Hamilton, Guido Noto La Diega, 2020-01-15 This edited collection provides a forum for rigorous analysis of the necessity for both legal and social change with regard to regulation of same sex relationships and rainbow families the status of civil partnership as a concept and the lived reality of equality for LGBTQ persons Twenty eight jurisdictions worldwide have now legalised same sex marriage and many others some level of civil partnership In contrast other jurisdictions refuse to recognise or even criminalise same sex relationships At a Council of Europe level there is no requirement for contracting states to legalise same sex marriage Whilst the Court of Justice of the European Union now requires contracting states to recognise same sex marriages for the purpose of free movement and residency rights unlike the US Supreme Court it does

not require EU Member States to legalise same sex marriage Law and Sociology scholars from five key jurisdictions England and Wales Italy Australia Canada and the Republic of Ireland examine the role of the Council of Europe European Union and further international regimes A balanced approach between the competing views of critically analytical rights based theorists and queer and feminist theorists interrogates the current international consensus in this fast moving area The incrementalist theory whilst offering a methodology for future advances continues to be critiqued All contributions from differing perspectives expose that even for those jurisdictions who have legalised same sex marriage still further and continuous work needs to be done The book will be of interest to students and scholars in the field of human rights family and marriage law and gender studies Sexuality in Medieval Poland in a European Context Karolina Morawska,2025-10-31 This book

explores the development of sexual ethics in medieval Poland focusing on how the process of Christianization integrated Poland into the Western European cultural sphere and how the adoption of Christian norms and practices significantly shaped its moral and legal views on sexuality Drawing on a wide array of primary sources the study highlights the tension between official ecclesiastical views and the lived experiences of individuals while also addressing the ways in which various aspects of sexuality such as marital life chastity adultery sexual misconduct and prostitution were understood regulated and punished by both secular and religious authorities It analyzes the influence of Western European sexual ethics especially through the lens of the Church s doctrines and contrasts these with the social and legal realities of life in medieval Poland The book also examines how Christian ideals of love and sexuality intersected with local cultural practices particularly in the context of courtly love This book is aimed at scholars and students of medieval history religious studies and gender studies as well as those interested in the history of sexuality It will appeal to anyone researching the convergence of Christianity and medieval Polish society **Journal of Proceedings and Addresses of the Annual Meeting** National Education
