Through competent scholarship insightful interpretation and masterful understanding of the present dialogue on hermeneutics it brings Buber s book on Chuang Tzu into sinology and sinology via this book into the understanding and interpretation of Buber No one else has ever tackled bringing these three fields Sinology Buber scholarship and comparative mysticism into meaningful interrelation and dialogue Maurice Friedman author of Martin Buber s Life and Work The best thing is the depth and breadth of his discussion of hermeneutic issues Herman is very well read both in theoretical hermeneutics and in sinological literature on the Chuang Tzu and he has thought carefully through the main methodological issues related to his task His discussion of the relation between unitive escapist and intraworldly mysticism in the Chuang Tzu is a great contribution Michael LaFargue University of Massachusetts Boston Buber s approach to Taoism is not primarily that of the scholar but of the practitioner of philosophia perennis And since Buber holds a prominent place in twentieth century religious history his appropriation of the Chuang Tzu is an important subject Herman to his credit has not stood in Buber s path but has allowed him to speak for himself His treatment of textual reconstruction interpretation and reception in the hermeneutic chapters adds a great deal to these topics that is valuable quite apart from the specific text he addresses David L Hall **Reden und Gleichnisse des Tschuang-Tse** Martin Buber,1910 **Reden und Gleichnisse des Tschuang-Tse** Zhuangzi,Martin Buber,1921 *Reden und Gleichnisse des Tschuang-Tse* ,1922 The Existential Philosophy of Etty Hillesum Meins G. S. Coetsier,2014-01-09 In The Existential Philosophy of Etty Hillesum Meins G S Coetsier breaks new ground by demonstrating the Jewish existential nature of Etty Hillesum s spiritual and cultural life in light of the writings of Martin Buber Emmanuel Levinas and Dietrich Bonhoeffer Hillesum s diaries and letters written between 1941 and 1943 illustrate her struggle to come to terms with her personal life in the context of the Second World War and the Shoah By finding God under the rubble of the horrors she rediscovers the divine presence between humankind while taking up responsibility for the Other as a way to embrace justice and compassion In a fascinating accessible and thorough study Coetsier dispels much of the confusion that assails readers when they are exposed to the bewildering range of Christian and Jewish influences and other cultural interpretations of her writings The result is a convincing and profound picture of Etty Hillesum s path to spiritual freedom **A Philosophy of Prayer** George Pattison,2024-07-02 Exploring the silence of prayer in Post Kantian philosophy and traditional spirituality A Philosophy of Prayer explores prayer within the perspective of post Kantian philosophy Against a background of traditional sources including Augustine The Cloud of Unknowing and the seventeenth century French school of spirituality the book uses Schleiermacher Kierkegaard Dostoevsky

Heidegger Berdyaev Tillich Marcel Simone Weil Emmanuel Levinas and Jean Louis Chr tien to provide an interpretation of what is meant by the passivity and self annihilation of the praying self suggesting an apophatics of the personality Pattison pays particular attention to the question of language and the implications of the role given to silence in traditional texts arguing that language remains a defining element of the human God relationship and that silence is not to be construed as the negation of language but as the revelation of the depth of language itself The basic structure of prayer is shown to be implicitly eschatological oriented toward a coming kingdom of justice and peace while at the same time expressing a deep desire for ontological homecoming a tension manifest in respectively Levinas and Heidegger On Pattison s reading prayer calls for and develops a particular orientation of the self toward existence corresponding to the virtue of humility long understood as the basic Christian virtue This is shown to be in tension with modernity s commitment to strong versions of autonomy However the choice of humility is not presented as the reinstatement of religious heteronomy but as a free choice of the praying self

a full blooded portrait emerges of a towering intellect ever striving to live up to philosophy of social engagement **The Universal Jewish Encyclopedia ...** Isaac Landman,1940 **Martin Buber and the Human Sciences** Maurice

Friedman,2012-02-01 The specific focus of Martin Buber and the Human Sciences is dialogue as the foundation of and integrating factor in the human sciences using dialogue in the special sense which Buber has made famous mutuality presentness openness meeting the other in his or her uniqueness and not just as a content for one s own thought categories and knowing as deriving in the first instance from mutual contact rather than knowledge of a subject about an object By the human sciences the authors editors mean material that can be meaningfully approached in a dialogic way hence the humanities education psychology speech communication anthropology history sociology and economics The essays in Martin Buber and the Human Sciences demonstrate that thirty years after Buber s death his influence is still resonating in many countries and in many fields **Modernism - Dada - Postmodernism** Richard Sheppard,2000 Modernism Dada

Postmodernism collects updates integrates and contextualizes the critic Richard Sheppard s essays on the historical avant garde Sheppard s topic in all of these essays is the modernist writers artists and philosophers linguistic and visual responses to a changed sense of reality and human nature Beginning with an overview of the problematics of European modernism Sheppard establishes the dialectical relationship between the cultural crisis that occurred during the period 1880 1936 and the different responses from European modernists and the avant garde With its combination of classic and new essays and its perspective on the theoretical avant garde modernism debate in the United States Sheppard s volume should give the specialist as well as the general reader an insight into the highest sample of European scholarly discourse on this subject

Resonances in Heidegger David Chai,2022-05-05 East Asian imagery resonates throughout Martin Heidegger s writings In this exploration of the connections between Daoism and his thought an international team of scholars consider why the Daodejing and Zhuangzi were texts he returned to repeatedly and the extent Heidegger adhered to Daoism s core doctrines They discuss how Daoist thought provided him with a new perspective equipping him with images concepts and meanings that enabled him to continue his questioning of the nature of being Exploring the environment language death temporality aesthetics and race from the groundlessness of non being oneness and the Way they illustrate how these themes reverberate with ontological spiritual and epistemological potential A lesson in the art of Daoist and cross cultural ways of thinking this collection marks the first sustained analysis of the influence of classical Daoism on a major 20th century German philosopher

Contemporary Jewish Philosophy Irene Kajon,2020-04-02 This text introduces the most important Jewish philosophers

of contemporary times from the point of view of their original approach to both Judaism and philosophy and include Hermann Cohen Franz Rosenweig Martin Buber Leo Strauss Emmanuel Levinas It shows how for them the dialogue between Judaism and philosophy is necessary in order to avoid on one side an attachment to Jewish tradition which is only nationalistic or non rational and on the other an idea of philosophy which first of all focuses the problems of nature human existence in the world or God as the origin of being In reconstructing the intellectual evolution of each of these twentieth century philosophers with a view to their meaning today this book is unique and goes beyond the standard historical account provided by other books Contemporary Jewish Philosophy is essential reading for researchers and students of philosophy Judaism and the history of religions

Hans Scharoun and China Liyang Ding, 2024-11-15 This book presents the first systematic overview and analysis of the deep connection between Scharoun and China offering insights into East West cultural exchange and enriching existing understandings of modernism The German architect Hans Scharoun has typically been pigeonholed as a leading figure in expressionist architecture As this book shows however this understanding oversimplifies the multifaceted nature of Scharoun s career and overlooks his central role within the tradition of Neues Bauen The book begins with Scharoun s early interactions with East Asian architects in the 1930s his active involvement in the Chinese Werkbund 1941 42 and his extensive research on Chinese architecture and urban culture in the mid 1940s and 1950s The book then examines Scharoun s postwar architectural designs and urban planning projects most notably the Kollektivplan the Volksschule Darmstadt and the Berliner Philharmonie which incorporated original spatial and urbanistic concepts such as Stadtlandschaft Raum der Mitte and a perspectival space inspired to varying degrees by Chinese architectural and urban planning traditions The book will appeal to scholars and students of modern architecture urban planning and architectural theory especially those interested in modernism and East West cultural exchange
