Henri Zerner, **Critical Readings in Impressionism and Post-Impressionism** Mary Tompkins Lewis, 2023-12-22 The essays in this wide ranging beautifully illustrated volume capture the theoretical range and scholarly rigor of recent criticism that has fundamentally transformed the study of French Impressionist and Post Impressionist art Readers are invited to consider the profound issues and penetrating questions that lie beneath this perennially popular body of work as the contributors examine the art world of late nineteenth century France including detailed looks at Monet Manet Pissarro Degas C zanne Morisot Seurat Van Gogh and Gauguin The authors offer fascinating new perspectives placing the artworks from this period in wider social and historical contexts They explore these painters pictorial and market strategies the critical reception and modern criteria the paintings engendered and the movement s historic role in the formation of an avant garde tradition Their research reflects the wealth of new documents critical approaches and scholarly exhibitions that have fundamentally altered our understanding of Impressionism and Post Impressionism These essays several of which have previously been familiar only to scholars provide instructive models of in depth critical analysis and of the competing art historical methods that have crucially reshaped the field Contributors Carol Armstrong T J Clark Stephen F Eisenman Tamar Garb Nicholas Green Robert L Herbert John House Mary Tompkins Lewis Michel Melot Linda Nochlin Richard Schiff Debora Silverman Paul Tucker Martha Ward **The House of Fragile Things** James McAuley, 2021-03-01 A powerful history of Jewish art collectors in France and how an embrace of art and beauty was met with hatred and destruction In the dramatic years between 1870 and the end of World War II a number of prominent French Jews pillars of an embattled community invested their fortunes in France s cultural artifacts sacrificed their sons to the country s army and were ultimately rewarded by seeing their collections plundered and their families deported to Nazi concentration camps In this rich evocative account James McAuley explores the central role that art and material culture played in the assimilation and identity of French Jews in the fin de si cle Weaving together narratives of various figures some familiar from the works of Marcel Proust and the diaries of Jules and Edmond Goncourt the Camondos the Rothschilds the Ephrussis the Cahens d Anvers McAuley shows how Jewish art collectors contended with a powerful strain of anti Semitism they were often accused of invading France s cultural patrimony The collections these families left behind many ultimately donated to the French state were their response tragic attempts to celebrate a nation that later betrayed them The Brothers Le Nain Esther Susan Bell, Claude Douglas Dickerson, Nicolas Milavanovic, Alain Tallon, 2016-01-01 A beautiful volume that brings to light the forgotten Le Nain brothers a trio of 17th century French master painters who specialized in portraiture religious subjects and scenes of everyday peasant life In France in the 17th century the brothers Antoine c 1598 1648 Louis c 1600 1605 1648 and Mathieu 1607 1677 Le Nain painted images of everyday life for which they became posthumously famous They are celebrated for their depictions of middle class leisure activities and

particularly for their representations of peasant families who gaze out at the viewer The uncompromising naturalism of these compositions along with their oddly suspended action imparts a sense of dignity to their subjects Featuring more than sixty paintings highlighting the artists full range of production including altarpieces private devotional paintings portraits and the poignant images of peasants for which the brothers are best known this generously illustrated volume presents new research concerning the authorship dating and meaning of the works by well known scholars in the field Also groundbreaking are the results of a technical study of the paintings which constitutes a major contribution to the scholarship on the Le Nain brothers

The Aesthetic Relation Gérard Genette, 1999 One of the best known continental theorists writing today G rard Genette here explores our aesthetic relation to works of art Through an analysis of the views of thinkers ranging from David Hume and Immanuel Kant to Monroe C Beardsley Arthur Danto and Nelson Goodman Genette seeks to identify the place of the aesthetic in a theory of artistic appreciation His discussion is rich in detailed examples drawn from all of the arts The Aesthetic Relation is a companion volume to *The Work of Art Immanence and Transcendence* published by Cornell in 1997 Taken together the two books offer a comprehensive theory of art which addresses the work of art as at once object and action Genette maintains that our aesthetic relation to all types of objects presupposes that special attention is paid to their outward aspect rather than to their usefulness when appraising them Such appraisals while wholly subjective and temporary are expressed as objective and universal judgments about the items in question Further he asserts that our aesthetic relation to works of art in particular is based on an awareness of an aesthetic intention that defines an object as a work of art as well as on an awareness of a work s position in its historical and generic field

Painting the Cannon's Roar Thomas Tolley, 2017-07-05 From c 1750 to c 1810 the paths of music history and the history of painting converged with lasting consequences The publication of Newton s *Opticks* at the start of the eighteenth century gave a scientific basis to the analogy between sight and sound allowing music and the

visual arts to be defined more closely in relation to one another This was also a period which witnessed the emergence of a larger and increasingly receptive audience for both music and the visual arts an audience which potentially included all social strata The development of this growing public and the commercial potential that it signified meant that for the first time it became possible for a contemporary artist to enjoy an international reputation Nowhere is this better illustrated than in the career of Joseph Haydn Although this phenomenon defies conventional modes of study the book shows how musical pictorialism became a major creative force in popular culture Haydn the most popular living cultural personality of the period proved to be the key figure in advancing the new relationship The connections between the composer and his audiences and leading contemporary artists including Tiepolo Mengs Kauffman Goya David Messerschmidt Louthembourg Canova Copley Fuseli Reynolds Gillray and West are examined here for the first time By the early nineteenth century populism was beginning to be regarded with scepticism and disdain Mozart was the modern Raphael Beethoven the modern Michelangelo Haydn however had no clear parallel in the accepted canon of Renaissance art Yet his recognition that ordinary people had a desire to experience simultaneous aural and visual stimulation was not altogether lost finding future exponents in Wagner and later still in the cinematic arts

Manet and Modern Beauty Gloria Groom, 2019-06-25 This stunning examination of the last years of douard Manet s life and career is the first book to explore the transformation of his style and subject matter in the 1870s and early 1880s The name Manet often evokes the provocative heroically scaled pictures he painted in the 1860s for the Salon but in the late 1870s and early 1880s the artist produced quite a different body of work stylish portraits of actresses and demimondaines luscious still lifes delicate pastels intimate watercolors and impressionistic scenes of suburban gardens and Parisian caf s Often dismissed as too pretty and superficial by critics these later works reflect Manet s elegant social world propose a radical new alignment of modern art with fashionable femininity and record the artist s unapologetic embrace of beauty and visual pleasure in the face of death Featuring nearly three hundred illustrations and nine fascinating essays by established and emerging Manet specialists a technical analysis of the late Salon painting Jeanne Spring a selection of the artist s correspondence a chronology and more Manet and Modern Beauty brings a diverse range of approaches to bear on a little studied area of this major artist s oeuvre

Macaulay and the Enlightenment Nathaniel Wolloch, 2022 A new intellectual biography of Thomas Babington Macaulay showing how nineteenth century British liberal culture retained and transformed the ideas of the Enlightenment in a rapidly changing world Macaulay and the Enlightenment sheds new light on both familiar and unfamiliar aspects of the life and ideas of this most famous of nineteenth century British historians Thomas

Babington Macaulay 1800-1859 was a prominent representative of mainstream British liberalism in the first half of the nineteenth century. He was also a Member of Parliament and government minister and famously spent several years as a member of the governing council in India where he promoted legal and educational reforms. One of the book's key contributions is the investigation of Enlightenment influences on the more well-known aspects of Macaulay's thought: history, politics, social and economic issues, religion, revolution, and colonialism. The book also offers new revelations about Macaulay's attitude towards women and provides insight into his views on art, nature, and animals. In this study, Macaulay emerges as a more subversive at times even radical figure than previously assumed. The book thus emphasizes the transformation of Enlightenment ideas into early nineteenth-century liberalism. Publisher description

Old Masters Worldwide Susanna Avery-Quash, Barbara Pezzini, 2020-10-15 As a result of the Napoleonic wars, vast numbers of Old Master paintings were released on to the market from public and private collections across continental Europe. The knock-on effect was the growth of the market for Old Masters from the 1790s up to the early 1930s when the Great Depression put an end to its expansion. This book explores the global movement of Old Master paintings and investigates some of the changes in the art market that took place as a result of this new interest. Arguably the most important phenomenon was the diminishing of the traditional figure of the art agent and the rise of more visible, increasingly professional dealerships: firms such as Colnaghi and Agnew's in Britain, Goupil in France, and Knoedler in the USA came into existence. *Old Masters Worldwide* explores the ways in which the pioneering practices of such businesses contributed to shape a changing market.

Art, Power and Modernity Gordon Fyfe, 2001-01-01 How did the rise of metropolitan art institutions influence modernism and the modernisation of art in England? This volume explores the artist as creator, notions of class and taste, and the power of institutions to affect creativity and artistic expression. Topics discussed include the radicalism of engravers and how their claim to be artists is an important and neglected aspect of the nineteenth-century art world, and how the aesthetic dispute over the Chantrey Bequest epitomized conflicts of taste, cultural independence and interdependence between opposed art institutions and the Treasury.

Reclaiming a Plundered Past Magnus T. Bernhardsson, 2013-08-21 The looting of the Iraqi National Museum in April of 2003 provoked a world outcry at the loss of artifacts regarded as part of humanity's shared cultural patrimony. But though the losses were unprecedented in scale, the museum looting was hardly the first time that Iraqi heirlooms had been plundered or put to political uses. From the beginning of archaeology as a modern science in the nineteenth century, Europeans excavated and appropriated Iraqi antiquities as relics of the birth of Western civilization. Since Iraq was created in 1921, the modern state has used archaeology to forge a connection to the ancient civilizations of Mesopotamia and/or Islamic empires and so build a sense of nationhood among Iraqis of differing religious traditions and ethnicities. This book delves into the ways that archaeology and politics intertwined in Iraq during the British Mandate and the first years of nationhood before World War II. Magnus Bernhardsson begins with the work of British archaeologists who conducted extensive excavations in Iraq and sent their finds to the museums of Europe. He then traces how Iraqis' growing sense of nationhood led them to confront the British over antiquities law and the division of archaeological finds between Iraq and foreign excavators. He shows how Iraq's control over its archaeological patrimony was directly tied to the balance of political power and how it increased as power shifted to the Iraqi government. Finally, he examines how Iraqi leaders including Saddam Hussein have used archaeology and history to legitimize the state and its political actions.

Opera and Society in Italy and France from Monteverdi to Bourdieu Victoria Johnson, Jane F. Fulcher, Thomas Ertman, 2007-05-03 This edited volume brings together academic specialists writing on the multi-media operatic form from a range of disciplines: comparative literature, history, sociology, and philosophy. The presence in the volume's title of Pierre Bourdieu, the leading cultural sociologist of the late twentieth century, signals the editors' intention to synthesise advances in social science with advances in musicological and other scholarship on opera. Through a focus on opera in Italy and France, the contributors to the volume draw on their respective disciplines both to expand our knowledge of opera's history and to demonstrate the kinds of contributions that stand to be made by different disciplines to the study of opera. The volume is divided into three sections, each of which is preceded by a concise and informative introduction explaining how the chapters in that section contribute to our understanding of opera.
