Reincarnation ,1921 Return of the Swastika Koenraad Elst,2015-02-18 Return of the Swastika presents a collection of essays by the Belgian historian and Indologist Koenraad Elst who is renowned for his writings on Indian history and Hindu nationalism The subjects of these essays are manifold ranging over issues pertaining to the Hindu Right communitarianism the European New Right immigration from Islamic countries fascism both historical and contemporary and European neo paganism Several of the essays also discuss the alleged connections between Hinduism and the more esoteric and pagan oriented elements of Nazism including a critique of the neo Nazi mystic Savitri Devi who attempted to depict Hitler as an avatar of the Hindu god Vishnu The running theme through all of these essays is Elst's exploration of how ideas and symbols are misrepresented by their opponents and those who seek to alter their meanings for their own purposes and an insistence on understanding things as they are rather than through their representation by others For Elst the Nazi appropriation of the swastika one of the most ancient symbols of human civilisation and a sacred sign of Hinduism and its subsequent demonisation by anti fascists in the West is a case in point The answer is not to ban the swastika and thus cede the right to define it to those who misuse it but rather to insist on its actual meaning allowing it to be reborn and to flourish freely once again
