The Alphorn through the Eyes of the Classical Composer Frances Jones, 2021-04-06 The Alphorn through the Eyes of the Classical Composer is the first and definitive book to be written about

the alphorn in English It has been written with English speaking readers in mind as it examines the extensive interest of primarily non Swiss composers writers and artists in the alphorn as a symbol of the Alps the influence and significance of the alphorn in culture literature and the arts across the globe and the ways in which the instrument has been specifically utilised by the Swiss as the iconic representation of their country This book also explores the use of the musical language of the alphorn call to ascertain why and how such references as those of Berlioz or Beethoven can convey so much meaning Dr Jones seeks out what it is that a composer brings into the concert hall the theatre the opera house the church or the drawing room by such a quotation to what heritage they are referring and upon what basis there are grounds for an assumption that such a reference will be understood by an audience The book which will be of interest to researchers in Swiss cultural studies and ethnomusicology builds on Dr Jones s research and PhD thesis The six chapters deal with a variety of topics including a basic introduction to the alphorn and an exploration of the promotion of the instrument as the symbol of Switzerland as well as the reasons behind symbolic references to alphorn motifs by European and British composers in concert repertoire jazz and film
