## LOGIC PRESENTATION

## NEED OF QUANTIFICATION THEORY?

Quantification enables us to interpret noncompound premises as compound statements, without the loss of meaning, and symbolizing their inner structure...

For example : All humans are mortal

Socrates is human

Therefore Socrates is mortal.

This argument is obviously valid , but it could be symbolised as :

H

A

∴ M

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and suspenseful novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
