Reification Or The Anxiety Of Late Capitalism:

Reification, Or, The Anxiety of Late Capitalism Timothy Bewes, 2002 The concept of reification helps describe the effects of capitalism on the human world

The Culture and Politics of Contemporary Street Gang Memoirs Josephine Metcalf, 2012-07-02 The publication of Sanyika Shakur's *Monster: The Autobiography of an L A Gang Member* in 1993 generated a huge amount of excitement in literary circles New York Times book critic Michiko Kakutani deemed it a shocking and galvanic book and set off a new publishing trend of gang memoirs in the 1990s The memoirs showcased tales of violent confrontation and territorial belonging but also offered many of the first journalistic and autobiographical accounts of the much mythologized gang subculture In *The Culture and Politics of Contemporary Street Gang Memoirs* Josephine Metcalf focuses on three of these memoirs Shakur's *Monster* Luis J Rodriguez's *Always Running: La Vida Loca: Gang Days in L.A.* and Stanley Tookie Williams's *Blue Rage, Black Redemption* as key representatives of the gang autobiography Metcalf examines the conflict among violence, thrilling sensationalism and the authorial desire to instruct and warn competing within these works The narrative arcs of the memoirs themselves rest on the process of conversion from brutal young gang bangers to nonviolent enlightened citizens Metcalf analyzes the emergence, production, marketing and reception of gang memoirs Through interviews with Rodriguez, Shakur and Barbara Cottman Becnel Williams's editor Metcalf reveals both the writing and publishing processes This book analyzes key narrative conventions specifically how diction, dialogue and narrative arcs shape the works The book also explores how these memoirs are consumed This interdisciplinary study fusing literary criticism, sociology, ethnography, reader response study and editorial theory brings scholarly attention to a popular, much discussed but understudied modern expression

The Carol J. Adams Reader Carol J. Adams, 2016-10-06 The *Carol J Adams Reader* gathers together Adams's foundational and recent writings as well as relevant interviews and conversations identifying key concepts and new developments in her work

The Insistence of Art Paul A. Kottman, 2017-04-03 Philosophers working on aesthetics have paid considerable attention to art and artists of the early modern period Yet early modern artistic practices scarcely figure in recent work on the emergence of aesthetics as a branch of philosophy over the course of the eighteenth century This book addresses that gap, elaborating the extent to which artworks and practices of the fifteenth through the eighteenth centuries were accompanied by an immense range of discussions about the arts and their relation to one another Rather than take art as a stand-in for or reflection of some other historical event or social phenomenon, this book treats art as a phenomenon in itself The contributors suggest ways in which artworks and practices of the early modern period make aesthetic experience central to philosophical reflection while also showing art's need for philosophy

Recovering the Later Georg Lukács Matthew J. Smetona, 2023-04-25 New resources for the critique of capitalism in culture from the late writings of Georg Lukács, one of the first authors in the tradition of Western Marxism The Hungarian literary critic, philosopher and Marxist social theorist Georg Lukács is best known for his 1923 *History and Class*

Consciousness in which he offered an influential critique of reification from the standpoint of a dialectical conception of totality While Lukács's early works have been central to the study of Marxist thought his later works have often been dismissed as political accommodations to Stalinism In this new study Matthew Smetona argues for a revisionist interpretation of Lukács's later writings on topics as diverse as aesthetics politics and ontology Smetona demonstrates that these writings reveal a methodological unity that follows directly from History and Class Consciousness in which realism in both literary and extraliterary senses becomes the basis for the critique of reification As Lukács had demonstrated reification is that process by which the social relations between persons seem to take on the character of a thing Rooted in Marx's concept of commodity fetishism the critique of reification proved in Lukács's hands to be a flexible tool capable of clarifying all manner of obfuscations that arise within the social relations that capitalism produces To recover the later work of Lukács is to open up new horizons for Marxist cultural criticism Georg Lukács's Philosophy of Praxis Konstantinos

Kavoulakos, 2018-09-20 Georg Lukács's early Marxist philosophy of the 1920s laid the foundations of Critical Theory However the evaluation of Lukács's philosophical contribution has been largely determined by one-sided readings of eminent theorists like Adorno Habermas Honneth or even Lukács himself This book offers a new reconstruction of Lukács's early Marxist work capable of restoring its dialectical complexity by highlighting its roots in his neo-Kantian pre-Marxist period In his pre-Marxist work Lukács sought to articulate a critique of formalism from the standpoint of a dubious mystical ethics of revolutionary praxis Consequently Lukács discovered a more coherent and realistic answer to his philosophical dilemmas in Marxism At the same time he retained his neo-Kantian reservations about idealist dialectics In his reading of historical materialism he combined non-idealist non-systematic historical dialectics with an emphasis on conscious collective transformative praxis Reformulated in this way Lukács's classical argument plays a central role within a radical Critical Theory

Learn to Write Badly Michael Billig, 2013-06-20 Modern academia is increasingly competitive yet the writing style of social scientists is routinely poor and continues to deteriorate Are social science postgraduates being taught to write poorly What conditions adversely affect the way they write And which linguistic features contribute towards this bad writing Michael Billig's witty and entertaining book analyses these questions in a quest to pinpoint exactly what is going wrong with the way social scientists write Using examples from diverse fields such as linguistics sociology and experimental social psychology Billig shows how technical terminology is regularly less precise than simpler language He demonstrates that there are linguistic problems with the noun-based terminology that social scientists habitually use reification or nominalization rather than the corresponding verbs reify or nominalize According to Billig social scientists not only use their terminology to exaggerate and to conceal but also to promote themselves and their work *The Radical Novel and the Classless Society* Robert Z. Birdwell, 2018-10-15 The Radical Novel and the Classless Society analyzes utopian and proletarian novels as a single socialist tradition in U.S. literature Utopian novels by such writers as Edward Bellamy William

Dean Howells Charlotte Perkins Gilman and Sutton E Griggs and proletarian novels by such writers as Robert Cantwell John Steinbeck Richard Wright Meridel Le Sueur Claude McKay and Ralph Ellison can help us conceive of a unity of utopian and Marxist socialisms We can combine the imagination of the future classless society with present day socialist strategy Utopian and proletarian novels help us to imagine and realize the classless society as achieving the utopian goal of recognizing race and gender and the Marxist goal of overcoming social class *Studies in Symbolic Interaction* Norman K.

Denzin,2009-10-01 Divided into four parts this title examines commodity racism representation racialization and resistance It presents the interpretive works in the interactionist tradition It features the essays which interrogate the intersections between biography media history politics and culture The Politics of Economic Life Martin Beckstein,2015-09-07 In

recent years economic life has become increasingly politicized now every company has a philosophy promising its customers some ethical surplus in return for buying their products consumers shop for change workers engage in individualized forms of employee activism such as whistleblowing and governments contribute to the re configuration of the economic sphere as a site of political contestation by reminding corporate and private economic actors of their duty to do their bit The Politics of Economic Life addresses this trend by exploring the ways in which practices of consumption work production and entrepreneurship are imbued with political strategy and ideology and assesses the potentials and perils of the politicization of economic activity for democracy in the 21st century Maximalism in Contemporary American Literature Nick

Levey,2016-11-18 This book begins a new and foundational discussion of maximalism by investigating how the treatment of detail in contemporary literature impels readers to navigate tolerate and enrich the cultural landscape of postindustrial America It studies the maximalist novels of David Foster Wallace Nicholson Baker Thomas Pynchon and others considering how overly detailed writing serves the institutional emotional and intellectual needs of contemporary readers and writers The book argues that maximalist novels not only exceed perceived limits of style subject matter and scope but strive to remake the usefulness of books in contemporary culture refreshing the act of reading Levey shows that while these novels are preoccupied with detail and description they are relatively unconcerned with the traditional goals of representation Instead they use detail to communicate particular values and fantasies of intelligence enthusiasm and ability attached to the management of complex and excessive information Whether reinvigorating the banal and trivial in mainstream culture or soothing anxieties of human insufficiency in the age of automation and the internet these texts model significant abilities rather than just objects of significance and encourage readers to develop habits of reading that complement the demands of an increasingly detailed culture Drawing upon a diverse range of theoretical schools and cultural texts including Thing Theory Marxism New Formalism playlists blogs and archival manuscripts the book proposes a new understanding of maximalist writing and a new way of approaching the usefulness of literary objects in contemporary culture **Murders**

the term was coined by Robert Ressler at the FBI in the mid 1970s Murders and Acquisitions explores the social and political implications of this cultural figure The collection argues that the often blood chilling representations of the serial killer and serial killing offered in TV series films novels and fan productions function to address contemporary concerns and preoccupations Focusing on well known popular culture texts such as The Wire Kiss the Girls Monster the Saw series American Psycho The Strangers CSI and Dexter this eclectic anthology engages with a broad spectrum of cultural theory and performs critical textual analysis to examine the sophisticated ways the serial killer is deployed to mediate and or work through cultural anxieties and fears

Reading the Difficulties Thomas Fink, Judith Halden-Sullivan, 2014-02-28 Definitions of what constitutes innovative poetry are innumerable and are offered from every quarter Some critics and poets argue that innovative poetry concerns free association John Ashbery others that experimental poetry is a re staging of language Bruce Andrews or a syntactic and cognitive break with the past Ron Silliman and Lyn Hejinian The tenets of new poetry abound But what of the new reading that such poetry demands The essays in Reading the Difficulties offer case studies in and strategies for reading innovative poetry They allow readers to interact with verse that deliberately removes many of the comfortable cues to comprehension poetry that is frequently non narrative non representational and indeterminate in subject theme or message Book jacket

The New Development Management Sadhvi Dar, Professor Bill Cooke, 2013-07-18 Development management is an idea that blends the seemingly innocuous claims of managerialism with notions of modernity and utopian ideals of third world progress This book views both phenomena as problematic and modernizing interventions In doing so it overturns and reclaims such ideas as participation community governance NGOs and civil society The contributors argue that the practices of development are often threaded together by the language of managerialism reports logframe encounters with the boss yet all of these serve to further development s disengagement from the mundane In voicing such concerns about the way development is going and about the encroachment

of managerialism The New Development Management will breathe fresh life into post development debates *Hegel's Moral Corporation* Thomas Klikauer,2016-01-26 Hegel's Moral Corporation is about two versions of a corporation one business oriented and dedicated to shareholder value and profit maximisation and one dedicated to moral life Sittlichkeit in Hegelian terms **Musician in the Museum** Charles Fairchild,2021-01-14 In recent years popular music museums have been established in high profile locations in many of the presumed musical capitals of the world such as Los Angeles Liverpool Seattle Memphis and Nashville Most of these are defined by expansive experiential infrastructures centered around spectacular high tech displays of varying sizes and types Through over the top acts of display these museums influence and reflect the values and priorities in the public life of popular music This book examines the phenomenon of the popular music museum outside the typical and familiar frames of heritage and tourism Instead it looks at these institutions as markers of the broader entertainment industry in the era of its rise to global dominance It highlights the multiple manifestations of power as read across a range of institutions and material forms and discusses how this contributes to shaping the experience of popular culture A Companion to the Global Renaissance Jyotsna G.
