

Waning European Influence

- Americans wanted to produce unique American literature that could ‘compete’ with the literature coming out of Europe. Authors, poets, and philosophers attempted to create a uniquely American body of literature.
- Decades after independence from England, American intellectuals believed it was time for literary independence as well.
- And so they deliberately went about creating literature, essays, novels, philosophy, poetry, and other writing that were clearly different from anything produced in England, France, Germany, or other European nations.
- American writers tried new forms and new ideas for literature.
- They rejected the idea they had to follow European “rules.”
