Lamm,Stephan Roth,Markus Walker,2015-10-12 Presents modeling approaches that can be performed in SysML and other modeling languages This book combines the emerging discipline of systems architecting with model based approaches using SysML The early chapters of the book provide the fundamentals of systems architecting discussing what systems architecting entails and how it benefits systems engineering Model based systems engineering is then defined and its capabilities to develop complex systems on

time and in a feasible quality are discussed. The remainder of the book covers important topics such as architecture descriptions, architecture patterns, perspectives, viewpoints, views, and their relation to system architecture; the roles of a system architect, their team, and stakeholders; systems architecting processes; agile approaches to systems architecting; variant modeling techniques; architecture frameworks and architecture assessment. The book's organization allows experts to read the chapters out of sequence. Novices can read the chapters sequentially to gain a systematic introduction to system architecting.

Model Based System Architecture Provides comprehensive coverage of the Functional Architecture for Systems (FAS) method created by the authors and based on common MBSE practices. Covers architecture frameworks including the System of Systems (Zachman) Frameworks, TOGAF, and more. Includes a consistent example system: the Virtual Museum Tour system that allows the authors to demonstrate the systems architecting concepts covered in the book.

Model Based System Architecture is a comprehensive reference for system architects and systems engineers in technology companies. This book will also serve as a reference to students and researchers interested in functional architectures.

Tim Weilkiens is the CEO at the German consultancy *oose Innovative Informatik* and co-author of the SysML specification. He has introduced model-based systems engineering to a variety of industry sectors. He is author of several books about modeling and the MBSE methodology.

SYSMOD Jesko G. Lamm is a Senior Systems Engineer at Bernafon, a Swiss manufacturer for hearing instruments. With Tim Weilkiens, Jesko G. Lamm founded the Functional Architectures working group of the German chapter of INCOSE.

Stephan Roth is a coach, consultant, and trainer for systems and software engineering at the German consultancy *oose Innovative Informatik*. He is a state-certified technical assistant for computer science from *Physikalisch Technische Lehranstalt PTL Wedel* and a certified systems engineer (GfSE Level C).

Markus Walker works at Schindler Elevator in the research and development division as elevator system architect. He is an INCOSE Certified Systems Engineering Professional (CSEP) and is engaged in the committee of the Swiss chapter of INCOSE.

First Aid for the Artist's Soul Christina Barandun, 2021-03-17. A practical guide for everyone working in the artistic and cultural sector to help to focus creativity and energy on the most important thing: art. It is just the right moment for this guide.

Hubert Eckart, German Theater Technology Society. In theatres, operas, orchestras, and other cultural institutions, artists are constantly under pressure to deliver artistic excellence despite adverse working conditions, personal challenges, and interpersonal conflicts. In this book, theatre and mental coach Christina Barandun provides first aid with tips and practical exercises. She shows how artists in their complex, creative, and chaotic workplace can better deal with stress and psychological strain, how they can strengthen their resources, their ability to communicate, and how to handle conflict.

Christina Barandun manages to pass on her well-founded specialist knowledge in a practical, lively, and creative way. She sees the needs of the individual and does not lose sight of the big picture.

Tanja Krischer, German Theatre and Orchestra Association. An effective toolkit for working on and behind the stage.

Katrin Reichardt, Aalto Musiktheater Essen. You learn more about yourself and how to deal responsibly with others.

Stereotyping

leadership: An investigation about leaders' perception Elena Tecchiati,2015-02-01 The objective of this study is to evaluate gender and cultural differences in the perception of male and female leaders in a feedback situation The research is based upon considerations from a literature review in the fields of gender bias and stereotypes previously conducted Subjects from Spain and Germany were asked to evaluate a director male or female in a fictive feedback situation that was described prior to a short questionnaire The questions of the questionnaire were based on previous research and findings of the literature review We tested if previous experience with a woman leader was related to a higher evaluation of the female leader and if there was a relationship between the previous experience with a female leader and the preference to work for a certain leader s gender Results from the study show that gender culture and previous experience with a female leader had no influence on the leader s evaluation A discussion with possible interpretations of the findings and implication for further research follows

Governance Ralf-Eckhard Türke,2008-09-16 Instead of yet another theory on good governance this book presents a substantiation of contemporary notions It builds on the theoretical foundations for taking an overall perspective on social contexts and culminates in a systemic framework that captures social structures based on first principles of viability and sustainability The framework at hand enables applicants to view social contexts holistically while at the same time envisioning a rich picture of what leverages the implementation of social purposes beyond the boxes of the professional disciplines social structures can be assessed strengths and weaknesses identified and measures arrived at Ultimately the required structures can be tailor made to align forces for a joint implementation of purposes Conventional static hierarchies can be deployed into dynamic social organisms capable of developing and adapting continuously according to the opportunities and challenges faced
