From the Ashes of Angels Andrew Collins, 2001-09-01 Provides convincing evidence that angels demons and fallen angels were flesh and blood members of a giant race predating humanity spoken of in the Bible as the Nephilim Indicates that the earthly paradise of Eden was a realm in the mountains of Kurdistan By the author of Gateway to Atlantis Our mythology describes how beings of great beauty and intelligence who served as messengers of gods fell from grace through pride These angels also known as Watchers are spoken of in the Bible and other religious texts as lusting after human women who lay with them and gave birth to giant offspring called the Nephilim These religious sources also record how these beings revealed forbidden arts and sciences to humanity transgressions that led to their destruction in the Great Flood Andrew Collins reveals that these angels demons and fallen angels were flesh and blood members of a race predating our own He offers evidence that they lived in Egypt prior to the ancient Egyptians where they built the Sphinx and other megalithic monuments before leaving the region for what is now eastern Turkey following the cataclysms that accompanied the last Ice Age Here they lived in isolation before gradually establishing contact with the developing human societies of the Mesopotamian plains below Humanity regarded these angels described as tall white haired beings with viperlike faces and

burning eyes as gods and their realm the paradise wherein grew the tree of knowledge Andrew Collins demonstrates how the legends behind the fall of the Watchers echo the faded memory of actual historical events and that the legacy they have left humanity is one we can afford to ignore only at our own peril *The Giza Prophecy* Scott Creighton, Gary Osborn, 2012-01-25 A detailed study of the proportions of the Giza pyramids and how they reveal shifts in the Earth's axis in the remote past and near future Debunks the pyramids as tombs theory and shows how they are recovery vaults to ensure the rebirth of civilization after a global disaster Explains in detail how the angles and geometry of the Great Pyramid record a shift of the world's axis in 3980 BCE and predict more to come Uncovers the location of an additional as yet undiscovered recovery vault on the Giza plateau as revealed in the myth of Osiris Offering a radical new perspective on the Great Pyramid of Giza and all the structures surrounding it including the Sphinx Scott Creighton and Gary Osborn show how the designers of Giza intentionally arranged these massive structures to create an astronomical timeline recording catastrophic events in the past as well as warning later generations of the precise times of future catastrophes They reveal how the Old Kingdom pyramids of Giza were created not as tombs for the pharaohs and their queens but as recovery vaults to ensure the rebirth of the Kingdom of Egypt after a global disaster by acting as storehouses for ancient Egyptian culture its tools seeds art and sacred texts Through the use of photos maps and diagrams of the Giza plateau the authors explain in detail how the angles and geometry of the Great Pyramid align with the stars of Orion's Belt to encode an important message that changes in the tilt of the world's axis have occurred in the remote past most recently in 3980 BCE and will occur again in the near future Highlighting the ubiquitous appearance of 23.5 degree angles the most important of the precessional angles encoded in the Giza pyramids in classic works of art including the work of Leonardo da Vinci and portraits of John the Baptist and George Washington the authors reveal how this angle the Great Pyramid and its fateful message are tied to Freemasonry and other secret societies Concluding with the remarkable revelation triggered by the myth of Osiris that there may be an as yet undiscovered 14th recovery vault on the Giza plateau Creighton and Osborn show that the prophecy of Giza is a message of first importance to our own civilization *Shadow Pasts* William D. Rubinstein, 2014-09-11 For many intelligent people the stuff of history does not consist of the kind of dry as dust investigations of diplomatic economic or political history that most university historians research and write about but the famous topics of history's mysteries who was Jack the Ripper Was there a conspiracy to kill President Kennedy Did Richard III murder the Princes in the Tower What are the mysteries of the ancient Pyramids Not only have a great many books and articles been written on these and similar topics by so called amateur historians but they have generated societies conferences newsletters and television programmes Many people who are not academic historians take a keen interest in these topics and have in some cases made themselves real experts on them with interesting theories of their own Despite all of this however these topics are virtually ignored by academic historians and can be treated with contempt In *Shadow Pasts* William D Rubinstein a well known and widely published history professor
