

Reimagine Business Models

Navigating your company in today's new reality

BUSINESS MODELS DRIVEN BY DIGITAL TECHNOLOGIES

Digital is impacting every industry. Companies need to redefine customer experience and rethink what they do, how they do it, and who they do it for. Business model innovation must be at the core of every CEO's agenda to thrive in the digital world, and the organization needs to align on a clearly defined goal and strategy.

A Business Model is defined by the following characteristics:

- Value proposition and how it is delivered to the target customers.
- Innovative ways to make money and maximize shareholder value.
- Core competencies and assets needed to create competitive advantage.
- Strategic suppliers and partnerships critical to a successful business.
- External market forces and regulations that could impact the business.

We studied the most prevalent and effective approaches used by digital leaders and found **six innovative digital business models** that are making a difference.

- 01 | Outcome based models
- 02 | Expansion into new industries and markets
- 03 | Digitization of products and services
- 04 | Competing as an ecosystem
- 05 | Shared economy
- 06 | Digital platform

Lewis,2016-05-04 Academic libraries are in the midst of significant disruption Academic librarians and university administrators know they need to change but are not sure how Bits and pieces of what needs to happen are clear but the whole picture is hard to grasp Reimagining the Academic Library paints a simple straightforward picture of the changes affecting academic libraries and what academic librarians need to do to respond to the changes would help to guide future library practice The aim is to explain where academic libraries need to go and how to get there in a book that can be read in a weekend David Lewis provides a readable survey of the current state of

academic library practice and proposes where academic libraries need to go in the future to provide value to their campuses. His primary focus is on collections as this is the area with the greatest opportunity for change and is the driver of most library cost. Lewis provides an accessible framework for thinking about how library practice needs to adjust in the digital environment. The book will be useful not only to academic librarians but also for librarians to share with presidents and provosts who are a concise source for understanding where and how to focus their expenditures on libraries.
