Reform In Detroit:

Reform in Detroit: Hazen S. Pingree and Urban Politics Melvin G. Holli, 1969 **Black Mayors and School Politics** Wilbur C Rich, 2021-12-12 First Published in 1996 Some people believe that if inner city black children had excellent schools they would perform better in them Granted schools are a part of the problem but they are not all of the solution Schools are only buildings where teachers administrators and students interact Learning is a more much complex process There are many forces arrayed against an inner city child that preclude him her from mastering the education process Among these forces are poverty family instability disruptive classroom environments and incompetent teachers There seems to be no end to research and speculation about how to overcome these forces However the author asserts that the gap between black and white children continues to widen With research beginning in 1989 exploring three school systems for this study Detroit Michigan Gary Indiana and Newark New Jersey The book presents a systematic survey of school politics in these three cities giving particular emphasis to local reform efforts Reform in Detroit Melvin G. Holli, 1969 **The Transformation of Reform** Raymond R. Fragnoli, 1982 **Mayors in the Middle** Jeffrey R. Henig, Wilbur C. Rich, 2020-12-08 Desperate to jump start the reform process in America s urban schools politicians scholars and school advocates are looking increasingly to mayors for leadership But does a stronger mayoral role represent bold institutional change with real potential to improve big city schools or just the latest in the copycat world of school reform du jour Is it democratic Why have efforts to put mayors in charge so often generated resistance along racial dividing lines Public debate and scholarly analysis have shied away from confronting such issues head on Mayors in the Middle brings together for students of education policy and urban politics as well as scholars and school advocates the most thoughtful and original analyses of the promise and limitations of mayoral takeovers of schools Reflecting on the experience of six cities Baltimore Boston Chicago Detroit Cleveland and Washington D C ten of the nation s leading experts on education politics tackle the question of whether putting mayors in charge is a step in the right direction Through the case studies and the wide ranging essays that follow and build upon them the contributors Stefanie Chambers Jeffrey R Henig Kenneth J Meier Jeffrey Mirel Marion Orr John Portz Wilbur C Rich Dorothy Shipp and Clarence N Stone begin the process of answering questions critical to the future of inner city children the prospects for urban revitalization and the shape of American education in the years to come **The Transformation of Reform** Raymond R. Fragnoli, 1976 *Race and Educational Reform in the American Metropolis* Dan A. Lewis, Kathryn Nakagawa, 1994-12-23 Reinterpreting Urban School Reform Louis F. Miron, Edward P. St. John, 2012-02-01 Have urban schools failed or has reform failed urban schools This book examines existing urban school programs ranging from desegregation to reading improvement in light of available historical empirical and case study evidence Miron and St John and their contributors probe the underlying theoretical normative and political assumptions embedded in specific reform initiatives They explore how reforms might be reconstructed to better address the underlying

challenges and they demonstrate that reforms can be constructively critiqued throughout the stages of implementation arguing that greater attention should be paid to ethnic and cultural traditions within urban educational settings Contributors include Leetta Allen Haynes Joseph Cadray Choong Geun Chung Richard Fossey Barry M Franklin David Gordon Carol Anne Hossler Siri Loescher Kim Manoil Genevieve Manset Louis F Mir n Glenda Droogsma Musoba Kathryn Nakagawa Carolyn S Ridenour Ada B Simmons Edward P St John Neil Theobald Sandra Washburn Kenneth K Wong and Kim Worthington

Shuttered Schools Ebony M. Duncan-Shippy, 2019-04-01 Since the late 1990s mass school closures have reshaped urban education across the United States Popular media coverage and research reports link this resurgence of school closures in major cities like Chicago and Philadelphia to charter school expansion municipal budget deficits and racial segregation However this phenomenon is largely overlooked in contemporary education scholarship Shuttered Schools Race Community and School Closures in American Cities Information Age Publishing is an interdisciplinary volume that integrates multiple perspectives to study the complex practice of school closure an issue that transcends education Academics practitioners activists and policymakers will recognize the far reaching implications of these decisions for school communities Shuttered Schools features rigorous new studies of school closures in cities across the United States This research contextualizes contemporary school closures and accounts for their disproportionate impact on African American students With topics ranging from gentrification and redevelopment to student experiences with school loss research presented in this text incorporates various methods e g case studies interviews regression techniques and textual analysis to evaluate the intended and unintended consequences of closure for students families and communities This work demonstrates that shifts in the social economic and political contexts of education inform closure practice in meaningful ways The impacts of shuttering schools are neither colorblind nor class neutral but indeed interact with social contexts in ways that reify existing social inequalities in education *The Gas Record*, 1921 Roaring Metropolis Daniel Amsterdam, 2016-04-22 Roaring Metropolis reconstructs the ideas and activism of urban capitalists in the early twentieth century as they advocated extensive government spending on an array of social programs Focusing on Detroit Philadelphia and Atlanta the book traces businessmen s quest to build cities and nurture an urban citizenry friendly to capitalism *Rape Law Reform* Cassia Spohn, Julie Horney, 2013-11-27 This book evolved from our interest in rape as feminists and as social scientists As feminists we were concerned about the treatment of rape victims and the attrition in rape cases under traditional rape law and we welcomed legal reforms designed to improve the situation As social scientists we wondered about the efficacy of legal changes aimed at an inherently resistant court system We also were curious about the lack of studies examining the impact of these changes we were particularly surprised to find that no one had attempted to analyze the impact of the reforms in more than one jurisdiction Convinced that untangling the effects of the reforms from the effects of contextual factors required a multijurisdictional study we decided to undertake the project We quickly discovered that evaluating rape law reform in

several jurisdictions would be no easy task We had decided that such an evaluation would require monthly data on the outcome of rape cases before and after the reforms were implemented as well as qualitative data on the attitudes of criminal justice officials toward the reforms Because states do not generate monthly data on case outcomes we would have to collect the data ourselves from court records maintained by individual jurisdictions To obtain an adequate number of cases for the time series analysis we would have to select our sites from large urban jurisdictions scattered throughout the United States

Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954 United States.

Internal Revenue Service,1993 **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986** ,1990 States of Siege Bert Useem,Peter Kimball,1991-07-18 This book examines case studies of recent prison riots in five states including the 1971 radical uprising in Attica New York and the infamous 1981 bloodbath at the New Mexico Penitentiary The most extensive and detailed work yet written on US prison riots the authors explain the occurrence and variations of riots as a reflection of the administrative breakdown of the prison system within a changing ideological context A theoretical appendix helps make this work an ideal introduction to sociological theories of collective action The Failed Promise of the American High School, 1890-1995 David L. Angus,Jeffrey Mirel,1999 This provocative new study of the American high school examines the historical debates about curriculum policy and also traces changes in the institution itself as evidenced by what students actually studied Contrary to conventional accounts the authors argue that beginning in the 1930s American high schools shifted from institutions primarily concerned with academic and vocational education to institutions mainly focused on custodial care of adolescents Claiming that these changes reflected educators racial class and gender biases the authors offer original suggestions for policy adjustments that may lead to greater educational equality for our ever growing and ever more diverse population of students **Joint Documents of the State of Michigan** Michigan,1877 **Report** Michigan. Reformatory, Ionia,1882 The American Mayor Melvin G. Holli,1999

Neoliberalism, Cities and Education in the Global South and North Kalervo N. Gulson,Thomas C.

Pedroni,2016-04-08 Across the world cities are being reshaped in myriad ways by neoliberal forms of globalization a process of urban restructuring with significant implications for educational policy and practices The chapters in this collection speak to two complementary but analytically distinguishable aspects of the interplay between education globalization cities and neoliberalism The first aspect relates to the macro relationships between these powerful global forces on the one hand and cities and their schools on the other In particular the book considers the stratifying dynamics that exacerbate already existing inequalities related to race ethnicity language class and gender inequalities entailing differential access to the city's various resources The second aspect deals with the cultural politics and logics of these changes in the city This recognises that globalization is not simply imposed on the city but rather becomes insinuated into its fabric through the actions and the agency of local actors and social movements Against this backdrop the chapters document how the educational politics of

urban contexts in the United States India Canada South Africa and Brazil should be understood as sites in which neoliberal forms of globalization are localised reproduced and potentially contested This book was originally published as a special issue of Discourse Studies in the Cultural Politics of Education
