Teaching Reading and Writing Beyond High-stakes Testing Rongrong Dong, 2023-03-10 This book tells about an exemplary high school Chinese language arts teacher s effort in

nurturing lifelong readers and writers under the test driven culture in China's society. It looks closely at his everyday literacy practices, focuses on his ways of creating authentic reading and writing spaces for students beyond test preparation. With the lens of social constructivism, the case study reveals his efforts of creating a safe learning environment, modeling his literate life, connecting real life with literacy learning, and building a school-wide literate life for students. Furthermore, he also collaborates with other Chinese language arts faculty and reaches out to school administrators and educators to gain any potential teaching resource for students. The findings indicate exemplary teachers are not only equipped with professional knowledge but also inter-intrapersonal knowledge and practical knowledge in their teaching career, which might be enlightening in today's high-stakes testing culture. The book will appeal to scholars of literacy education and teacher education, as well as pre-service and in-service teachers.

Handbook of Research on Teacher Practices for Diverse Writing Instruction Hodges, Tracey S., 2022-05-20 The art and practice of writing is complex and multidimensional; students often apply unique writing styles. As such, educators must apply focused teaching methods to nurture these unique forms of writing. Educators must stay up to date with the practices for diverse writing instruction in order to best engage with a diverse classroom. However, resources related to writing typically do not focus on the depth and breadth of writing, and there is a need for a resource that offers a comprehensive look at diverse writing instruction research. The *Handbook of Research on Teacher Practices for Diverse Writing Instruction* provides a rich discussion of the issues, perspectives, and methods for writing instruction currently in use, with an added lens focusing on diversity and equity. It provides unique coverage on the topic of writing instruction for practical implementation within the classroom setting. Covering topics such as student motivation, curriculum development, and content area instruction, this major reference work is an essential resource for preservice teachers, faculty, and administration of K-12 and higher education, academic libraries, government officials, school boards, researchers, and academicians.
