Rights Of Citizenship:

Human Rights and Citizenship Education Dina Kiwan, 2016-01-13 This book considers the philosophical sociological and legal implications of the distinction between universal human rights accorded to all because of their membership of the human species and the more particularistic citizenship rights accorded to those who are members of a political community Contributions come from a wide range of disciplinary and interdisciplinary fields including education law and political philosophy as well as from practitioner perspectives Contributions address the three themes of firstly whether human rights and citizenship are complementary or competing conceptions secondly the justifications for human rights and thirdly human rights and citizenship in different cultural contexts This book was originally published as a special issue of the Cambridge Journal of Education

Human Rights, Or Citizenship? Paulina Tambakaki, 2010-04-05 Human Rights or Citizenship questions whether the evident displacement of the concept of the citizen by human rights can lead us to a more equitable politics

Citizenship and Social Rights Fred Twine, 1994-09-06 This broad ranging text offers an analysis of the idea of citizenship and its relevance to social problems and social policies in advanced industrial societies Twine demonstrates that two concepts are essential to an understanding of the issue of citizenship the socially embedded nature of human agents and their interdependence both with each other and with the natural and social worlds they inhabit Twine emphasizes the social nature of individual needs and individual rights He shows that interdependence is not limited to the mutual linkages within advanced industrial societies but extends both to the relations between advanced and developing nations and to the environmental contexts of human existence

Citizens' Rights and the Right to Be a Citizen Ernst Hirsch Ballin, 2014-01-23 Ernst Hirsch Ballin discusses the significance of citizens rights against the backdrop of ongoing migration and urbanization in the beginning of the 21st century The traditional view that each state has the sovereign power to give or withhold citizenship puts the full enjoyment of human rights at risk whenever exclusion is based on differences in nationality Citizens rights are the essential connecting link between human rights and life in a democratic society Citizens have an individual right as a citizen to take part in the democratic process and in the structures of solidarity of the state where they are effectively at home By recognizing everyone's right to the citizenship of the state in which they can make these rights a reality citizens rights can bridge the gap between the universality of human rights and the changing political and social settings of people's lives Limits on dual citizenship are counterproductive European citizenship paves the way for transnational citizenship Hirsch Ballin's book is very important for academics and practitioners in the field of citizenship It embraces the complexity of citizenship with all its academic practical and emotional meanings Hopefully Hirsch Ballin's work can serve as a compass for new directions in immigration and naturalisation debates Katja Swider in Journal of European Integration Vol 38 nr 4 2016

book has been published with the support of the Swiss National Science Foundation. This book offers a comprehensive analysis of the right to citizenship in international and regional human rights law. It critically reflects on the limitations of state sovereignty in nationality matters and situates the right to citizenship within the existing human rights framework. It identifies the scope and content of the right to citizenship by looking not only at statelessness, deprivation of citizenship or dual citizenship but more broadly at acquisition, loss and enjoyment of citizenship in a migration context. Exploring the intersection of international migration human rights law and belonging, the book provides a timely argument for recognizing a right to the citizenship of a specific state on the basis of one's effective connections to that state according to the principle of *jus nexi*.

Immigrants' Rights, Citizens' Rights Sara Howell, 2014-07-15. Did you know that American laws protect all people who live in America, even people who are not citizens? This book describes in clear language the rights that citizens and non-citizens have. Learn about different ways that people become citizens, how citizenship works, and how immigration plays a role in our society today. *Citizenship and Migration* Stephen Castles, Alastair Davidson, 2020-06-30. This book argues that basing citizenship on singular and individual membership in a nation-state is no longer adequate since the nation-state model itself is being severely eroded. It examines issues of citizenship and difference in the Asia-Pacific region.

Hertslet's Commercial Treaties, 1901. A collection of treaties and conventions between Great Britain and foreign powers and of the laws, decrees, orders in council concerning the same so far as they relate to commerce and navigation, slavery, extradition, nationality, copyright, postal matters, and to the privileges and interests of the subjects of the high contracting parties.

The Human Rights of Non-citizens David Weissbrodt, 2008-06-19. Non-citizens include asylum seekers, rejected asylum seekers, immigrants, non-immigrants, migrant workers, refugees, stateless persons, and trafficked persons. This book argues that regardless of their citizenship status, non-citizens should, by virtue of their essential humanity, enjoy all human rights unless exceptional distinctions serve a legitimate State objective and are proportional to the achievement of that objective. Non-citizens should have freedom from arbitrary arrest, arbitrary killing, child labour, forced labour, inhuman treatment, invasions of privacy, refoulement, slavery, unfair trial, and violations of humanitarian law. Additionally, non-citizens should have the right to consular protection, equality, freedom of religion and belief, labour rights, for example, as to collective bargaining, workers' compensation, healthy and safe working conditions, etc., the right to marry, peaceful association, and

assembly protection as minors social cultural and economic rights There is a large gap however between the rights that international human rights law guarantee to non citizens and the realities they face In many countries non citizens are confronted with institutional and endemic discrimination and suffering The situation has worsened since 11 September 2001 as several governments have detained or otherwise violated the rights of non citizens in response to fears of terrorism This book attempts to understand and respond to the challenges of international human rights law guarantees for non citizens human rights

The Ethics of Multiple Citizenship Ana Tanasoca,2018-07-26 Citizenship is no longer an exclusive relationship Many people today are citizens of multiple countries whether by birth naturalization or even through monetary means with schemes fast tracking citizenship applications from foreigners making large investments in the state Moral problems surround each of those ways of acquiring a second citizenship while retaining one s original citizenship Multiple citizenship can also have morally problematic consequences for the coherence of collective decisions for the constitution of the demos and for global inequality The phenomenon of multiple citizenship and its ramifications remains understudied despite its magnitude and political importance In this innovative book Ana Tanasoca explores these issues and shows how they could be avoided by unbundling the rights that currently come with citizenship and allocating them separately It will appeal to scholars and students of normative political theory citizenship global justice and migration in political science law and sociology

International Perspectives on Citizenship, Education and Religious Diversity Robert Jackson,2003-09-02 Citizenship is high on the agenda of education systems in many of the world s democracies As yet however discussions of citizenship education have neglected issues of religious diversity and how the study of religions can contribute to our understanding of citizenship International Perspectives on Citizenship Education and Religious Diversity brings together an international range of contributions from religious studies scholars and educators specialising in the study of religions Together these illustrate and explore the key questions for educational theory and pedagogy raised by drawing issues of religious diversity into citizenship education The chapters address and extend debates over the nature of citizenship in late modernity highlighting local and global dimensions of citizenship in relation to issues of national religious ethnic and cultural identity As well as emphasising the role religious education has to play in citizenship education this book also covers wider issues such as state supported faith schools and cultural diversity in relation to common citizenship The authors argue that critical yet reflective approaches to religious education have a distinctive and valuable contribution to make to citizenship education Issues addressed within the study of religions are related to new forms of global and cultural citizenship as well as citizenship within the nation state Ultimately this stimulating and original collection highlights the challenges and possibilities for teaching and learning about religion religions and religious diversity within an inclusive educational practice
