New Face of Mission Charles A. Ebelebe,2009-06-16 This book is a study of the impact of the Irish Spiritans upon the Igbo
of Nigeria during the twentieth century Ebelebe argues that the Church must be selective in what it reclaims from its Irish
Heritage and must draw from the resources of Igbo traditional culture and religion *World Christian Trends Ad30-ad2200*
(hb) ,2001 Mission from the Margins David A. Shank,2019-05-14 David A Shank has been reflecting on the mission of the
church from an Anabaptist perspective for more than half a century His writings represent among the best biblical
theological and missiological study on the matter shaped by two primary contexts Europe and Africa where his ministry took
place This collection will be of particular interest to global church leaders wanting to know more about how to contextualize
the gospel message to mission and church historians interested in examining how missiological thought and practice evolves
over time and to pastors students and mission workers seeking insights from a wise elder as they serve the church through
its mission efforts in the twenty first century **Joyce in the Belly of the Big Truck; Workbook** Joyce A. Cascio,2005-05

1970-1974 Ruth F. Frazer,1985 **Is the Holocaust Unique?** Alan S Rosenbaum,2018-04-17 In essays written specifically
for this volume distinguished contributors assess highly charged and fundamental questions about the Holocaust Is it unique
How can it be compared with other instances of genocide What constitutes genocide and how should the international
community respond On one side of the dispute are those who fear that if the Holocaust is seen as the worst case of genocide
ever its character will diminish the sufferings of other persecuted groups On the other side are those who argue that unless
the Holocaust s uniqueness is established the inevitable tendency will be to diminish its abiding significance The editor s
introductions provide the contextual considerations for understanding this multidimensional dispute and suggest that there
are universal lessons to be learned from studying the Holocaust The third edition brings this volume up to date and includes
new readings on the Cambodian and Rwandan genocides common themes in genocide ideologies and Iran s reaction to the
Holocaust In a world where genocide persists and the global community continues to struggle with the implications of
international crime prosecution justice atonement reparation and healing the issues addressed in this book are as relevant as
ever **Is the Holocaust Unique?** Alan S. Rosenbaum,2019-03-06 Evaluating the Jewish Holocaust is by no means a

simple matter and one of the most controversial questions for academics is whether there have been any historical parallels for it. Have Armenians, Gypsies, American Indians, or others undergone a comparable genocide? In this fiercely controversial volume, distinguished scholars offer new discussions of this question. Presenting a wide range of strongly held views, they provide no easy consensus. Some critics contend that if the Holocaust is seen as fundamentally different in kind from other genocides or mass deaths, the suffering of other persecuted groups will be diminished. Others argue that denying the uniqueness of the Holocaust will trivialize it. Alan S. Rosenbaum's introductions provide a much needed context for readers to come to terms with this multi-dimensional dispute, to help them understand why it has recently intensified, and to enable them to appreciate what universal lessons might be gleaned from studying the Holocaust. This volume makes an important contribution to our comprehension of one of the defining events of modern history. It should be essential reading for scholars, students, and general readers interested in the Holocaust and its relationship to other instances of politically inspired mass murder.
