vietnam In a unique study of fourteen countries Steven Saxonberg explores the reasons for the survival of some communist regimes while others fell He also shows why the process of collapse differed among communist led regimes in Europe Africa and Latin America Based on the analysis of the different processes of collapse that has already taken place and taking into account the special characteristics of the remaining communist regimes Transitions and Non Transitions from Communism discusses the future prospects for the survival of the regimes in China Cuba North Korea and Vietnam

Political Opposition in Authoritarianism Rico Isaacs, 2022-08-13 How might political opposition shape regime outcomes over time in an authoritarian system Most studies on political opposition in authoritarian contexts tend to focus on the agency of the regime over and above that of the political opposition Using Albert Hirschman s framework of exit voice and loyalty this book examines the case of Kazakhstani opposition agency over 30 years to explore the extent to which political opposition in Kazakhstan has shaped the dynamics of authoritarian regime development in the country What the analysis reveals is that in Kazakhstan the regime has tended to treat formal institutional political opposition as neither a credible nor non credible threat Consequently the Kazakhstani regime has always responded to opposition exit and voice with sanctions and institutional adaption which strengthened the regime in the short to medium term but left them exposed to spontaneous grassroots non institutional opposition in the longer term This spontaneous grassroots opposition emerged in Kazakhstan as a series of shocks crystalised in the 2011 events in Zhanaozen the 2016 land protests the 2019 election protests and the events of qandy qantar bloody January in 2022 What this book illustrates is how authoritarian regimes which treat opposition threats ambiguously are likely to end up in a continuous state of instability because the feedback provided by opposition agency disappears leaving the regime susceptible to spontaneous opposition

Opposition and Dissent in Contemporary China Peter R. Moody, 1977

New Opposition in the Middle East Dara Conduit, Shahram Akbarzadeh, 2018-09-27 This book uses a Contentious Politics lens to examine patterns of contestation since 2009 and 2011 among the Middle East s most important opposition actors The volume is comprised of seven chapters that ask questions in relation to the responsiveness of opposition groups to their political environments the long term legacies of authoritarianism and whether the post 2009 2011 political environment is better or worse for Middle Eastern oppositions It interrogates the ways in which oppositions have morphed in relation to this changed operating environment subjectively interpreting the costs and benefits of contestation in order to maximise political opportunities To some oppositions changes in the power balance between regime structures and opposition agents led to unprecedented opportunity for political action while for others structures were galvanised to restrict opposition activities In total the volume shows that even though the Arab Uprisings and Green Movement achieved few of their overt goals the events unleashed smaller shifts across the region that have led to a fundamental change in the politics of contestation amongst the region s oppositions These patterns echo experiences in other parts of the world including the coloured

revolutions in post Soviet states and the political environment in Chile after Pinochet *When Victory Is Not an Option*
 Nathan J. Brown, 2012-02-17 Throughout the Arab world Islamist political movements are joining the electoral process This change alarms some observers and excites other In recent years electoral opportunities have opened and Islamist movements have seized them But those opportunities while real have also been sharply circumscribed Elections may be freer but they are not fair The opposition can run but it generally cannot win Semiauthoritarian conditions prevail in much of the Arab world even in the wake of the Arab Spring How do Islamist movements change when they plunge into freer but unfair elections How do their organizations such as the Muslim Brotherhood and structures evolve What happens to their core ideological principles And how might their increased involvement affect the political system In *When Victory Is Not an Option* Nathan J Brown addresses these questions by focusing on Islamist movements in Egypt Jordan Kuwait and Palestine He shows that uncertain benefits lead to uncertain changes Islamists do adapt their organizations and their ideologies do bend some But leaders almost always preserve a line of retreat in case the political opening fizzles or fails to deliver what they wish The result is a cat and mouse game between dominant regimes and wily movements There are possibilities for more significant changes but to date they remain only possibilities Legitimate Opposition Alexander S. Kirshner, 2022-01-01 The first theory of legitimate opposition in fifty years In political systems defined by legitimate opposition those who hold power allow their rivals to peacefully challenge and displace them and those who have lost power do not seek to sabotage the winners Legitimate opposition came under assault at the American capitol on January 6 2021 and is menaced by populists and autocrats across the globe Alexander Kirshner provides the first sustained theory of legitimate opposition since the Cold War On the orthodox view democracy is lost when legitimate opposition is subverted But efforts to reconcile opposition with democracy fail to identify the value of the frequently imperfect unfair and inequalitarian real world practice Marshaling a revisionist reconstruction of opposition s history Kirshner provides a new account of opposition s value fit for the twenty first century and shows why given the difficult conditions of political life legitimate opposition is an achievement worth defending
 Popular Contention, Regime, and Transition Eitan Y. Alimi, Avraham Sela, Mario Sznajder, 2016 Through a diverse array of case studies from countries around the world *Popular Contention Regime and Transition* places the Arab Spring uprisings in comparative perspective demonstrating the similarities and parallels between contentious events in democratic and authoritarian like regimes By analyzing factors such as the set of initial conditions involved in the protest prospects of contention and forms of protest the volume generates powerful insights into the impetus dynamics and consequences of contention in all contexts *Elections, Protest, and Authoritarian Regime Stability* Regina Smyth, 2020-10-29 In a path breaking study of Russian elections Regina Smyth reveals how much electoral competition matters to the Putin regime and how competition leaves Russia more vulnerable to opposition challenges than is perceived in the West Using original data and analysis Smyth demonstrates how even weak political opposition can force autocratic incumbents to rethink strategy and

find compromises in order to win elections Smyth challenges conventional notions about Putin's regime highlighting the vast resources the Kremlin expends to maintain a permanent campaign to construct regime friendly majorities These tactics include disinformation as well as symbolic politics social benefits repression and falsification This book reveals the stresses and challenges of maintaining an electoral authoritarian regime and provides a roadmap to understand how seemingly stable authoritarian systems can fall quickly to popular challenges even when the opposition is weak A must read for understanding Russia's future and the role of elections in contemporary autocratic regimes

Systemic and Non-Systemic Opposition in the Russian Federation Cameron Ross, 2016-03-03 Over the period December 2011 July 2013 a tidal wave of mass protests swept through the Russian Capital and engulfed scores of cities and regions Civil society it appeared had at last woken up This fascinating book examines the rise and fall of the non systemic opposition and the role of the systemic political opposition during this turbulent period Leading experts in the field from Russia along with scholars from the UK and the US reflect on the conditions that have made large scale protests possible the types of people who have taken part and the goals of the opposition movement at both the national and regional levels Contributors discuss what steps the regime has taken in response to this challenge and examine the relationship between the systemic and non systemic opposition and what potential exists for the creation of a broad based opposition coalition The role of the expanding Russian middle class is discussed along with contemporary developments among the Russian left against the backdrop of the global economic crisis The political social and ethnic dimensions of the protest movement are also examined at both the national and regional levels in this truly comprehensive study of the rebirth of civil society in modern Russia

Authoritarian Elections and Opposition Groups in the Arab World Gail J. Buttorff, 2018-12-13 This book examines how opposition groups respond to the dilemma posed by authoritarian elections in the Arab World with specific focus on Jordan and Algeria While scholars have investigated critical questions such as why authoritarian rulers would hold elections and whether such elections lead to further political liberalization there has been comparatively little work on the strategies adopted by opposition groups during authoritarian elections Nevertheless we know their strategic choices can have important implications for the legitimacy of the electoral process reform democratization and post election conflicts This project fills in an important gap in our understanding of opposition politics under authoritarianism by offering an explanation for the range of strategies adopted by opposition groups in the face of contentious elections in the Arab World

Some Conceptual and Empirical Issues in the Study of Regime Change Stephanie Lawson, 1991 **The Power of Opposition** Simone Wegmann, 2022-07-01 Proposing a novel way to look at the consolidation of democratic regimes this book presents important theoretical and empirical contributions to the study of democratic consolidation legislative organization and public opinion Theoretically Simone Wegmann brings legislatures into focus as the main body representing both winners and losers of democratic elections Empirically Wegmann shows that the degree of policy making power of opposition players varies considerably

between countries Using survey data from the CSES the ESS and the LAPOP and systematically analyzing more than 50 legislatures across the world and the specific rights they grant to opposition players during the policy making process Wegmann demonstrates that neglecting the curial role of the legislature in a democratic setting can only lead to an incomplete assessment of the importance of institutions for democratic consolidation The Power of Opposition will be of great interest to scholars of comparative politics especially those working on questions related to legislative organization democratic consolidation and or public opinion *Legacies of Repression in Egypt and Tunisia* Alanna C. Torres-Van Antwerp,2022-03-10 When an authoritarian regime collapses what determines whether an opposition group will form a political party be successful in mobilizing voters and survive or dissolve as a group in subsequent years Based on unique field research this examines how legacies of authoritarian rule shaped the outcome of Egypt s 2011 founding elections

Authoritarian Consolidation in Times of Crisis John Polga-Hecimovich,Raul Sanchez Urribarri,2025-03-31 Bringing together experts from across the social sciences this volume examines the consolidation of authoritarianism in Venezuela under the government of Nicol s Maduro Taking a comparative perspective it explains how authoritarians can remain ensconced in power amidst profound economic crisis widespread social discontent low approval ratings and international policies aimed at their removal Moreover it seeks to understand the mechanisms and dynamics with which Maduro has consolidated an authoritarian regime in Venezuela To this end the editors differentiate the concept of authoritarian consolidation from the more studied processes of democratic erosion and democratic backsliding The book s contributors explore in detail the country s process of autocratization under Maduro at the national and international levels identifying and explaining the role of diverse actors and institutions in Venezuela s political regime and their respective contributions to safeguarding and stabilizing the Maduro administration By offering a systematic examination of the mechanisms by which regime change was fostered under Maduro s rule this volume directly engages with scholarly research on regime transitions and democratic collapse democratic breakdown and the consolidation of authoritarian rule and comparative institutional work on Venezuelan politics The book is relevant to scholars and students of Venezuela as well as anyone interested in the pressing question of regime crisis survival and authoritarian consolidation **Uncommon Democracies** T. J.

Pempel,2019-05-15 In this collection of original essays thirteen country specialists working within a common comparative frame of reference analyze major examples of long term single party rule in industrialized democracies They focus on four cases Japan under the Liberal Democratic party since 1955 Italy under the Christian Democrats for thirty five or more years starting in 1945 Sweden under the Social Democratic party from 1932 until 1976 and again from 1982 until present and Israel under the Labor party from pre statehood until 1977 **Eurasian Politics: Ideas, Institutions and External Relations** Mr Tulsiram,Mr Ajay Patnaik,2013-06-15 The transitional politics of Eurasian space is marked by a constant struggle among three sets of ideas and institutions the 1 is the remarkable resilience of Soviet ideas and institutions 2 an

attempt by the regimes of these states to reinvent the historical and cultural traditions of preSoviet periods and third is an attempt by a section of the powerful elite to superimpose Western liberal ideas and institutions There is a strange intertwining of these ideas and institutions This book examines the extent to which the postSoviet politics has departed from the Soviet one What are the new ideational structures emerging in these states and how far have they crystallised into institutions What are the external influences which are shaping the institutions in the Eurasian space And finally what are the various dynamics of geopolitics in this region Experts from various countries will delve into the shifting dynamics of Eurasian politics

Unveiling the Power of Verbal Art: An Emotional Sojourn through **Regimes And Oppositions**

In some sort of inundated with monitors and the cacophony of quick conversation, the profound power and emotional resonance of verbal art usually disappear in to obscurity, eclipsed by the constant assault of sound and distractions. However, nestled within the musical pages of **Regimes And Oppositions**, a charming work of literary brilliance that pulses with natural feelings, lies an memorable trip waiting to be embarked upon. Published by a virtuoso wordsmith, this enchanting opus books visitors on a psychological odyssey, softly exposing the latent potential and profound influence embedded within the complicated web of language. Within the heart-wrenching expanse of the evocative evaluation, we can embark upon an introspective exploration of the book is main subjects, dissect their captivating publishing design, and immerse ourselves in the indelible impression it leaves upon the depths of readers souls.
