REDSHIFT RENDEZVOUS

One fabulously wealthy colony. One hyperspace craft.
One team of ruthless hijackers. One loner in their way.
Do the math.

"This is absolutely one of the most terrific ideas
for an SF novel I've seen in years. My first thought was,
'Why couldn't I have come up with this?' My second thought, too."
-- Connie Willis

other About Stith s prior work Stith writes in the best hard sf manner dropping characters into a situation that can be solved only by thought and reason but he also more modernly creates real and believable characters He is becoming one of the most eloquent modern hard sf practitioners Booklist *Speculative Epistemologies* John Rieder,2021-09-15 Speculative Epistemologies is about truth effects in sf which stands for both science fiction and speculative fiction It examines six narratives one from each decade from the 1960s to the 2010s that challenge dominant assumptions about the normal the possible and the real It asks what the patterns of overlap and interference generated by texts located in border territories that make their identification as sf problematic and sometimes controversial can reveal about the dynamics of sf s multiple subcultures e g professionals academics and fans the complexity of the genre s communities of practice and their routes of production distribution and reception and the genre s shifting position within a broadly conceived field of literary and cultural production The speculative epistemologies in these stories are counter hegemonic ways of knowing ways of imagining knowing differently and the focus of this study is their effect on the formation of identities and communities Combining the methods of genre theory reception theory and the sociology of cultural production the readings of these six narratives trace a history of sf s increasingly feminist racially and ethnically diverse philosophically ambitious and politically engaged character from the 1960s to the present The Year's Best Science Fiction: Nineteenth Annual Collection Gardner Dozois,2002-07-22 The twenty first century has so far proven to be exciting and wondrous and filled with challenges we had never dreamed New possibilities previously unimagined appear almost daily and science fiction stories continue to explore those possibilities with delightful results Collected in this anthology are such compelling stories as On K2 with Kanakaredes by Dan Simmons A relentlessly paced and absorbing tale set in the near future about three mountain climbers who must scale the face of K2 with some very odd company The Human Front by Ken MacLeod In this compassionate coming of age tale the details of life are just a bit off from things as we know them and nothing is as it appears to be Glacial by Alastair Reynolds A fascinating discovery on a distant planet leads to mass death and a wrenching mystery as spellbinding as anything in recent short fiction The twenty six stories in this collection imaginatively takes us far across the universe into the very core of our beings to the realm of the gods and the moment just after now Included here are the works of masters of the form and of bright new talents including Eleanor ArnasonChris BeckettMichael BlumleinMichael CassuttBrenda W CloughPaul Di FilippoAndy DuncanCarolyn Ives GilmanJim GrimsleySimon IngsJames Patrick KellyLeigh KennedyNancy KressIan R MacLeodKen MacLeodPaul J McAuleyMaureen F McHughRobert ReedAlastair ReynoldsGeoff RymanWilliam SandersDan SimmonsAllen M SteeleCharles StrossMichael SwanwickHoward WaldropSupplementing the stories are the editor s insightful summation of the year s events and a lengthy list of honorable mentions making this book a valuable resource in addition to serving as the single best place in the universe to find stories that stir the imagination and the heart

The Hugo, Nebula and World Fantasy Awards Howard DeVore,1998 Science fiction fans have voted for the Hugo Awards for best science fiction almost every year since 1953 Science fiction professionals have presented the Nebula Awards to their peers since 1965 In all this time lists of winners have been widely available but the losers have usually been ignored In 1970 long time fan Howard DeVore started publishing a complete listing of Hugo and Nebula awards including the stories that were nominated but did not win The fact that stories were nominated implied that they had considerable merit Mr DeVore felt that a complete listing would let fans compare them The International Fantasy Awards may have inspired the Hugos so he added them DeVore brought out new editions year by year publishing and distributing them himself with the aid of a number of devoted science fiction fans By 1998 the task had grown to the point where Mr DeVore happily relinquished the job to Advent This edition includes introductory and historical essays explaining how each award got started and how nominees and winners are chosen plus commentary in the yearly listings
