Solnick, 2016-09-19 This book asks what it means to write poetry in and about the Anthropocene the name given to a geological epoch where humans have a global ecological impact Combining critical approaches such as ecocriticism and posthumanism with close reading and archival research it argues that the Anthropocene requires poetry and the humanities to find new ways of thinking about unfamiliar spatial and temporal scales about how we approach the metaphors and discourses of the sciences and about the role of those processes and materials that confound humans attempts to control or even conceptualise them Poetry and the Anthropocene draws on the work of a series of poets from across the political and poetic spectrum analysing how understandings of technology shape literature about place evolution and the tradition of writing about what still gets called Nature The book explores how writers understanding of sciences such as climatology or biochemistry might shape their poetry's form and how literature can respond to environmental crises without descending into agitprop self righteousness or apocalyptic cynicism In the face of the Anthropocene's radical challenges to ethics aesthetics and politics the book shows how poetry offers significant ways of interrogating and rendering the complex relationships between organisms and their environments in a world increasingly marked by technology *The Oxford*

*Handbook of Andrew Marvell* Martin Dzelzainis, Edward Holberton, 2019-03-28 The Oxford Handbook of Andrew Marvell is the most comprehensive and informative collection of essays ever assembled dealing with the life and writings of the poet and politician Andrew Marvell 1621-78 Like his friend and colleague John Milton Marvell is now seen as a dominant figure in the literary landscape of the mid-seventeenth century producing a stunning oeuvre of poetry and prose either side of the Restoration In the 1640s and 1650s he was the author of hypercanonical lyrics like *To His Coy Mistress* and *The Garden* as well as three epoch-defining poems about Oliver Cromwell After 1660 he virtually invented the verse genre of state satire as well as becoming the most influential prose satirist of the day in the process forging a long-lived reputation as an incorruptible patriot Although Marvell himself was an intensely private and self-contained character whose literary religious and political commitments are notoriously difficult to discern the interdisciplinary contributions by an array of experts in the fields of seventeenth-century literature history and politics gathered together in the Handbook constitute a decisive step

forward in our understanding of him They offer a fully rounded account of his life and writings individual readings of his key works considerations of his relations with his major contemporaries and surveys of his rich and varied afterlives Informed by the wealth of editorial and biographical work on Marvell that has been produced in the last twenty years the volume is both a conspectus of the state of the art in Marvell studies and the springboard for future research

**Challenges of Translation in French Literature** Richard Bales, 2005 In celebrating the academic career and practice of a distinguished scholar of French literature this volume concentrates on one of Peter Broome s major preoccupations and attainments translation Eschewing a dogmatic theoretical approach the contributors former colleagues and students tackle four rich areas of study modern anglophone poets reactions to and translations of authors with whom they have closely identified Racine the Symbolists Saint John Perse Val ry problematics of translating specific poets of recent centuries Rimbaud Mallarm Val ry C saire some contemporary poets reception and interaction in two foreign countries Australia Spain and a more fluid interpretation of translation moving the notion across into wider realms of literary expression Mallarm Proust Assia Djebar A focalising feature punctuating the volume are Peter Broome s own translations of hitherto unpublished poems by five major contemporary French writers Jean Paul Auxem ry Marie Claire Bancquart Louise Herlin V nus Khoury Ghata and Jean Charles Vegliante The book thus intertwines theory and practice in a non prescriptive manner which invites further elaboration and analysis
