Discover Bio-Design Thinking Dr. Rudy A. Magnan,2018-07-31 Our minds are organized into a certain mind set based on our perception of the reality we develop in our socialization into society I believe that because we are living and operating a new creative paradigm filled with new ideas concepts and laws we must begin to challenge our existing mind set and seek creative concepts and methods that will allow us to see this new alternative reality that many refuse to recognize and accept We can look at nature as a composite of isolated snapshots showing its beauty or we can view the incredible and intelligent design and function behind every plant tree and living creature The intended goal of the book is to provoke your mind to see this incredible bio design from which we can begin to develop a higher level of understanding and meaning We will soon realize that we will discover and recognize new patterns as we process new information We will begin to connect ideas and concepts previously not connected We will raise the quality of our perceptions and thinking using the intelligent design found in nature
