Missing, Presumed Dead Keith Robertson, 1961 Missing, Presumed Dead Craig O'Hara, 2002 Presumed Dead Andy Van Loenen, 2012-12-01 Could he really be alive Marti Forrester's husband died in a boating accident five years ago At least that s what she thought until someone spotted him in Michigan s remote Upper Peninsula Enter Harry Brannan a former police lieutenant forced to retire after being gravely injured in a shootout A mutual friend introduces him to Marti and he agrees to help her find out if it really was her husband that was seen in the North Country Harry locates the man but against his advice Marti travels alone to the Upper Peninsula to confront him She finds her husband dying of gunshot wounds on his kitchen floor panics and runs but is apprehended by the police and jailed for his murder In spite of mounting evidence against her Harry knows in his heart that she s innocent But he also knows that if she is to be set free he s going to have to find out what really happened However someone doesn t want the truth to come out and is willing to do whatever it takes to keep Harry from finding it The clock is ticking for Marti Will Harry find the killer in time Will the love that has begun to blossom between them have a chance to come to fruition Or will Harry meet the same fate as Marti s Missing Presumed Dead Stanley A. Hawken, 1989 husband leaving her to spend the rest of her life in prison Missing, Presumed Dead ,1961 Missing John V. Gorden, Keith Robertson, 1976 Missing Carlton Keith, 1961 **Sixty** Squadron R.A.F. Group-Captain A. J. L. Scott, 2015-01-08 Example in this ebook This book tells the story of Squadron No 60 of the Royal Flying Corps afterwards of the Royal Air Force When the war began in August 1914 the Royal Flying Corps was a very small body which sent four squadrons on active service and had a rudimentary training organisation at home In those days the only functions contemplated for an airman were reconnaissance and occasionally bombing Fighting in the air was almost unknown The aeroplanes were just flying machines of different types but intended to perform substantially the same functions Gradually as the war continued specialisation developed Fighting in the air began machine guns being mounted for the purpose in the aeroplanes Then some aeroplanes were designed particularly for reconnaissance some particularly for fighting some for bombing and so on It was in the early part of this period of specialisation that Squadron No 60 was

embodied And as this narrative tells us its main work was fighting in the air It was equipped for the most part with aeroplanes which were called scouts not very felicitously since a scout suggests rather reconnaissance than combat These machines carried only one man were fast easy to man uvre and guick in responding to control They were armed with one or two machine guns and they engaged in a form of warfare new in the history of the world and the most thrilling that can be imagined for each man fought with his own hand trusting wholly to his own skill and that not on his own element but in outrage of nature high in the air surrounded only by the winds and clouds The embodiment of the fighting scout squadrons was part of the expansion and organisation of what became the Royal Air Force Among all the achievements of the war there has been perhaps nothing more wonderful than the development of the Royal Flying Corps and the Royal Naval Air Service and their amalgamation in the great Royal Air Force which fought through the last year of the war When the war opened the Royal Flying Corps and the Royal Naval Air Service were bodies of few units ancillary to the Army and the Navy of which the control was in the hands of the Army Council and the Board of Admiralty It was not realised that warfare in the air was a new and distinct type of warfare Generals who would have laughed at the idea of commanding a fleet Admirals who would have shrunk from the leadership of an army corps were quite unconscious of their unfitness to deal with the problems of aerial war Every step therefore of the organisation and expansion of the flying services had to be conducted under the final control of bodies kindly and sympathetic indeed but necessarily ignorant That the Royal Flying Corps attained to its famous efficiency and was expanded more than a hundredfold should earn unforgetting praise for those who were responsible for leading and developing it The country owes a great debt which has not perhaps been sufficiently recognised to Sir David Henderson whose rare gifts of guick intelligence and ready resource must have been taxed to the utmost in his dual position as head of the Flying Corps and member of the Army Council to Sir Sefton Brancker who worked under him in the War Office and to Sir Hugh Trenchard who from the date that Sir David Henderson came back from France to that of the amalgamation of the flying services in the Royal Air Force was in command in France It was the administrative skill of these distinguished men that stood behind the work of the squadrons and made possible their fighting or bombing or reconnaissance And this background of administrative skill and resource must not be forgotten or suffered to be quite outshone by the brilliant gallantry of the pilots and observers To be continue in this ebook Sixty Squadron RAF A.J.L. Scott, 2016-10-19 This candid WWI memoir takes readers inside the cockpit with an RAF officer on the Western Front from the outbreak the Great War until its end in 1918 Louis Arbon Strange was at the Royal Air Force's Central Flying School when war broke out in 1914 He immediately reported to Royal Flying Corps headquarters and joined No 5 Squadron Strage remained on active duty throughout the war serving his country over the Western Front from August of that year until the enemy's surrender Strange transferred to No 6 Squadron in 1915 and went on to form and command No 23 Squadron Due to illness he did not accompany his Squadron to France but spent that time training others He took charge of the Machine Gun School at Hythe

and other schools of aerial gunnery before returning to the Front There he commanded the 23rd Wing and finally took command of the 80th Wing from June 1918 until the end of the war As Strange chronicles his experiences he provides unique insight into how and why the Allied airmen eventually prevailed Missing, Presumed Dead E. L. Scovell, 20?? The Month's Work Great Britain. Ministry of Labour, 1919 Finding the Fallen Andy Saunders, 2011-12-27 The author of Finding the Few presents more stories of lost airmen and the dedicated detective work done to find them Mysteries involving missing aircrew span almost the entire twentieth century Starting with a reappraisal of the famed story of pilot Edward Mick Mannock the author of this book highlights the fates of RAF USAF and Luftwaffe personnel from bomber reconnaissance and fighter crews Each case is examined with a microscopic and forensic approach worthy of a CSI episode and evaluates the detective work involved in unraveling these long unsolved disappearances of lost airmen In many cases there is a satisfactory conclusion in which family members can feel some closure while in others question marks are left hanging over These fascinating stories remind us of the heroic ongoing efforts to truly live up to the phrase no man left behind Includes photos
