despite being a high labour cost country in an industry with global competition Among the features that are emphasised are market developments business strategies and political decisions The Norwegian experience was shaped by the main breaking points in 20th century world history such as the two world wars and by long term trends such as globalization and liberalization The shipping companies introduced technological and organizational innovations to build or maintain a competitive advantage in a rapidly changing world The growing importance of offshore petroleum exploration in the North Sea from the 1970s was both a threat and an opportunity to the shipping companies By adapting both business strategies and the political regime to the new circumstances the Norwegian shipping sector managed to maintain a leading position internationally

Financial analysis of the transport of wood chips as an option among other solid fiberbased combustibles from the USA to Germany Clemens von Wühlisch, 2013-11-08 Master s Thesis from the year 2011 in the subject Business economics Investment and Finance grade 1.5 The University of North Carolina at Wilmington Cameron School of Business course Master of Business Administration language English abstract The European demand for wood chips and wood pellets is strongly increasing in the course of a new energy policy This new policy limits the use of non renewable energy sources to a maximum of 80 % in favor of a 20 % renewable energy mix by 2020 Besides the main renewable energy sources wind and hydro woody biomass shall contribute the largest part of the generation of heat and power As North West European wood resources are not sufficient for this sudden demand the region relies on imports from abroad The large renewable wood resources of the North American continent could be used increasingly to supply woody biomass to North West European countries like Germany This thesis analyzes the profitability of US American exports of woody biomass to Germany To see under which conditions the transport has its maximum rate of return four transporting categories are investigated Firstly it will be analyzed whether the woody biomass should be compressed to pellets secondly which type and cargo handling features the vessel should have thirdly which charter conditions harbors trade terms and routes should be taken and fourthly which market conditions under current market prices for energy wood variation of exchange rates and fuel oil prices are favorable to improve the efficiency of the transport Beyond that also the Canadian exports have been analyzed in order to benchmark the market leader against the USA

The Function of Protection & Indemnity Marine Insurance in Relation to Ship Owner's Liability for Cargo Claims Joseph Tshilomb JK, LL.M; MSc, 2016-03-04 In the early days of shipping and international maritime trade many more casualties occurred at sea Ever since ship owners liability for cargo claims has been increasing both in number and in cost in spite of the huge technical development in international maritime transport In order to make it easier for ship owners to operate safely and efficiently the Protection and Indemnity appeared around 1870 as mutual marine insurance Besides Hull Machinery and Cargo Insurance offered on the international commercial market in insurance Protection and Indemnity Insurance known under the acronym P I is a ship owners insurance cover for legal liabilities to third parties This cover is generally achieved by entering the ship in a mutual insurance club Nowadays the

mutuality is performed by an underwriter who endeavors to see that each owner carries his fair share of the risk The members of P I clubs are ship owners charterers or ship management companies At present a major function of the Protection and Indemnity insurance is to cover the ship owner for legal and contractual liability for loss of cargo or damage to cargo if there has been a breach of the carriage contract This liability is called Third party liability The ship owner will handover the cargo claim to his P I Club In order to clarify this liability Article 3 Paragraph 2 of the Hague Visby rules stipulates Subject to the provisions of Article 4 the carrier shall properly and carefully load handle stow carry keep care for and discharge the goods carried Therefore the focus in this research study is placed on the function of Protection and Indemnity insurance covering the ship owners liability for damage to cargo or loss of cargo *An Introduction to Transport Studies* John Hibbs,2000 Praise and Reviews The book might well have been entitled The Romance of Transport It will appeal to many people including those who are not interested in transport JOURNAL OF THE INSTITUTE OF TRAFFIC ADMINISTRATION The long awaited new edition of this best selling textbook provides an informal overview of the transport industry including all the major changes of the past 10 years Ideal for undergraduates and students taking professional transport qualifications as well as for careers advisors interested in the employment opportunities it will also appeal to general readers who want to discover what transport is all about
