## **Relationships Between Women In Later Life:**

*Relationships Between Women in Later Life* Karen A. Roberto, 1996 *Relationships Between Women in Later Life* makes a significant contribution to the literature available on older women through its recognition of the diversity that exists among older women and of the different types of social and familial bonds that characterize their individual lifestyles. From the book's cross-sectional and longitudinal studies, you will broaden your understanding of the roles older women assume in their relationships and the unique health, personal, and social issues they face. By reading *Relationships Between Women in Later Life*, you will acquire an understanding of traditional female relationships such as those that exist between mother and daughter, and grandmother and granddaughter, and how they develop and change as time passes. You will also gain important insight into the relationships between lesbians in later life, between Catholic sisters, and between women in structured environments such as nursing homes. In addition, if you are a social worker, nurse, gerontologist, or researcher, you will enhance your theoretical understanding and practical knowledge of both informal and formal ties and relationships among women in their later years. The authors of *Relationships Between Women in Later Life* come from a variety of academic backgrounds, including Gerontology, Family Studies, and Human Development, Social Work, Anthropology, and Nursing, to offer a broad perspective on the different aspects of women's relationships, their social networks, and the factors that shape the development and maintenance of the two. They present new data on the various components of women's relationships and make helpful recommendations for future research and practice considerations. This book will be of great service to academics, researchers, graduate students, and counselors in their efforts to better understand and better serve the fastest growing segment of today's population.

*Fundamentals of Feminist Gerontology* J. Dianne Garner, 1999 *Fundamentals of Feminist Gerontology* strives to increase women's self-esteem and their overall quality of life by encouraging education and putting a stop to age, sex, and race discrimination. As a student or professional in psychology, social work, or gerontology, you will learn about feminist conceptions of retirement, economic issues, psychological issues, and social issues, and you will explore studies on old-age discrimination and devaluation and sexism toward women in Western societies to gain an understanding of the experiences of older Western women. This book also shows how some women are experiencing empowerment through alternative health care such as mind-body therapies, homeopathy, aromatherapy, and herbal medicine. *Fundamentals of Feminist Gerontology* will provide you with the tools to offer effective therapy to women to help them improve their own lives.

*HIV, Sex and Sexuality in Later Life* Mark Henrickson, Casey Charles, Shiv Ganesh, Sulaimon Giwa, Kan Diana Kwok, Tetyana Semigina, 2024-05-21 Drawing on international perspectives and research, this book explores the experiences of sex and sexuality in individuals and groups living with HIV in later life. 50

Nussbaum,Justine Coupland,2004-04-12 This second edition of the Handbook of Communication and Aging Research captures the ever changing and expanding domain of aging research Since it was first recognized that there is more to social aging than demography gerontology has needed a communication perspective Like the first edition this handbook sets out to demonstrate that aging is not only an individual process but an interactive one The study of communication can lead to an understanding of what it means to grow old We may age physiologically and chronologically but our social aging how we behave as social actors toward others and even how we align ourselves with or come to understand the signs of difference or change as we age are phenomena achieved primarily through communication experiences Synthesizing the vast amount of research that has been published on communication and aging in numerous international outlets over the last three decades the book s contributors include scholars from North America and the United Kingdom who are active researchers in the perspectives covered in their particular chapter Many of the chapters work to deny earlier images of aging as involving normative decrement to provide a picture of aging as a process of development involving positive choices and providing new opportunities A recurring theme in many chapters is that of the heterogeneity of the group of people who are variously categorized as older aged elderly or over 65 The contributors review the literature analytically in a way that reveals not only current theoretical and methodological approaches to communication and aging research but also sets the future agenda This handbook will be of great interest to scholars and researchers in gerontology developmental psychology and communication and in this updated edition will continue to play a key role in the study of communication and aging Reimagining Age-Friendly Communities Tine Buffel,Patty Doran,Sophie Yarker,2024-06-28
