Creative Evolution Amit Goswami, 2014-01-23 By denying evolution altogether says quantum physicist Amit Goswami intelligent design believers fly in the face of scientific data But the idea of intelligent design does contain substance that neo Darwinists cannot ignore Goswami posits that consciousness not matter is the primary force in the universe Biology must come to terms with feeling meaning and the purposefulness of life as well as with the idea of a designer What s more reconciling the question of life s purposefulness and the existence of the designer with neo Darwinism also answers many other difficult questions The result is a paradigm shift for biology and the vision of a coherent whole that Goswami calls science within consciousness In this timely important book the author offers clear arguments supported by the findings of
