Reparations and the Human David L. Eng, 2025-03-21 The Holocaust and the atomic bombings of Hiroshima and Nagasaki invoked in graphic terms the specter of total human destruction In response a new international order of reparations and human rights arose from the ashes of World War II This legal regime sought to subrogate the sovereignty of the nation state in order to defend the sovereignty of the human being While the Holocaust's history is settled Nazis were perpetrators and Jews were victims there remains little historical consensus as to the victims and perpetrators of the atomic bombings In *Reparations and the Human* David L Eng investigates a history of reparations across the Transpacific He analyzes how concepts of reparation established during colonial settlement and the European Enlightenment shape contemporary configurations of the human and human rights determining who can be recognized as victims who must be seen as perpetrators and who deserves repair As demands for reparations now occupy center stage in debates concerning unresolved legacies of dispossession and Transatlantic slavery Eng considers how the Cold War Transpacific provides a limit case for the politics of repair and definitions of the human **Catholic Cults and Devotions** Michael P. Carroll, 1989 Imagine a heart which has been ripped from a man's body wrapped with thorns pierced with a knife and then placed on the man's chest or a group of people who believe that wearing a small rectangle of wool next to their skin ensures that they will go to heaven as long as it is brown wool and worn continuously Although psychoanalysts have long investigated similar ideas and beliefs they have ignored popular Catholicism even though behaviour such as this occurs over and over again in the history of Catholic cults and devotions *The Writings of Melanie Klein* Melanie Klein, 1900 Melanie Klein Deborah P.

Britzman,2015-11-07 This volume introduces the psychoanalyst Melanie Klein to the general field of education and traces her theories of mental life as an emotional situation through to problems of self other relations in our own time The case is made for Klein s relevance and the difficulties her theories pose to the activities of learning and pedagogical relation Klein s vocabulary the paranoid schizoid and depressive positions phantasy object relations projective identification anxiety envy and the urge for reparation and gratitude are discussed in terms of their evolution and the designs of her main questions all stemming from the problem of inhibition Her contribution to an understanding of symbolization and the shift from concrete thinking to greater freedom of mind is analyzed The essay develops the following questions why is learning an emotional situation How did Klein s life and larger history influence her views What are her central theories of mental life Why did Klein focus on anxiety and phantasies as making up the life of the mind What is object relations theory And what does Klein s model of the self proffer to contemporary education in schools and in universities Understanding Mental Objects Meir

Perlow,2003-09-02 The ways in which an individual the subject relates to and perceives other people his or her objects has always been a preoccupation of psychoanalysis and in recent years a plethora of concepts has grown up in the literature In this ground breaking study Meir Perlow sets out to clarify the changing meanings of the different concepts from context to context discussing in depth the theoretical issues underlying them The book begins with an historical survey of how mental objects have been understood in the various schools of psychoanalysis as they have developed These include Freud and his associates the object relations approaches of Klein Fairbairn and Bion orientations derived from ego psychology such as those of Schafer and Kernberg and the self orientation of Winnicott and Kohut In Part Two the author discusses the conceptual and clinical issues involved in the major differences between the concepts Finally in Part Three he delineates three basic meanings of the concepts of mental objects as they have emerged in the literature and shows how they are related to ongoing issues in contemporary psychoanalysis This long overdue clarification of a complex area with its wide ranging and imaginative grasp of the different theories about objects will be an invaluable reference for all psychoanalysts and psychologists **Restitution and the Politics of Repair** Magdalena Zolkos,2020-09-21 Analyses the social imaginary

of undoing repair and return underpinning the international norm of restitution makingApproaches restitution not just as a legal norm of property return but as a social imaginary and a cultural psychoanalytic scene of undoing repair and returnBrings together philosophic political socio legal and cultural psychoanalytic approaches to the study of restitutionOutlines a heterogeneous and multifaceted idea of restitution emergent in modernity and looks at the peripheries of the modern restitutive tradition in the search for alternatives and counter traditionsThis book takes a unique approach grounded in political and cultural discourse to develop a political theory of restitution Challenging assumptions about restitution in the Western legal and political tradition where it has become nearly synonymous with reacquisition and where legal studies focus on material objects and claims to their ownership Zolkos argues that the development of restitutive norms

has been auxiliary to the emergence of modern state sovereignty and excavates the restitutive tradition's mythical religious substrate. Bringing together texts from within and outwith the Western canon of political theory and philosophy including the writings of Grotius, Durkheim, Freud and Klein as well as Mary Shelley's *Frankenstein*, the book undertakes a dual task: reading literary texts as a political theorising of restitution and reading political or sociological texts as literary narratives with distinctive restitutive tropes of repair, undoing and return.

The War Inside Michal Shapira, 2013-09-12 *The War Inside* is a groundbreaking history of the contribution of British psychoanalysis to the making of social democracy, childhood and the family during World War II and the postwar reconstruction. Psychoanalysts informed understandings not only of individuals but also of broader political questions. By asserting a link between a real war outside and an emotional war inside, psychoanalysts contributed to an increased state responsibility for citizens' mental health. They made understanding children and the mother-child relationship key to the successful creation of a democratic citizenry. Using rich archival sources, the book revises the common view of psychoanalysis as an elite discipline by taking it out of the clinic and into the war nursery, the juvenile court, the state welfare committee and the children's hospital. It traces the work of the second generation of psychoanalysts after Freud in response to total war and explores its broad postwar effects on British society.

Melanie Klein Meira Likierman, 2002-01-01 Melanie Klein remains one of the most important and influential figures in psychoanalysis. Klein pioneered the analysis of children and applied her insights on the infantile origins of unconscious drives to adult analysis. Meira Likierman's study is the best available introduction to Melanie Klein's thought and work.

In Leaps and Bounds Salman Akhtar, 2022-05-12 Salman Akhtar presents three rich essays brimming with psychoanalytic theory on personality development and how such knowledge enhances treatment. Essay 1 starts at the earliest infancy and takes the reader all along the path past adolescence. It addresses key developmental landmarks including: Establishing a satisfactory parental bond; Moving towards autonomy and independence; Acquiring a moral sense; Consolidating identity. Essay 2 picks up after adolescence. It addresses the psychosocial challenges characteristic of young adulthood, midlife and old age such as: Assuming the role of a wage earner and householder; Enjoying sex, love and marriage; Downsizing and retiring from one's job; Dealing with the deaths of friends and family and facing one's own mortality. Essay 3 builds upon the theory that has gone before and examines how a deepened understanding of psychic development can inform the clinician's approach. With an emphasis on development as a lifelong process, this essay provides clear guidelines for facilitating such growth including: Creating psychic space for thinking; Helping the patient find words for inner experiences; Validating the patient's reality; Enhancing the sense of personal agency in the patient. The complex tapestry woven by these three essays is extended by a prologue and an epilogue. The prologue opens with the pre-self events before birth that impact on who we become. The epilogue discusses the post-self: how we live on as memories held by those who knew us. *In Leaps and Bounds* deepens the understanding of the nuances of human development. It is key reading for practising and trainee psychoanalysts and

psychoanalytic psychotherapists to enhance their clinical practice It is highly recommended for all enquiring minds looking to expand their knowledge of what makes us who we are **Selected Papers of Salman Akhtar** Salman Akhtar,2023-06-01
