Rediscovering Gay History:

Rediscovering Gay History John Boswell, The Boswell Thesis Mathew Kuefler, 2006-03 Few books have had the social cultural and scholarly impact of John Boswell's *Christianity, Social Tolerance and Homosexuality*. Arguing that neither the Bible nor the Christian tradition was nearly as hostile to homoeroticism as was generally thought, its initial publication sent shock waves through university classrooms, gay communities and religious congregations. Twenty five years later the aftershocks still reverberate. *The Boswell Thesis* brings together fifteen leading scholars at the intersection of religious and sexuality studies to comment on this book's immense impact, the endless debates it generated and the many contributions it has made to our culture. The essays in this magnificent volume examine a variety of aspects of Boswell's interpretation of events in the development of sexuality from Classical Antiquity through the Middle Ages, including a Roman emperor's love letters to another man, suspicions of sodomy among medieval monks, knights and crusaders and the gender bending visions of Christian saints and mystics. Also included are discussions of Boswell's career, including his influence among gay and lesbian Christians and his role in academic debates between essentialists and social constructionists. Elegant and thought provoking, this collection provides a fitting twenty fifth anniversary tribute to the incalculable influence of *Christianity, Social Tolerance and Homosexuality* and its author. *Routledge Revivals: Homosexuality: A Research Guide (1987)* Wayne R.

Dynes, 2017-02-17 First published in 1987, this book encompasses a broad range of interdisciplinary research into homosexuality, displaying a full spectrum of points of view. Given that the major traditions of modern homosexual research began in Europe, it is not restricted to works in English. In general, topics that are densely covered in the literature are presented in this guide selectively, with some less studied topics such as Economics and Music fleshed out with signposts to more comprehensive research. It seeks to not only mirror existing publications but also to stimulate new work by pinpointing neglected themes and methods. This book will be of interest to students of sociology. **Origins of Sexuality and**

Human Sexuality and the Nuptial Mystery Roy R. Jeal, 2010-03-08 This collection of essays was originally presented at the St Margaret's Consultation on Doctrine Liturgy and Preaching held at St Margaret's Anglican Church in Winnipeg Canada in 2008 They consider human sexuality and marriage from a distinctly theological rather than polemical standpoint aiming to avoid frequently polarized debates The interesting commonality indicated in the articles is that sex and marriage are not about self fulfillment but are outwardly directed aimed toward the other person toward growth maturity and deepened spirituality for the benefit of the church for productive good and for children The first section explores theological and ethical issues surrounding human sexuality and aims toward understanding the nature of relationships in these contexts The second section explores the spiritual nature of marriage and the history of thinking on marriage and family within Christian theology For those interested in pursuing truly theological engagement with marriage and sexuality this collection is required reading **Byzantine Intersectionality** Roland Betancourt, 2020-10-06 A fascinating history of marginalized identities in the medieval world While the term intersectionality was coined in 1989 the existence of marginalized identities extends back over millennia Byzantine Intersectionality reveals the fascinating little examined conversations in medieval thought and visual culture around sexual and reproductive consent bullying and slut shaming homosocial and homoerotic relationships trans and nonbinary gender identities and the depiction of racialized minorities Roland Betancourt explores these issues in the context of the Byzantine Empire using sources from late antiquity and early Christianity up to the early modern period Highlighting nuanced and strikingly modern approaches by medieval writers philosophers theologians and doctors Betancourt offers a new history of gender sexuality and race Betancourt weaves together art literature and an impressive array of texts to investigate depictions of sexual consent in images of the Virgin Mary tactics of sexual shaming in the story of Empress Theodora narratives of transgender monks portrayals of same gender desire in images of the Doubting Thomas and stereotypes of gender and ethnicity in representations of the Ethiopian Eunuch He also gathers evidence from

medical manuals detailing everything from surgical practices for late terminations of pregnancy to save a mother's life to a host of procedures used to affirm a person's gender. Showing how understandings of gender, sexuality, and race have long been enmeshed. Byzantine Intersectionality offers a groundbreaking look at the culture of the medieval world. **Ethical Studies** Robert A. Bowie, 2004. A detailed treatment of ethics preparing students for the methods of study expected in higher education. Covering the major western theories and their religious connections as well as a series of pertinent contemporary ethical issues. This second edition has been substantially updated to provide comprehensive coverage of the Religious Ethics requirements of all major awarding bodies. **THE END OF WOKE** Andrew Doyle, 2025-05-29. Thought provoking and entertaining. Andrew Doyle's intellect dazzles. Jimmy Carr. A magisterial read. Divinely inspired writing and commentary from one of the most thoughtful intellectuals of our time. Michael Shermer. The best work yet by the creator of genius parody. Titania McGrath. The Critic. A revelatory investigation into the rise and fall of the woke movement and how we can prevent it from happening again. It is no secret that we are in the midst of a cultural revolution. Activists in the woke movement have claimed to be on the right side of history and yet their approach has been intolerant, intemperate, and above all, illiberal. Having dominated the western world for the past fifteen years, there are clear signs the woke are now losing their power. The re-election of Donald Trump, the scaling back of DEI initiatives, and a growing awareness of the threats to women's sex-based rights has stirred a counter-revolution. But is this truly the end of woke? Or have the culture wars merely evolved? In *The End of Woke*, Doyle skilfully examines the mechanisms underlying the zealous extremes on both the left and the right. He shows that in a desperate power struggle to re-assert liberal values, some leaders of the anti-woke movement have found themselves adopting a different kind of authoritarian approach, one which also promotes censorship and erodes our freedoms. Doyle argues that although authoritarianism is common to all political tribes, we must resist its pernicious influence wherever it emerges. After all, replacing one form of tyranny with another will not end the culture wars. But liberalism, true liberalism, might just see the end of woke for good. Sexuality, Iconography, and Fiction in French Jason James Hartford, 2018-02-19. This book explores the modern cultural history of the queer martyr in France and Belgium. By analyzing how popular writers in French responded to Catholic doctrine and the tradition of St. Sebastian in art, *Queering the Martyr* shows how religious and secular symbols overlapped to produce not one but two martyr types. These are the queer type typified first by Gustave Flaubert, which is a philosophical foil, and the gay type popularized by Jean Genet but created by the Belgian Georges Eekhoud, which is a political and pornographic device. Grounded in feminist queer theory and working from a post-psychoanalytical point of view, the argument explores the potential and limits of these two figures, noting especially the persistence of misogyny in religious culture. Female Homosexuality in the Middle East Samar Habib, 2012-08-06. This book, the first full-length study of its kind, dares to probe the biggest taboo in contemporary Arab culture with scholarly intent and integrity. Female homosexuality, Habib argues, has a long history in Arabic literature and

scholarship beginning in the ninth century and she traces the destruction of Medieval discourses on female homosexuality and the replacement of these with a new religious orthodoxy that is no longer permissive of a variety of sexual behaviours Habib also engages with recent gay historiography in the West and challenges institutionalized constructionist notions of sexuality

Aliens in the Household of God Paul Germond, Steve De Gruchy, 1997 This groundbreaking volume explores and challenges the prejudice and discrimination that gay people experience within South African churches Drawing from a broad and diverse base these stories and essays suggest that heterosexism is the problem
