Reinterpreting The Banana Republic:

Reinterpreting the Banana Republic Dario A. Euraque, 1997 **First in the Family** Jessica Hoppe, 2024-09-10 An unflinching and intimate memoir of recovery by Jessica Hoppe Latinx writer advocate and creator of NuevaYorKa A powerful thunderclap of a memoir Lilliam Rivera author of Dealing in Dreams A MOST ANTICIPATED BOOK OF 2024 Today com LupitaReads Electric Literature Esquire Publishers Weekly In this deeply moving and lyrical memoir Hoppe shares an intimate courageous account of what it means to truly interrupt cycles of harm For readers of The Recovering by Leslie Jamison Somebody's Daughter by Ashley C Ford and Heavy by Kiese Laymon During the first year of quarantine drug overdoses spiked the highest ever recorded And Hoppe's cousin was one of them I never learned the true history of substance use disorder in my family Hoppe writes People just disappeared At the time of her cousin's death she'd been in recovery for nearly four years but she hadn't told anyone In First in the Family Hoppe shares her journey the first in her family to do so and takes the reader on a remarkable investigation of her family's history the American Dream and the erasure of BIPOC from recovery institutions and narratives leaving the reader with an urgent message of hope Marijuana Boom Lina Britto, 2020-03-24 Before Colombia became one of the world's largest producers of cocaine in the 1980s traffickers from the Caribbean coast partnered with American buyers in the 1970s to make the South American country the main supplier of marijuana for a booming US drug market fueled by the US hippie counterculture How did Colombia become central to the creation of an international drug trafficking circuit Marijuana Boom is the story of this forgotten history Combining deep archival research with unprecedented oral history Lina Britto deciphers a puzzle Why did the Colombian coffee republic a model of Latin American representative democracy and economic modernization transform into a drug paradise and at what cost Roots of Resistance Suyapa G. Portillo Villeda, 2021-03-16 Winner of the 2021 Sara A Whaley Prize of the National Women's Studies Association NWSA A first of its kind study of the working class culture of resistance on the Honduran North Coast and the radical organizing that challenged US capital and foreign intervention at the onset of the Cold War examining gender race and place On May 1 1954 striking banana workers on the North Coast of Honduras brought the regional economy to a standstill invigorating the Honduran labor movement and placing a series of demands on the US controlled banana industry Their actions ultimately galvanized a broader working class struggle and reawakened long suppressed leftist ideals The first account of its kind in English Roots of Resistance explores contemporary Honduran labor history through the story of the great banana strike of 1954 and centers the role of women in the narrative of the labor movement Drawing on extensive firsthand oral history and archival research Suyapa G Portillo Villeda examines the radical organizing that challenged US capital and foreign intervention in Honduras at the onset of the Cold War She reveals the everyday acts of resistance that laid the groundwork for the 1954 strike and argues that these often overlooked forms of resistance should inform analyses of present day labor and community organizing Roots of Resistance highlights the

complexities of transnational company hierarchies gender and race relations and labor organizing that led to the banana workers strike and how these dynamics continue to reverberate in Honduras today *Latin American Politics and Development* Harvey F. Kline, Christine J. Wade, 2022-08-23 For over forty years *Latin American Politics and Development* has kept instructors and students abreast of current affairs and changes in Latin America Now in its tenth edition this authoritative yet accessible introduction has been updated throughout Organized on a country by country basis *Latin American Politics and Development* offers instructors maximum flexibility in organizing courses Revisions to the Tenth Edition include An updated theoretical framework to explain changes in the region including discussions of electoral systems and political actors Discussions on presidential parliamentary and municipal election cycles throughout the region from 2017 through early 2022 Coverage of the COVID 19 pandemic Examination on the regional decline in democratic norms and practices A look at the impact of the Trump administration on regional relations including the decline in democracy Updates on race Indigenous groups women Afro Latin Americans contemporary social movements religious and other non elite groups

Working Hard, Drinking Hard Adrienne Pine, 2008-05-07 Honduras is violent Adrienne Pine situates this oft repeated claim at the center of her vivid and nuanced chronicle of Honduran subjectivity Through an examination of three major subject areas violence alcohol and the export processing maquiladora industry Pine explores the daily relationships and routines of urban Hondurans She views their lives in the context of the vast economic footprint on and ideological domination of the region by the United States powerfully elucidating the extent of Honduras s dependence She provides a historically situated ethnographic analysis of this fraught relationship and the effect it has had on Hondurans understanding of who they are The result is a rich and visceral portrait of a culture buffeted by the forces of globalization and inequality **The Ends of Paradise** Christopher Loperena, 2022-11-15 The future of Honduras begins and ends on the white sand beaches of Tela Bay on the country s northeastern coast where Garifuna a Black Indigenous people have resided for over two hundred years In *The Ends of Paradise* Christopher A Loperena examines the Garifuna struggle for life and collective autonomy and demonstrates how this struggle challenges concerted efforts by the state and multilateral institutions such as the World Bank to render both their lands and their culture into fungible tourism products Using a combination of participant observation courtroom ethnography and archival research Loperena reveals how purportedly inclusive tourism projects form part of a larger neoliberal extractivist development regime which remakes Black and Indigenous territories into frontiers of progress for the mestizo majority The book offers a trenchant analysis of the ways Black dispossession and displacement are carried forth through the conferral of individual rights and freedoms a prerequisite for resource exploitation under contemporary capitalism By demanding to be accounted for on their terms Garifuna anchor Blackness to Central America a place where Black peoples are presumed to be nonnative inhabitants and to collective land rights Steeped in Loperena s long term activist engagement with Garifuna land defenders this book is a testament to their struggle and to the promise of another world in

which Black and Indigenous peoples thrive **The Oxford Handbook of Central American History** Robert H. Holden, 2022 Leading scholars of Central America offer critical analyses of major themes in the historiography of this seven country region of Latin America Chapters engage both the novice's search for basic orientation and context and the experienced scholar's interest in evaluative critiques of the historical literature **The Business of Empire** Jason M. Colby, 2011-10-27 The link between private corporations and U S world power has a much longer history than most people realize Transnational firms such as the United Fruit Company represent an earlier stage of the economic and cultural globalization now taking place throughout the world Drawing on a wide range of archival sources in the United States Great Britain Costa Rica and Guatemala Colby combines top down and bottom up approaches to provide new insight into the role of transnational capital labor migration and racial nationalism in shaping U S expansion into Central America and the greater Caribbean The Business of Empire places corporate power and local context at the heart of U S imperial history In the early twentieth century U S influence in Central America came primarily in the form of private enterprise above all United Fruit Founded amid the U S leap into overseas empire the company initially depended upon British West Indian laborers When its black workforce resisted white American authority the firm adopted a strategy of labor division by recruiting Hispanic migrants This labor system drew the company into increased conflict with its host nations as Central American nationalists denounced not only U S military interventions in the region but also American employment of black immigrants By the 1930s just as Washington renounced military intervention in Latin America United Fruit pursued its own Good Neighbor Policy which brought a reduction in its corporate colonial power and a ban on the hiring of black immigrants The end of the company's system of labor division in turn pointed the way to the transformation of United Fruit as well as the broader U S empire **The Legacies of Liberalism** James Mahoney, 2003-04-01 Winner of the Barrington Moore Jr Prize for the Best Book in Comparative and Historical Sociology from the American Sociological Association Winner of the Best Book Award in the Comparative Democratization Section from the American Political Science Association Despite their many similarities Central American countries during the twentieth century were characterized by remarkably different political regimes In a comparative analysis of Guatemala El Salvador Costa Rica Honduras and Nicaragua James Mahoney argues that these political differences were legacies of the nineteenth century liberal reform period Presenting a theory of path dependence Mahoney shows how choices made at crucial turning points in Central American history established certain directions of change and foreclosed others to shape long term development By the middle of the twentieth century three types of political regimes characterized the five nations considered in this study military authoritarian Guatemala El Salvador liberal democratic Costa Rica and traditional dictatorial Honduras Nicaragua As Mahoney shows each type is the end point of choices regarding state and agrarian development made by these countries early in the nineteenth century Applying his conclusions to present day attempts at market creation in a neoliberal era Mahoney warns that overzealous pursuit of market

creation can have severely negative long term political consequences The Legacies of Liberalism presents new insight into the role of leadership in political development the place of domestic politics in the analysis of foreign intervention and the role of the state in the creation of early capitalism The book offers a general theoretical framework that will be of broad interest to scholars of comparative politics and political development and its overall argument will stir debate among historians of particular Central American countries

The Company They Kept Lara Putnam,2003-11-03 In the late nineteenth century migrants from Jamaica Colombia Barbados and beyond poured into Caribbean Central America building railroads digging canals selling meals and farming homesteads On the rain forested shores of Costa Rica U S entrepreneurs and others established vast banana plantations Over the next half century short lived export booms drew tens of thousands of migrants to the region In Port Limón birthplace of the United Fruit Company a single building might house a Russian seamstress a Martinican madam a Cuban doctor and a Chinese barkeep together with stevedores laundresses and laborers from across the Caribbean Tracing the changing contours of gender kinship and community in Costa Rica's plantation region Lara Putnam explores new questions about the work of caring for children and men and how it fit into the export economy the role of kinship as well as cash in structuring labor the social networks that shaped migrants lives and the impact of ideas about race and sex on the exercise of power Based on sources that range from handwritten autobiographies to judicial transcripts and addressing topics from intimacy between prostitutes to insults between neighbors the book illuminates the connections between political economy popular culture and everyday life

Fair Bananas! Henry J. Frundt, 2022-04-19 Bananas are the most consumed fruit in the world In the United States alone the public eats about twenty eight pounds of bananas per person every year The total value of the international banana trade is nearly five billion dollars annually with 80 percent of all exported bananas originating in Latin America There are as many as ten million people involved in growing packing and shipping bananas but American consumers have only recently begun to think about them and about their working conditions Although European nations have helped create a fair trade system for bananas grown in Mediterranean and Caribbean regions the United States as a country has not developed a similar system for bananas grown in Latin America where large corporations have dominated trade for more than a century Fair Bananas is one of the first books to examine the issue of fair trade bananas Specifically Henry Frundt analyzes whether a farmer worker consumer alliance can collaborate to promote a fair trade label for bananas much like those for fair trade coffee and chocolate that will appeal to North American shoppers Researching the issue for more than ten years Henry Frundt has elicited surprising and nuanced insights from banana workers Latin American labor officials company representatives and fair trade advocates Frundt writes with admirable clarity throughout the book which he has designed for college students who are being introduced to the subject of international trade and for consumers who are interested in issues of development Frankly though Fair Bananas will appeal to anyone who wants to know more about bananas including where they come from and how they get from there to here

On the Line Vanesa Ribas, 2016 How does one put into words the rage that workers feel when supervisors threaten to replace them with workers who will not go to the bathroom in the course of a fourteen hour day of hard labor even if it means wetting themselves on the line From the Preface In this gutsy eye opening examination of the lives of workers in the New South Vanesa Ribas working alongside mostly Latino a and native born African American laborers for sixteen months takes us inside the contemporary American slaughterhouse Ribas a native Spanish speaker occupies an insider outsider status there enabling her to capture vividly the oppressive exploitation experienced by her fellow workers She showcases the particular vulnerabilities faced by immigrant workers a constant looming threat of deportation reluctance to seek medical attention and family separation as she also illuminates how workers find connection and moments of pleasure during their grueling shifts Bringing to the fore the words ideas and struggles of the workers themselves On The Line underlines how deep racial tensions permeate the factory as an overwhelmingly minority workforce is subject to white dominance Compulsively readable this extraordinary ethnography makes a powerful case for greater labor protection especially for our nation s most vulnerable workers

Black and Indigenous Mark David Anderson, 2009 Garifuna live in Central America primarily Honduras and the United States Identified as Black by others and by themselves they also claim indigenous status and rights in Latin America

Examining this set of paradoxes Mark Anderson shows how on the one hand Garifuna embrace discourses of tradition roots and a paradigm of ethnic political struggle On the other hand Garifuna often affirm blackness through assertions of African roots and affiliations with Blacks elsewhere drawing particularly on popular images of U S blackness embodied by hip hop music and culture Black and Indigenous explores the politics of race and culture among Garifuna in Honduras as a window into the active relations among multiculturalism consumption and neoliberalism in the Americas Based on ethnographic work Anderson questions perspectives that view indigeneity and blackness nativist attachments and diasporic affiliations as mutually exclusive paradigms of representation being and belonging As Anderson reveals within contemporary struggles of race ethnicity and culture indigeneity serves as a normative model for collective rights while blackness confers a status of subaltern cosmopolitanism Indigeneity and blackness he concludes operate as unstable often ambivalent and sometimes overlapping modes through which people both represent themselves and negotiate oppression

Diaspora Conversions

Paul Christopher Johnson, 2007-09-03 I m extremely impressed by Johnson s book Diaspora Conversions offers an outstanding combination of theoretical acuity erudition and ethnographic prowess It is bound to become highly influential in the study of religion in motion Manuel A Vasquez co author of Globalizing the Sacred Religion Across the Americas Johnson s work bursts through the present conversations on African diaspora and brings us onto entirely new ground shattering simplistic ideas and replacing them with critical distinctions This smart and talented ethnographer succeeds in combining detailed and rich ethnographic fieldwork with an unrelentingly critical and sophisticated analysis Johnson s work brings to life one of the most central perhaps the most central classic question of African American anthropology How is Black culture constituted even through dislocation and displacement Elizabeth McAlister author of Rara Vodou Power and Performance in Haiti and Its Diaspora Diasporic Conversions convincingly breaks new ground by showing how the meaning of homeland is fundamentally a product of historically situated and contested forms of collective imagination What will make Johnson s book a benchmark in the study of the African diaspora and diasporic situations more generally is that it is not just a richly documented and rigorously argued ethnography but a genuine anthropology of historical consciousness Stephan Palmi author of Wizards and Scientists Explorations in Afro Cuban Modernity and Tradition

Bananas and Business

Marcelo Bucheli, 2005-02-01 For well over a century the United Fruit Company UFCO has been the most vilified multinational corporation operating in Latin America Criticism of the UFCO has been widespread ranging from politicians to consumer activists and from labor leaders to historians all portraying it as an overwhelmingly powerful corporation that shaped and often exploited its host countries In this first history of the UFCO in Colombia Marcelo Bucheli argues that the UFCO s image as an all powerful force in determining national politics needs to be reconsidered Using a previously unexplored source the internal archives of Colombia s UFCO operation Bucheli reveals that before 1930 the UFCO worked alongside a business friendly government that granted it generous concessions and repressed labor unionism After 1930 however the country experienced dramatic

transformations including growing nationalism a stronger labor movement and increasing demands by local elites for higher stakes in the banana export business In response to these circumstances the company abandoned production selling its plantations and labor conflicts to local growers while transforming itself into a marketing company The shift was endorsed by the company s shareholders and financial analysts who preferred lower profits with lower risks and came at a time in which the demand for bananas was decreasing in America Importantly Bucheli shows that the effect of foreign direct investment was not unidirectional Instead the agency of local actors affected corporate strategy just as the UFCO also transformed local politics and society

The Art of Solidarity Jessica Stites Mor, Maria del Carmen Suescun Pozas, 2018-10-17 The Cold War claimed many lives and inflicted tremendous psychological pain throughout the Americas The extreme polarization that resulted from pitting capitalism against communism held most of the creative and productive energy of the twentieth century captive Many artists responded to Cold War struggles by engaging in activist art practice using creative expression to mobilize social change The Art of Solidarity examines how these creative practices in the arts and culture contributed to transnational solidarity campaigns that connected people across the Americas from the early twentieth century through the Cold War and its immediate aftermath This collection of original essays is divided into four chronological sections cultural and artistic production in the pre Cold War era that set the stage for transnational solidarity organizing early artistic responses to the rise of Cold War polarization and state repression the centrality of cultural and artistic production in social movements of solidarity and solidarity activism beyond movements Essay topics range widely across regions and social groups from the work of lesbian activists in Mexico City in the late 1970s and 1980s to the exchanges and transmissions of folk music practices from Cuba to the United States to the uses of Chilean arpilleras to oppose and protest the military dictatorship While previous studies have focused on politically engaged artists or examined how artist communities have created solidarity movements this book is one of the first to merge both perspectives

Multicultural America Ronald H. Bayor, 2011-07-22 This encyclopedia contains 50 thorough profiles of the most numerically significant immigrant groups now making their homes in the United States telling the story of our newest immigrants and introducing them to their fellow Americans One of the main reasons the United States has evolved so quickly and radically in the last 100 years is the large number of ethnically diverse immigrants that have become part of its population People from every area of the world have come to America in an effort to realize their dreams of more opportunity and better lives either for themselves or for their children This book provides a fascinating picture of the lives of immigrants from 50 countries who have contributed substantially to the diversity of the United States exploring all aspects of the immigrants lives in the old world as well as the new Each essay explains why these people have come to the United States how they have adjusted to and integrated into American society and what portends for their future Accounts of the experiences of the second generation and the effects of relations between the United States and the sending country round out these unusually rich and demographically detailed

portraits *Globalization and Cross-Border Labor Solidarity in the Americas* Ralph Armbruster-Sandoval, 2005-07-05
Challenging sweatshop labor practices is extremely difficult but garment workers labor unions and non government organizations from Central America and the United States have successfully mobilized for better wages and working conditions over the past ten years Those gains have not been broadened or sustained over time however This book examines why these various outcomes occurred through a comprehensive analysis of four cross border labor solidarity campaigns It concludes with some short medium and long term strategies for addressing and potentially overcoming some of the obstacles that the contemporary anti sweatshop movement currently faces
