Quantitative Studies In Agrarian History:

Quantitative Studies in Agrarian History Jeremy Atack, Paul Rhode, William N. Parker, Juhan Kahk, Roger L. Ransom, Richard Sutch, Morton Rothstein, Gavin Wright, Agricultural History Society, 1988 Special Issue on Quantitative Studies in Agrarian History Peter Lindert, 1988 **Routledge Handbook of Global Economic History** Francesco Boldizzoni, Pat Hudson, 2015-12-22 The Routledge Handbook of Global Economic History documents and interprets the development of economic history as a global discipline from the later nineteenth century to the present day Exploring the normative and relativistic nature of different schools and traditions of thought this handbook not only examines current paradigmatic western approaches but also those conceived in less open societies and in varied economic political and cultural contexts In doing so this book clears the way for greater critical understanding and a more genuinely global approach to economic history This handbook brings together leading international contributors in order to systematically address cultural and intellectual traditions around the globe Many of these are exposed for consideration for the first time in English The chapters explore dominant ideas and historiographical trends and open them up to critical transnational perspectives This volume is essential reading for both academics and students in economic and social history As this field of study is very much a bridge between the social sciences and humanities the issues examined in the book will also have relevance for those seeking to understand the evolution of other academic disciplines under the pressures of varied economic political and cultural circumstances on both national and global scales **The Agrarian History of England and Wales** Edward John T. Collins, Joan Thirsk, 2000 The unifying theme of this volume is the changing role of the countryside in national life and the impact upon it of the social and economic forces unleashed by industrialisation and the growth of towns , An Agrarian History of Portugal, 1000-2000 , 2016-11-28 This book follows the renovation of European economic history towards a more unified interpretation of sources of growth and stagnation To better understand the diversity of patterns of growth we need to look beyond the study of the industrialization of the core economies and explore the centuries before it occurred Portuguese agriculture was hardly ever at the European productivity and technological forefront and the distance from it varied substantially across the second Millennium Yet if we look at the periods of the Christian Reconquista the recovery from the Black Death the response to the globalization of the Renaissance to the eighteenth century economic enlightenment or to nineteenth century industrialization we may conclude that agriculture in this country of the European periphery was often adaptive and dynamic The fact that economic backwardness was not overcome by the end of the period is no longer the most relevant aspect of that story Contributors are Luciano Amaral Am lia Branco Dulce Freire Ant nio Henriques Pedro Lains Susana M nch Miranda Margarida Sobral Neto Jaime Reis Ana Maria Rodrigues Jos Vicente Serr o and Ester G Silva **Petitions in Social History** Lex Heerma van Voss, 2001 This book looks at petitions over the last five centuries to reconstruct the lives and opinions of humble petitioners Since Pharaonic times governments have allowed their

subjects to voice opinions in the form of petitions which have demanded a favour or the redressment of an injustice To be effective a petition had to mention the request usually a motivation and always the name or names of the petitioners As a result grievances of ordinary people which were not written down anywhere else are now stored safely in the archives of the authorities to which the petitions were addressed The petitions considered in this book which come from all over the globe offer rich and valuable sources for social historians The American Bibliography of Slavic and East European Studies Patt Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology *From Prairie Farmer to Entrepreneur* Dennis Nordin, Roy V. Scott, 2005-01-18 Their account will inform readers with a detailed account of one of the great transformations in American life BOOK JACKET **Logic, Methodology and Philosophy of Science VI** J.J. Cohen, J. Los, H. Pfeiffer, K.-P. Podewski, 2011-10-10 Logic Methodology and Philosophy of Science VI presents the results of recent research into the foundations of science The volume contains invited papers presented at the Congress covering the areas of Logic Mathematics Physical Sciences Biological Sciences and the Humanities
