Regions In Europe:

Regions in Europe Patrick Le Gales, Christian Lequesne, 2006-02-27 *Regions in Europe* explores the state of regional politics in an increasingly integrated Europe. It argues that the predicted rise of increased political power at the regional level has failed to materialise and is fraught with paradox. In doing so, this study locates regions in relation to European integration, globalisation, the nation state, local government, and comparative and national perspectives. Using case studies of the main players in Europe including Germany, France, UK, Italy, Spain, the Netherlands, Belgium, the contributors show how and why European regions remain remarkably weak in European governance.

Borders and Border Regions in Europe and North America Paul Ganster, 1997 *Europe, Regions and European Regionalism* Roger Scully, Richard Wyn Jones, 2010-10-13

The Nordic Regions and the European Union Søren Dosenrode, 2018-01-18 *The Nordic Regions and the European Union* is an authoritative book on the influences of European integration on the regional level in the Nordic countries. Globalization and Europe's Rural Regions Birte Nienaber, 2016-03-03 This book examines the multiple ways in which rural regions in Europe are being restructured through globalization and the regional development responses that they have adopted. It provides an understanding of the key challenges and opportunities for rural regions arising from the major economic, social, political, and cultural changes associated with globalization, including trade liberalization and economic deregulation, increased international migration, and the rise of global consciousness about environmental issues. Drawing on examples and findings from a major European research project, DERREG, the book presents detailed case studies of ten regions in different parts of Europe, exploring the factors that lead to different experiences of globalization in each of the regions and highlighting examples of good practice in regional development responses. The book concludes by proposing a typology of regional responses to globalization and considering the policy implications of the research findings. As such, *Globalization and Europe's Rural Regions* is important reading for geographers, sociologists, planners, and economists interested in understanding the impact of globalization in rural regions and for rural development professionals seeking to mobilize effective responses.

involving entrepreneurs is attracting increasing attention in Europe as EU enlargement has increased the length of its borders with the former Soviet republics. The expert contributors highlight that border regions tend to be economically disadvantaged as a result of their peripherality which means that cross border cooperation for business purposes represents a potential development tool. This groundbreaking book contains an empirical evidence base drawn from regions in EU member states and the Newly Independent States as well as providing a conceptual base for informed policy development. This insightful book will prove invaluable for academics and students of entrepreneurship, economics, development and European studies.

Handbook on Cohesion Policy in the EU Simona Piattoni, Laura Polverari, 2016-08-26. This Handbook covers all major aspects of EU Cohesion policy, one of the most significant areas of intervention of the European Union. Over five parts, it discusses this policy's history and governing principles, the theoretical approaches from which it can be assessed, the inter-institutional and multi-level dynamics that it tends to elicit, its practical implementation and impact on EU member states, its interactions with other EU policies and strategies, and the cognitive maps and narratives with which it can be associated. An absolute must for all students of the EU.

The old world Frank Morton McMurry, Almon Ernest Parkins, 1926.

Regional Policies and European Integration Julie Anna Braun, 2017-12-22. This book examines what role regions play in European disintegration and European identity building. Filling a glaring gap in our understanding of regions, the book considers what the scope and objectives of these regions' respective European policies and programmes are, how diverse they are, and in a time of mixed signals of European cynicism and identity, how European identity is perceived, fostered, and even promoted in regions. European policies. In doing so, the book presents empirical findings on four EU regions as case studies, including Germany's Brandenburg, Belgium's Wallonia, France's Nord-Pas de Calais, and last but certainly not in the current context of Brexit, not least the South West of England.
