The Opportunity Steven Pifer, Michael E. O'Hanlon, 2012-10-05 For some observers nuclear arms control is either a relic of the cold war or a utopian dream about a denuclearized planet decades in the future But as Brookings scholars Steven Pifer and Michael O Hanlon argue in *The Opportunity* arms control can address some key security challenges facing Washington today and enhance both American and global security Pifer and O Hanlon make a compelling case for further arms control measures to reduce the nuclear threat to the United States and its allies to strengthen strategic stability to promote greater transparency regarding secretive nuclear arsenals to create the possibility for significant defense budget savings to bolster American credibility in the fight to curb nuclear proliferation and to build a stronger and more sustainable U S Russia relationship President Obama gave priority to nuclear arms control early in his first term and by all accounts would like to be transformational on these questions Can there be another major U S Russia arms treaty Can the tactical and surplus strategic nuclear warheads that have so far escaped controls be brought into such a framework Can a modus vivendi be reached between the two countries on missile defense And what of multilateral accords on nuclear testing and production of fissile materials for nuclear weapons Pifer and O Hanlon concisely frame the issues the background and the choices facing the president provide practical policy recommendations and put it all in clear and readable prose that will be easily understood by the layman

arms control and Nonproliferation Treaty billions of defense dollars in savings and greater international stability on the way to nuclear zero As political pressure builds to pursue this vision of minimum US deterrence Minimum Deterrence Examining the Evidence stands as the seminal study to address the many claims of great benefit using available evidence This book was published as a special issue of Comparative Strategy Programmatic EIS for Stockpile Stewardship and Management,1996 *The 21st-Century Voter* Guido H. Selected Papers On Arms Control Sidney D Drell, 2007-01-16 This volume includes a representative selection of Sidney
Drell's recent writings and speeches circa 1993 to the present on public policy issues with substantial scientific components
Most of the writings deal with national security nuclear weapons and arms control and reflect the author's personal
involvement in such issues dating back to 1960 Fifteen years after the demise of the Soviet Union the gravest danger
presented by nuclear weapons is the spread of advanced technology that may result in the proliferation of nuclear weapons
Of most concern would be their acquisition by hostile governments and terrorists who are unconstrained by accepted norms
of civilized behavior The current challenges are to prevent this from happening and at the same time to pursue aggressively
the opportunity to escape from an outdated nuclear deterrence trap **Parameters** ,1997 **Department of Defense**
