Symptoms of Interference, Conditions of Possibility ,1994 **Symptoms of Interference** ,1994 *A Reinhardt, J Kosuth, F Gonzales-Torres - Symptoms of Interference - Art & Design Profile 34(Paper Only)* Ad Reinhardt,1994-02-22 **Ad Reinhardt** Michael Corris,2008-03-15 Michael Corris examines Ad Reinhardt s life and work charting the development of his entire oeuvre from abstract paintings to graphic artwork to illustrations and cartoons **Felix Gonzalez-Torres** Felix Gonzalez-Torres,David Breslin,2018-06-26 One of the most significant artists to emerge in the late 1980s and early 1990s Felix Gonzalez Torres s reduced formal vocabulary conceptual rigor and evocative use of everyday materials resonates with meaning that is at once specific and mutable rigorous and generous poetic and political Featuring several key bodies of work from throughout the artist s career this publication showcases a series of distinct installations at David Zwirner in New York in 2017 The interplay with the specific architecture of the gallery and the way works are installed is highlighted throughout the catalogue with images that explore the poetics of how space and work influence each other Together in their radical openness to interventions of site audience and context the works on view challenge perceived notions of what constitutes an exhibition space a public an artwork itself Despite the resolute abstraction of much of his work Gonzalez Torres worked with familiar materials from his iconic candy spill works and his evocative light string pieces but also including mirrors clocks and curtains His work activates the architecture of the various spaces the physicality of the viewer the past and present continuously maintaining its relevance Opening with details of the exhibition and images of visitors in the spaces the publication walks the reader through each piece New text by David Breslin explores the variety of works included here while contextualizing Gonzalez Torres s contribution to art history **Ethical Materialities in Art and Moving Images** Silke Panse,2024-12-26 Starting from the premise that after modernism and postmodernism in the Anthropocene an artwork cannot rest upon its separation from the planet this volume develops new ethical practice and thought with respect to art philosophy and moving images Practitioners and theorists examine how the relations between the ethical and the material figure in a context in which a dearth of ethical practice and thought has caused the materialities of the Anthropocene and the climate catastrophe Ethics are generally regarded as constituted through immaterial relations guided by moral imperatives By contrast this volume argues that the singular ethicalities that are manifested in a work cannot be captured by abstract ethics The explorations of the ethical here are not prescriptive but creative Through artistic and philosophical thought and practice the contributions move beyond the division between an active practice of ethics and a contemplative theory of aesthetics They ask what ethicalities and materialities are at play in the relations between the artist the art their worlds and the planet after new materialism and posthumanism Rather than transcending the ethical through the material or the material through the ethical the contributions articulate the singular relations between them and consider the inter and intra active ethical and material relations of art and images in biodiverse environments They suggest that to bring out the ethical

dimensions of the material and the material dimension of the ethical without identifying one with the other is a responsibility of art and images

Curious Lessons in the Museum Claire Robins, 2016-05-13 Amongst recent contemporary art and museological publications there have been relatively few which direct attention to the distinct contributions that twentieth and twenty first century artists have made to gallery and museum interpretation practices There are fewer still that recognise the pedagogic potential of interventionist artworks in galleries and museums This book fills that gap and demonstrates how artists have been making curious but none the less useful contributions to museum education and curation for some time Claire Robins investigates in depth the phenomenon of artists interventions in museums and examines their pedagogic implications She also brings to light and seeks to resolve many of the contradictions surrounding artists interventions where on the one hand contemporary artists have been accused of alienating audiences and on the other appear to have played a significant role in orchestrating positive developments to the way that learning is defined and configured in museums She examines the disruptive and parodic strategies that artists have employed and argues for that they can be understood as part of a move to re establish the museum as a discursive forum This valuable book will be essential reading for students and scholars of museum studies as well as art and cultural studies

Models of Integrity Joan Kee, 2019-02-12 Models of Integrity examines the relationship between contemporary art and the law through the lens of integrity In the 1960s artists began to engage conspicuously with legal ideas rituals and documents The law a primary institution subject to intense moral and political scrutiny was a widely recognized source of authority to audiences inside the art world and out Artists frequently engaged with the law in ways that signaled a recuperation of the integrity that they believed had been compromised by the very institutions entrusted with establishing standards of just conduct These artists sought to convey the social purpose of an artwork without overstating its political impact and without losing sight of how aesthetic decisions compel audiences to see their everyday world differently Addressing the role that law plays in enabling artworks to function as social and political forces this important book fills a gap in the field of law and the humanities and will serve as a practical how to for contemporary artists
