Mystical Society Philip Wexler, 2018-03-05 In *Mystical Society*, Philip Wexler, a well-known critical theorist with a background in social psychology and a special interest in spirituality, examines the revitalization of spirituality manifesting itself in society and in education. Describing what he calls cultural changes toward the sacred, he documents a cultural shift brought about by technological and societal changes toward a new mysticism. Wexler explores the meaning for this new spirituality for our daily lives, for social theory, and for education. From the pervasiveness of a spiritual vernacular to the integration of spiritual practices into our highly individualized and technologized lives, Wexler lays out the evidence for a growing movement and then draws parallels to periods of mystical revitalization from the past. In the course of this discussion, he draws on the work of Marx, Weber, and Durkheim, as well as from contemporary social theory.

The Jews of Odessa Steven J. Zipperstein, 1991-11 Founded in 1794 as a frontier city on the Black Sea, Odessa soon grew to be one of Russia's busiest seaports. Settlers of all nationalities went there to seek their fortune, among them Jews who came to form one of the largest, wealthiest, and most culturally fertile Jewish communities in Europe. This history of Jewish Odessa traces the rise of that community from its foundation in 1794 to the pogroms of 1881 that erupted after the assassination of Alexander II. Zipperstein emphasizes Jewish acculturation, changes in behavior, attitude, and ideology as reflected in schools, synagogues, newspapers, and other institutions of the period. The patterns set then affected the community's cultural development well into the second decade of the twentieth century. More a modern metropolis than any other Russian city with a significant Jewish population, Odessa offers a window into the diversity of Russian Jewish experience.

Theological Reflections Elaine Graham, 2013-01-08 Following the same topics as the *Methods* volume, this reader is aimed at postgraduates and academics interested in the expanding volume of work and research surrounding theological reflection. Brought together in this second volume are materials relating to the same topics and dealt with by the same divisions, descriptions, and features. The identified models being: The Living Human Document, Constructive Narrative Theology, Canonical Narrative Theology, Corporate Theological Reflection, The Correlative Method, Performative or Praxis Theological Reflection, and Theology in the Vernacular or local theologies. Volume one described and identified the various models, whilst this new second volume fleshes out these descriptions by allowing the reader access to a variety of sources and examples of writings within these models.

Reflections on Reformational Theology Kimlyn J. Bender, 2021-07-29 The essays in this volume examine some of the

fundamental doctrinal convictions of Martin Luther and the Reformation legacy as well as the maturation and development of these convictions in the theology of Karl Barth. The broad evangelical vision that spans its various confessional tributaries is presented in the essays of this volume. Together these studies serve as a cumulative argument for the ongoing coherence, meaning, and consequence of that vision, one that at its heart is constructive and ecumenical rather than narrowly polemical. Kimlyn J. Bender examines a variety of topics such as the relation of Christ and the Church as understood in the theology of Luther and Barth, the centrality of Christ to an understanding of all the solas of the Reformation, the place and significance of the Reformers in Barth's own thought, and Barth's theology in conversation with distant descendants of the Reformation often neglected, including Baptists in America, Pietists in Europe, and Barth's own complicated relationship with Kierkegaard. Bender concludes his discussion by presenting constructive proposals for a Church and university on the way and thus ever reforming.

Mystifying Kabbalah Boaz Huss, 2020-09-10. Most scholars of Judaism take the term Jewish mysticism for granted and do not engage in a critical discussion of the essentialist perceptions that underlie it. *Mystifying Kabbalah* studies the evolution of the concept of Jewish mysticism. It examines the major developments in the academic study of Jewish mysticism and its impact on modern Kabbalistic movements in the contexts of Jewish nationalism and New Age spirituality. Boaz Huss argues that Jewish mysticism is a modern discursive construct and that the identification of Kabbalah and Hasidism as forms of mysticism which appeared for the first time in the nineteenth century and has become prevalent since the early twentieth shaped the way in which Kabbalah and Hasidism are perceived and studied today. The notion of Jewish mysticism was established when western scholars accepted the modern idea that mysticism is a universal religious phenomenon of a direct experience of a divine or transcendent reality and applied it to Kabbalah and Hasidism. Jewish mysticism gradually became the defining category in the modern academic research of these topics. This book clarifies the historical, cultural, and political contexts that led to the identification of Kabbalah and Hasidism as Jewish mysticism, exposing the underlying ideological and theological presuppositions and revealing the impact of this mystification on contemporary forms of Kabbalah and Hasidism.

A Treasury of Mystic Terms: The universe of spirituality with biographic and bibliographic glossary, bibliography and index John Davidson, 2003

A Treasury of Mystic Terms, Part 1 John Davidson, 2003. The Treasury is a collection of the spiritual terms found in the literature of the world's religious and mystical traditions. Its primary objective is to elucidate the meaning of the essential terms used by the various spiritual and religious traditions of the world throughout history. It is not primarily intended as a dictionary or as an encyclopedia, nor is it a definitive treatise on any particular subject or religion. It is meant to help the ordinary person understand some of the basic principles of his or her religious background within the framework of a universal understanding of spirituality. All terms are explained in a simple manner, with each term presented as a separate

entry With the explanations grouped according to subject and placed alongside one another many similarities between the various religions immediately become apparent Among these many pages the reader will find a mixture of interesting concepts quotations thoughts perceptions and ideas There should be something for everyone whoever they are and whatever their bent of mind The Treasury is prepared and edited by an international team of researchers contributors editors and readers with a wide variety of religious and cultural backgrounds All those involved gave their time and expertise freely to the project Since the Society does not seek any profit and the cost of printing in India is low the Treasury can be sold at a very low price This helps the Society stay true to its premise that spirituality is the birthright of all that no profit should be extracted from its dissemination and most important that knowledge of these truths should not be withheld from anyone for economic reasons Provided by publisher

Mysticism and Narcissism Kathleen Lyons, 2015-11-25 *Mysticism and Narcissism* details the exceptional personal narrative of a long serving Cenacle nun during a time of particular historical significance for the Catholic Church The book's unique and original approach is highlighted by its application of psychoanalytic theory to questions of theological and Marian identity and relationality exploring narcissism and mysticism within the context of religious life In addition it provides an excellent historical resource for the study of women's religious orders in the twentieth century and in analysing the impact of Vatican II on the self understanding of all women

 John McClintock,1890 **From Reformation to Improvement** Paul Slack,1998-09-24
 Between the early sixteenth and the early eighteenth centuries the character of English social policy and social welfare changed fundamentally
 Aspirations for wholesale reformation were replaced by more specific schemes for improvement
 Paul Slack s analysis of this decisive shift of focus derived from his 1995 Ford Lectures examines its intellectual and political roots
 He describes the policies and rhetoric of the commonwealthsmen godly magistrates Stuart monarchs Interregnum projectors and early Hanoverian philanthropists and the institutions notably hospitals and workhouses which they created or reformed
 In a series of thematic chapters each linked to a chronological period he brings together what might seem to have been disparate notions and activities and shows that they expressed a sequence of coherent approaches towards public welfare
 The result is a strikingly original study which throws fresh light on the formation of civic consciousness and the emergence of a civil society in early modern England
