## **Reflections On Antipoverty Programmes:**

*Evaluating Anti-poverty Programs* Martin Ravallion, 2005 The author critically reviews the methods available for the ex post counterfactual analysis of programs that are assigned exclusively to individuals households or locations The discussion covers both experimental and non experimental methods including propensity score matching discontinuity designs double and triple differences and instrumental variables Two main lessons emerge First despite the claims of advocates no single method dominates rigorous policy relevant evaluations should be open minded about methodology Second future efforts to draw more useful lessons from evaluations will call for more policy relevant measures and deeper explanations of measured impacts than are possible from the classic black box assessment of mean impact Cover verso **Critical Reflections on**

**Cities in Southeast Asia** Tim Bunnell, Lisa Drummond, Ho, 2021-11-15 Critical Reflections draws together the multi disciplinary research of scholars working in on cities across Southeast Asia The fourteen essays collected in the volume are organised into three thematic sections re conceptualisation competition and intervention Collectively these reflections contribute to and interrogate the expanding urban and regional studies literature The volume constitutes a critical corrective to the existing literature which all too often seeks to diagnose contemporary urban trends everywhere from a small number of mostly Western paradigmatic cases Yet while acknowledging the increasing interconnectedness and shared global orientation of most cities in Southeast Asia the volume is wary of positing an equally generalising regional model Individually these essays attend to the diversity of contemporary urban experiences in Southeast Asia **Panchayati Raj Institutions**

**Growing Apart: Religious Reflection on the Rise of Economic Inequality** Kate Ward,Kenneth Himes,2019-01-24 This book is a printed edition of the Special Issue Growing Apart Religious Reflection on the Rise of Economic Inequality that was published in Religions      It Takes a Nation Rebecca M. Blank,2018-06-26 As Americans experiment with dismantling the nation's welfare system clichés and slogans proliferate ranging from charges that the poor are simply lazy to claims that existing antipoverty programs have failed completely In this impeccably researched book Rebecca Blank provides the definitive antidote to the scapegoating guesswork and outright misinformation of today's welfare debates Demonstrating that government aid has been far more effective than most people think she also explains that even private support for the poor depends extensively on public funds It takes a nation to fight a problem as pervasive and subtle as modern poverty and this book argues that we should continue to implement a mix of private and public programs Federal state and local assistance should go hand in hand with private efforts at community development and personal empowerment and change The first part of the book investigates the changing nature of poverty in America Poverty is harder to combat now than in the past both because of the changing demographics of who is poor as well as the major deterioration in earnings among less skilled workers The second part of the book delves into policies designed to reduce poverty presenting evidence

that many though not all programs have done exactly what they set out to do The final chapters provide an excellent review of recent policy changes and make workable suggestions for how to improve public assistance programs to assure a safety net while still encouraging poor adults to find employment and support their families **Programs in Aid of the Poor** Sar A. Levitan,2003-04-11 In 1964 Lyndon Johnson declared an unconditional war on poverty launching a variety of new antipoverty programs and enhancing existing ones This war is still being fought But with what success And at what cost Incorporating new data from the 2000 census the eighth edition of Programs in Aid of the Poor provides an up to date comprehensive overview of current federal programs aimed at alleviating poverty in the United States The authors focus on programs that offer cash support provide goods and services to poor people address the well being of children and youth prepare young people to earn above poverty incomes and offer adults a second chance to earn their way out of poverty They also discuss the definition of poverty identify who the poor are and generalize the causes of poverty To an extent the authors find we have prosecuted our war against poverty the way Senator George Aiken of Vermont advised that we do in Vietnam Declare victory and go home Yet the war against poverty has not been abandoned Skirmishes continue with widely fluctuating commitment Co authors Garth and Stephen Mangum and Andrew Sum have also prepared a companion volume The Persistence of Poverty in the United States analyzing the underlying causes of poverty and its persistence in America

**Hearings** United States. Congress Senate,1965 **Is Inheritance Legitimate?** Guido Erreygers,Toon Vandeveldel,2013-03-09 The debate on inheritance and inheritance taxation has always been linked with the efficiency versus equity issue Some consider inheritance taxes as highly appropriate means to bring forth more economic equality especially equality in starting conditions Others openly doubt the effectiveness of inheritance taxes in this domain and point out that the negative effects may outweigh the positive Some go as far as to say that high inheritance taxes threaten fundamental ethical values and should therefore be abolished In this book both economists and philosophers try to disentangle these and related theoretical issues It gives an overview of what economists and philosophers have to say on the matter and confronts and discusses two radically opposed reform proposals **The American People** Reynolds Farley,John Haaga,2005-09-08 For more than 200 years America has turned to the decennial census to answer questions about itself More than a mere head count the census is the authoritative source of information on where people live the types of families they establish how they identify themselves the jobs they hold and much more The latest census taken at the cusp of the new millennium gathered more information than ever before about Americans and their lifestyles The American People edited by respected demographers Reynolds Farley and John Haaga provides a snapshot of those findings that is at once analytically rich and accessible to readers at all levels The American People addresses important questions about national life that census data are uniquely able to answer Mary Elizabeth Hughes and Angela O Rand compare the educational attainment economic achievement and family arrangements of the baby boom cohort with those of preceding generations David Cotter Joan

Hermesen and Reeve Vanneman find that unlike progress made in previous decades the 1990s were a time of stability and possibly even retrenchment with regard to gender equality Sonya Tafoya Hans Johnson and Laura Hill examine a new development for the census in 2000 the decision to allow people to identify themselves by more than one race They discuss how people form multiracial identities and dissect the racial and ethnic composition of the roughly seven million Americans who chose more than one racial classification Former Census Bureau director Kenneth Prewitt discusses the importance of the census to democratic fairness and government efficiency and notes how the high stakes accompanying the census count especially the allocation of Congressional seats and federal funds have made the census a lightning rod for criticism from politicians The census has come a long way since 1790 when U S Marshals set out on horseback to count the population Today it holds a wealth of information about who we are where we live what we do and how much we have changed The American People provides a rich detailed examination of the trends that shape our lives and paints a comprehensive portrait of the country we live in today A Volume in the Russell Sage Foundation Census Series
