Proximity and Distance Romain Fathi, Emily Robertson, 2020-04-28 The global magnitude of World War I has meant that proximity and distance were highly influential in the ways the conflict was conducted and how it was experienced at tactical political and emotional levels This book explores how participants and observers in World War I negotiated the temporal and spatial challenges of the conflict International in scope it investigates how technology mass media elite diplomacy and imperial networks interacted in conjunction with proximity and distance The authors canvass a range of approaches to the conflict from cultural history to social political and military history Proximity and distance were contingencies that participants had to continually adapt to This book documents the ways in which these adaptations were approached The Lives of the Constitution Joseph Tartakovsky, 2019-10-08 In a fascinating blend of biography and history Joseph Tartakovsky tells the epic and unexpected story of our Constitution through the eyes of ten extraordinary individuals some renowned like Alexander Hamilton and Woodrow Wilson and some forgotten like James Wilson and Ida B Wells Barnett Tartakovsky brings to life their struggles over our supreme law from its origins in revolutionary America to the era of Obama and Trump Sweeping from settings as diverse as Gold Rush California to the halls of Congress and crowded with a vivid Dickensian cast Tartakovsky shows how America's unique constitutional culture grapples with questions like democracy

racial and sexual equality free speech economic liberty and the role of government Joining the ranks of other great American storytellers Tartakovsky chronicles how Daniel Webster sought to avert the Civil War how Alexis de Tocqueville misunderstood America how Robert Jackson balanced liberty and order in the battle against Nazism and Communism and how Antonin Scalia died warning Americans about the ever growing reach of the Supreme Court From the 1787 Philadelphia Convention to the clash over gay marriage this is a grand tour through two centuries of constitutional history as never told before and an education in the principles that sustain America in the most astonishing experiment in government ever undertaken Selected Literary and Political Papers and Addresses ... Kilmarx, 2019-03-04 This book presents a comprehensive historical analysis of merchant shipping on the high seas and associated shipbuilding under sovereign U S jurisdiction from precolonial times to the present It identifies U S policy developments that have affected the merchant marine and Babbits and Bohemians, 1997-01-01 Babbits and Bohemians is a fresh and informed account of shipbuilding industries the 1920s a decade that seems almost mythical to some Stevenson finds that the true twenties was a society of contrast On the one hand it was an era of sameness and political conformity but on the other hand it was also a time of cultural revolt In places labeled Main Street and Middletown the citizenry followed a conventional pattern At the same time while most of America enjoyed the good life of this period bohemians in Greenwich Village and expatriates in Paris were fervently scornful of it The State and Social Investigation in Britain and the United States Michael J. Lacey, Mary O. Furner, 1993-06-25 The State and Social Investigation in Britain and the United States addresses the historical development of the knowledge base upon which the public policies of the democratic state depend This comparative study stretches from the Enlightenment origins of the impulse to base legislation on scientific knowledge to the twentieth century development of specialised institutions and professions engaged in social investigation and public policy making It probes investigators biases and omissions as well as their strengths as factors shaping social learning It illuminates the vital link between social empiricism and the late nineteenth century emergence of the New Liberalism in both Britain and the United States And it ponders the impact on social investigation and social policy today of relativism antistatism devolution and privatisation as these currents have developed in both societies since the 1970s
