Survey of Family Life and Sex Education in Washington Secondary Schools James Bernard Darcy,1969 **Teaching Sex** Jeffrey P. Moran,2002-10-15 Sex education since its advent at the dawn of the twentieth century has provoked the hopes and fears of generations of parents educators politicians and reformers On its success or failure seems to hinge the moral fate of the nation and its future citizens But whether we argue over condom distribution to teenagers or the use of an anti abortion curriculum in high schools we rarely question the basic premise that adolescents need to be educated about sex How did we come to expect the public schools to manage our children s sexuality More important what is it about the adolescent that arouses so much anxiety among adults Teaching Sex travels back over the past century to trace the emergence of the sexual adolescent and the evolution of the schools efforts to teach sex to this captive pupil Jeffrey Moran takes us on a fascinating ride through America s sexual mores from a time when young men were warned about the crippling effects of masturbation to the belief that schools could and should train adolescents in proper courtship and parenting techniques to the reemergence of sexual abstention brought by the AIDS crisis We see how the political and moral anxieties of each era found their way into sex education curricula reflecting the priorities of the elders more than the concerns of the young Moran illuminates the aspirations and limits of sex education and the ability of public authority to shape private behavior More than a critique of public health policy Teaching Sex is a broad cultural inquiry into America s understanding of adolescence sexual morality and social reform Exploring Sexuality in Schools Dorottya Rédei,2019-07-10 This book explores the place of sexuality in a Hungarian vocational school Building upon ethnographic research using a post structuralist and intersectional theoretical framework the author highlights the voices of teachers and students in their everyday environment and gives them the opportunity to speak about themselves and their experiences in doing so addressing a significant gap in the market The author critically discusses key issues concerning schooling and sexuality addressing such themes as LGBTQ youth and teachers institutional hierarchy and the role of sexuality in the re production of social inequalities through education Through these topics she sensitively questions what should be expected of schools in preparing their students for the wider world The intersectional approach employed by the author will appeal to scholars in a wide variety of disciplines from gender and sexuality studies to the sociology of education and race and ethnicity studies

People in New Zealand Claire Meehan, 2023-12-11 This book sheds light on young New Zealanders' social realities and lived experiences of their digital and sexual lives through an understanding of how they think about and engage with porn. Drawing on qualitative empirical data from interviews with 106 young New Zealanders, each chapter examines young people's creation of informal norms through an investigation of the broader issues associated with their engagement with porn, namely consent, gender, pleasure, and empowerment. Following this, the book gives voice to young New Zealanders' perceptions of the value of the sexuality education they receive. Finally, this text argues toward a co-constructed intersectional sexuality education.
