Norman Arlott, Ber van Perlo

Long Mans Song:

The Annual American Catalog, 1900-1909 ,1903 Man-song John Gneisenau Neihardt,1991-01-01 Originally published just months after his marriage to Mona Martinsen the poems collected in Man Song celebrate passionate love and offer many personal glimpses of the young John Neihardt Unashamedly erotic they reveal his capacity for love at age twenty eight Poems like A Vision of Woman and Women Wine show the lover s prejudices and greedy need for caresses and strong embraces Those like To Volney Streamer are addressed to male friends and anticipate the theme of male bonding that runs throughout his work Because passion takes various forms Man Song also include lyrics of the warrior little like the war chants Neihardt later learned from Plains Indians Battle Cry a poem that was recited by Clarence Darrow and Samuel Gompers is an example of the fighting songs current in the European avant garde preceding World War I Neihardt was beginning his struggle to reconcile the demands of the robustly physical life with spiritual insight His love poems for the American West were still to come but in Man Song he is already exploring the vast tract between the essentially erotic and the divine that would be cultivated in his later work This edition is the first complete reprinting of the work since 1909

Benefits of Female Song Michelle L. Hall, Naomi E. Langmore, 2017-09-11 Bird song traditionally regarded as primarily a male trait is in fact widespread among female songbirds and was probably present in the ancestor of modern songbirds Odom et al 2014 Nature Communications These recent findings challenge the view that sexual dimorphism in the expression and complexity of song is largely the outcome of sexual selection on males It is now clear that understanding the evolution of bird song requires explaining variation within and among species in the expression and complexity of female song To do this we need a better understanding of the nature of variation in female song in different contexts and systems as well as the fitness costs and benefits of variation in the expression and complexity of female song This Research Topic draws together current research on female song with the goal of understanding the fitness costs and benefits of the diversity of female singing behaviour apparent among songbirds It includes articles ranging from single species studies investigating how female song varies with context and contrasts with male song to comparative analyses exploring relationships between female song and ecological social and other factors as well as opinion pieces
