nation's primary records were lost during the civil war in 1922 and through other equally tragic means. But in this new book Chris Paton, the Northern Irish born author of the bestselling *Tracing Your Family History on the Internet*, shows that not only has a great deal of information survived, it is also increasingly being made available online. Thanks to the pioneering efforts of the Public Record Office of Northern Ireland, the National Archives of Ireland, organizations such as FindmyPast Ireland, Ancestry.co.uk and RootsIreland, and the massive volunteer genealogical community, more and more of Ireland's historical resources are accessible from afar. As well as exploring the various categories of records that the family historian can turn to, Chris Paton illustrates their use with fascinating case studies. He fully explores the online records available from both the north and the south from the earliest times to the present day. Many overseas collections are also included, and he looks at social networking in an Irish context where many exciting projects are currently underway. His book is an essential introduction and source of reference for anyone who is keen to trace their Irish roots. Chris Paton has produced this much needed book for researchers tracing Irish roots, pulling together all the current online resources and expert advice into one handy guide. *Family Tree Magazine* *Elves and Fairies* Matthias Egeler, 2025-10-03 An enchanting history of the otherworld of elves and fairies from the nature spirits of Iceland and Ireland to Avalon and Middle Earth. Originating in Norse and Celtic mythologies, elves and fairies are a firmly established part of Western popular culture. Since the days of the Vikings and Arthurian legend, these sprites have undergone huge transformations. From J.R.R. Tolkien's warlike elves based on medieval legend to little flower fairies whose charms even Sir Arthur Conan Doyle succumbed to, they permeate European art and culture. In this engaging cultural history, Matthias Egeler explores these mythical creatures of Iceland, Ireland, Scotland, and England, and their continental European cousins. Egeler goes on a journey through enchanted landscapes and literary worlds. He describes both their friendly and their dangerous, even deadly sides. We encounter them in the legends of King Arthur's round table and in Shakespeare's *A Midsummer Night's Dream*, in the terrible era of the witch trials, in magic's peaceful conquest of Victorian bourgeois salons, in the child-friendly form of Peter Pan, and even as helpers in the contemporary fight against environmental destruction. **Tracing Your Irish Family History on the Internet, Second Edition** Chris Paton, 2020-11-12 A simple, easy-to-use guide to tracing your Irish ancestry via the Internet. In this fully updated second edition of his best-selling guide to researching Irish history using the Internet, Chris Paton shows the extraordinary variety of sources that can now be accessed online. Although Ireland has lost many records that would have been of great interest to family historians, he demonstrates that a great deal of information survived and is now easily available to the researcher. Thanks to the pioneering efforts of the Public Record Office of Northern Ireland, the National Archives of Ireland, organizations such as FindmyPast Ireland, Ancestry.co.uk and RootsIreland, and the volunteer genealogical community, an ever-increasing range of Ireland's historical resources are accessible from afar. As well as exploring the various categories of records that the family historian can turn to, Chris Paton illustrates their use with

fascinating case studies He fully explores the online records available from both the north and the south from the earliest times to the present day Many overseas collections are also included and he looks at social networking in an Irish context where many exciting projects are currently underway Paton s book is an essential introduction and reference for anyone who is keen to trace their Irish roots *Philip Monahan* Aodh Quinlivan,2006 **Empire, Early Photography and Spectacle** Elisa deCourcy,Martyn Jolly,2020-11-23 James William Newland s 1810 1857 career as a showman daguerreotypist began in the United States but expanded into Central and South America across the Pacific to New Zealand and colonial Australia and onto India Newland used the latest developments in photography theatre and spectacle to create powerful new visual experiences for audiences in each of these volatile colonial societies This book assesses his surviving vivid portraits against other visual ephemera and archival records of his time Newland s magic lantern and theatre shows are imaginatively reconstructed from textual sources and analysed with his short rich career casting a new light on the complex worlds of the mid nineteenth century It provides a revealing case study of someone brokering new experiences with optical technologies for varied audiences at the forefront of the age of modern vision This book will be of interest to scholars in art and visual culture photography the history of photography and Victorian history **British Archives** J. Masters of the Post Duncan Campbell-Smith, 2011-11-03 The origins of the Post Office go back to the early years of the Tudor monarchy Brian Tuke a former King s Bailiff in Sandwich was acknowledged as the first Master of the Posts by Cardinal Wolsey in 1512 and went on to build up a network of postmasters across England for Henry VIII Over the following five hundred years the Royal Mail expanded to an unimaginable degree to become the largest employer in the country and the face of the British state for most people in their everyday lives But it also faced the demands of an increasingly commercial marketplace With the election of Margaret Thatcher in 1979 the possibility of privatising the Royal Mail has prompted passionate arguments and has added immeasurably to the difficulties of running it In charting the whole of this extraordinary story Duncan Campbell Smith recounts a series of remarkable tales including how postal engineers built the first programmable computer for the wartime code breakers of Bletchley Park and how the Royal Mail managed to

successfully continue delivering post to the front lines during two world wars but also how they failed to avert the Great Train Robbery of 1963 He brings to life many of the dominant personalities in the Royal Mail s history from Rowland Hill who imposed a uniform penny post and set the great Victorian expansion on its way to Tony Benn who championed the modernisation of the service in the 1960s and Tom Jackson who led the postal workers biggest union through fifteen frequently stormy years up to 1982 This is the first complete history of the Royal Mail up to the present day based on its comprehensive archives and including the first detailed account of the past half century of Britain s postal history made possible by privileged access to confidential records Today s debate over the future of the Royal Mail is shown to be just the latest chapter in a centuries old conflict between its roles raising revenue and serving the public Will its employees remain like Brian Tuke s postmasters servants of the Crown This book could hardly appear at a more timely moment The Early Development of Irish Society: the Evidence of Aerial Photography Edward R. Norman, John Kenneth Sinclair Saint Joseph, John Kenneth Sinclair St. Joseph, 1969 **A Secret Map of Ireland** Rosita Boland, 2010-04-17 When the award winning Irish Times journalist Rosita Boland was a schoolgirl she had in common with all Irish children a map of Ireland Iconic in its pinks greens and yellows the Educational Company map was a staple of the Irish schoolhouse As the author matured and changed so did the unique country she grew to know first hand With deep affection and curiosity she followed her very own map from those bygone schooldays to take the reader on a tour of Ireland a tour like no other **The Grove Encyclopedia of American Art** Joan M.
