Relative Clauses In Spanish Without Overt Antecedents And Related Constructions:

Relative Clauses in Spanish Without Overt Antecedents and Related Constructions Susan Plann, 1980-01-01

Relative Clauses in Spanish Without Overt Antecedents and Related Constructions Susan Plann, 1978

Headless Relative Clauses in Mesoamerican Languages Ivano Caponigro, Harold Torrence, Roberto Zavala

Maldonado, Roberto Zavala, 2021 This volume constitutes the first in depth systematic study of varieties of headless relative clauses in fifteen languages from five language families all Mesoamerican languages spoken in Mexico and Guatemala and one Chibchan language spoken in Honduras Headless relative clauses are clauses that often resemble interrogative clauses or headed relative clauses in their morpho syntactic shape but whose meaning brings them close to nominal constructions For the vast majority of the languages in this volume many of which are endangered and all of which are understudied the work presented here represents the only published material on the subject **The Syntax of Spanish** Karen Zagana, 2002

A clear and well organised introduction to Spanish syntax assuming no prior knowledge of current theory **Semantic Issues in Romance Syntax** Esthela Treviño, José Lema, 1999-05-15 All of the articles in this volume focus on the interaction of form and meaning Most of them are developed under the principal thesis of the Minimalist Program These works show that the theoretical linguistic trend is to discover semantic aspects which are assumed to have visible syntactic repercussions through morphosyntactic and morphosemantic features *Theoretical Syntax, 1980-1990* Rosemarie Ostler, 1992 This volume is intended to be used by practicing scholars as well as students It represents all major and some of the minor trends that have evolved during the past decade Book titles from all available sources have been included as well as periodical articles from the major journals whenever there was evidence of a theoretical approach To ensure maximum accessibility of the entries listed books and articles in language other than English and unpublished dissertations and working papers have been excluded All entries are fully annotated and the volume is completed by indices of authors and subjects *Relative*

Clauses in Spanish Without Overt Antecedents and Related Constructions Harvey Pitkin, Susan Plann, 1980 *Relativization and Nominalized Clauses in Huallaga (Huanuco) Quechua* David Weber, 1983-01-01 The Handbook of Hispanic Linguistics

José Ignacio Hualde, Antxon Olarrea, Erin O'Rourke, 2012-04-16 Reflecting the growth and increasing global importance of the Spanish language The Handbook of Hispanic Linguistics brings together a team of renowned Spanish linguistics scholars to explore both applied and theoretical work in this field Features 41 newly written essays contributed by leading language scholars that shed new light on the growth and significance of the Spanish language Combines current applied and theoretical research results in the field of Spanish linguistics Explores all facets relating to the origins evolution and geographical variations of the Spanish language Examines topics including second language learning Spanish in the classroom immigration heritage languages and bilingualism *Toward a Typology of European Languages* Johannes Bechert, Giuliano Bernini, Claude Buridant, 1990 The series is a platform for contributions of all kinds to this rapidly

developing field General problems are studied from the perspective of individual languages language families language groups or language samples Conclusions are the result of a deepened study of empirical data Special emphasis is given to little known languages whose analysis may shed new light on long standing problems in general linguistics **Enciclopedia de Lingüística Hispánica** Javier Gutiérrez-Rexach,2016-01-29 The Enciclopedia de Linguistica Hisp nica provides comprehensive coverage of the major and subsidiary fields of Spanish linguistics Entries are extensively cross referenced and arranged alphabetically within three main sections Part 1 covers linguistic disciplines approaches and methodologies Part 2 brings together the grammar of Spanish including subsections on phonology morphology syntax and semantics Part 3 brings together the historical social and geographical factors in the evolution of Spanish Drawing on the expertise of a wide range of contributors from across the Spanish speaking world the Enciclopedia de Linguistica Hisp nica is an indispensable reference for undergraduate and postgraduate students of Spanish and for anyone with an academic or professional interest in the Spanish language Spanish linguistics Current Issues in Romance Languages Teresa Satterfield,Christina Tortora,Diana Cresti,2002 This book presents an enlightening collection of papers contributing to theoretical discussions across many topics within the study of Romance Languages and Linguistics The work originates from the 29th Linguistic Symposium on Romance Languages held in 1999 at the University of Michigan Ann Arbor although only a small subpart of the proceedings papers are included in this volume The selected papers have been reworked for the current publication **Reference**

Grammars and Modern Linguistic Theory Gottfried Graustein,Gerhard Leitner,2011-11-21 Over the past few decades the book series Linguistische Arbeiten Linguistic Studies comprising over 500 volumes has made a significant contribution to the development of linguistic theory both in Germany and internationally The series will continue to deliver new impulses for research and maintain the central insight of linguistics that progress can only be made in acquiring new knowledge about human languages both synchronically and diachronically by closely combining empirical and theoretical analyses To this end we invite submission of high quality linguistic studies from all the central areas of general linguistics and the linguistics of individual languages which address topical questions discuss new data and advance the development of linguistic theory

Eurogrammar R. J. C. Smits,2019-11-05 No detailed description available for Eurogrammar Tümpisa (Panamint) Shoshone Grammar Jon Philip Dayley,1989-01-01 This introductory descriptive grammar of T mpisa Panamint Shoshone a central Numic language in the Uto Aztecan family presents the most important grammatical elements and processes in the language with regard to verb noun adjective and adverbial phrases simple sentence constructions coordination and subordination and phonology Several texts and a basic vocabulary list are provided **The Grammar of Lahu** James A. Matisoff,1973-01-01 A polar bear and a brown bear help camouflage each other **The Prosody of Mandarin Chinese** Xiao-nan Susan Shen,1990-01-01 Through acoustic analysis of Mandarin Chinese intonation the author finds that the intonation baseline moves up when intonation is shifted from assertive to interrogative therefore two baselines and two

intonation layers must be reckoned with Sentence intonation affects the tonal values and the tonal shapes of intrinsic lexical tones though not beyond recognition Tonal changes prove to be closely related to sentence intonation which is superimposed simultaneously onto the utterance as a whole The author s findings support the position of the movability of the intonation baseline and rectify some widely spread traditional claims concerning Mandarin Chinese prosody Cocopa Dictionary James Mack Crawford,1989-01-01 **El relativo en el registro científico-técnico español e inglés. Estudio contrastivo** Francisco Fernández Fernández,Carmen Soler Monreal,2001 **Wintu Texts** Alice Shepherd,1989-01-01
