Annotation copyrighted by Book News Inc Portland OR **Old Hickory's Nephew** Mark R. Cheatham, 2007-07-01 Though remembered largely by history as Andrew Jackson's nephew Andrew Jackson Donelson was himself a significant figure in nineteenth century America a politician planter diplomat newspaper editor and vice presidential candidate His relationship with his uncle and mentor defined his life as he struggled to find the political and personal success that he wanted and his uncle thought he deserved In *Old Hickory's Nephew* the first definitive biography of this enigmatic man Mark R Cheatham explores both Donelson's political contributions and his complex tumultuous and often overlooked relationship with Andrew Jackson Born in Sumner County Tennessee in 1799 Donelson lost his father only five years later Andrew Jackson soon became a force in his nephew's life seeing in his namesake his political protégé Jackson went so far as to predict that Donelson would one day become president After attending West Point Donelson helped establish the Jacksonian wing of the Democratic party and edited a national Democratic newspaper As a diplomat he helped bring about the annexation of Texas and following in his uncle's footsteps he became the owner of several plantations On the surface Donelson was a political and personal success But few lives are so straightforward The strong relationship between the uncle and nephew defined by the concept of honor that suffused the southern society in which they lived quickly frayed when Donelson and his wife defied his uncle during the infamous Peggy Eaton sex scandal of Jackson's first presidential administration This resulted Cheatham shows in a tense relationship full of distrust and suspicion between Donelson and Jackson that lasted until the Hero of New Orleans died in 1845 Donelson later left the Democratic party in a tiff and joined the American or Know Nothing party which selected him as Millard Fillmore's running mate in 1856 Though Donelson tried to establish himself as his uncle's political successor and legator his friends and foes alike accused him of trading on his uncle's name to gain political and financial success The life of Andrew Jackson Donelson illuminates the expectations placed upon young southern men of prominent families as well as the complexities and contradictions in their lives In this biography Cheatham awakens interest in a nearly forgotten but nonetheless intriguing figure in American history The Best Books William Swan Sonnenschein, 1891

Romantik Karina Lykke Grand, Lis Møller, Robert W. Rix, Anna Lena Sandberg, 2014-01-17 The articles in this second issue of *Romantik Journal for the Study of Romanticisms* demonstrate the crucial role of emergent regionalism and nationalism within the Romantic movement However the contributors also explore how the transmission of ideas and inspiration took place across national as well as linguistic boundaries and how knowledge was transferred from one domain of knowledge to another The articles provide a new map of such cultural exchanges in the Romantic era and the multiplicity of agencies that made them possible *Romantik* continues to locate the plurality of European Romanticisms within a comprehensive and multilingual context *American Literature and the Culture of Reprinting, 1834-1853* Meredith L. McGill, 2013-10-11 The antebellum period has long been identified with the belated emergence of a truly national literature And yet as Meredith L McGill argues a mass market for books in this period was built and sustained through what we would

call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works Restoring a political dimension to accounts of the economic grounds of antebellum literature McGill unfolds the legal arguments and political struggles that produced an American culture of reprinting and held it in place for two crucial decades In this culture of reprinting the circulation of print outstripped authorial and editorial control McGill examines the workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace Through readings of the work of Dickens Poe and Hawthorne McGill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s American Literature and the Culture of Reprinting 1834 1853 delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights
