The Scary Mason-Dixon Line Trudier Harris, 2009-06-01 New Yorker James Baldwin once declared that a black man can look at a map of the United States contemplate the area south of the Mason Dixon Line and thus scare himself to death In *The Scary Mason Dixon Line* renowned literary scholar Trudier Harris explores why black writers whether born in Mississippi New York or elsewhere have consistently both loved and hated the South Harris explains that for these authors the South represents not so much a place or even a culture as a rite of passage Not one of them can consider himself or herself a true African American writer without confronting the idea of the South in a decisive way Harris considers native born black southerners Raymond Andrews Ernest J Gaines Edward P Jones Tayari Jones Yusef Komunyakaa Randall Kenan and Phyllis Alesia Perry and nonsouthern writers James Baldwin Sherley Anne Williams and Octavia E Butler The works Harris examines date from Baldwin's *Blues for Mr Charlie* 1964 to Edward P Jones's *The Known World* 2003 By including Komunyakaa's poems and Baldwin's play as well as male and female authors Harris demonstrates that the writers' preoccupation with the South cuts across lines of genre and gender Whether their writings focus on slavery migration from the South to the North or violence on southern soil and whether they celebrate the triumph of black southern heritage over repression or castigate the South for its treatment of blacks these authors cannot escape the call of the South Indeed Harris asserts that creative engagement with the South represents a defining characteristic of African American writing A singular work by one of the foremost literary scholars writing today *The Scary Mason Dixon Line* superbly demonstrates how history and memory continue to figure powerfully in African American literary creativity

Men in War Andreas Latzko, 2019-11-29 In *Men in War* Andreas Latzko presents a poignant exploration of the psychological and emotional landscapes of soldiers during World War I Written in a modernist style the narrative captures the stark realities of warfare moving beyond mere battlefield heroics to investigate themes of fear mortality and the disillusionment of the human spirit Latzko deftly employs vivid imagery and evocative language immersing the reader in the harrowing experiences of men grappling with the chaos of combat The work stands as a significant contribution to war literature reflecting a post Victorian shift where the valorization of heroism gives way to a more nuanced understanding of the impacts of war on the individual psyche Andreas Latzko an Austrian author and veteran of the war himself draws upon his personal experiences to lend authenticity and urgency to his narrative His background as a pacifist and a member of the anti war movement profoundly informs the thematic core of *Men in War* allowing readers to engage with the moral complexities of conflict Latzko s unique perspective provides a critical commentary on the societal glorification of military valor during a period marked by immense suffering I highly recommend *Men in War* to readers seeking a deep and introspective look at the human costs of conflict Latzko s masterful storytelling combines profound philosophical inquiry with raw emotional power making it an essential read for anyone interested in the complexities of war

Dear Da-Lê Anh Duong, 2024-09-21 In an intensely revealing memoir written for his Canadian daughter a man breaks a lifetime of silence about the traumas of his childhood in war torn Vietnam and his years as a refugee in revolutionary Iran Spanning decades and generations this heartfelt memoir began as a series of letters from a worried father Anh Duong had witnessed terrible things as a child during the Vietnam War and later as a refugee in Iran during the revolution of the late 1970s But like many in the Vietnamese diaspora he had remained silent about his experiences believing that trauma was better left unspoken However when his daughter became involved in student protests Duong felt compelled to speak about his own experience of uprisings In precise prose Dear Da L moves along a taut narrative thread that begins with Duong's birth in 1953 and ends with his arrival frayed and broke in Canada in 1980 With surprising moments of hope and tenderness amid brutal divisions the author creates a coming of age story intertwined with the human costs of war and exile Its revelations are sure to resonate not only with the generation born to refugees of the Vietnam War but with anyone seeking to understand the lasting often hidden torments of violent conflict and the healing that can take place in the act of telling

White Ethics and Black Power
William W. Ellis, 2017-09-29 The disparity between the ideal a democratic America and the reality racial oppression and poverty is so great that serious voices among blacks students and others challenged the ethical foundations of the nation in the 1960s Local political organizations emerging out of black ghettos led a black revolt asserting a revolutionary black nationalism rather than social reform and integration For those blacks white America could no longer dictate right and wrong and certainly could no longer tell blacks how best to pursue their goals This feeling was so strong among the adherents of the new militant movements formed under the political symbolism of black power that they questioned all white ethical institutions These new movements bargained and contended with whites even worked closely with them for many purposes but always with suspicion and caution White Ethics and Black Power describes racial relations during this period It examines the careers and philosophies of the leadership of a community organization illuminating the complex relationship between white America and the new black power movements between America and its interpretation of itself on the one hand and the experience of black and oppressed peoples in America on the other Redefining social science as a means through education and research of improving the quality of American life William Ellis derides non participatory social science as a hoax and asks the social scientist to make clear his moral commitment to the people he studies or to the establishment that funds him Controversial in its ideology its passion and its scorn of racist America this volume remains the only openly partisan social scientific analysis into the nature of this American crisis Readers may not agree with the views expressed by the author but they cannot ignore this book s relevance to any understanding of black white relationships Unique in the literature White Ethics and Black Power not only explains black power but offers hope for meaningful change
