Selected Works of Chen Yun, 1926-1949 Yun Chen, 1988 Selected Works of Chen Yun, 1926-1949 Yun Chen, 1988

The Dragon, the Lion & the Eagle Qiang Zhai, 1994 A study in international history and comparative analysis of the relations between China Britain and America in the period from 1949 to 1958 The author draws upon previously classified documents and private papers to give a view of the Cold War from Chinese and Western standpoints *Deterrence and Strategic Culture* Shu Guang Zhang, 2019-06-30 Does strategic thinking on the question of deterrence vary between cultures Should practitioners assume a common understanding of deterrence regardless of national and cultural differences Shu Guang Zhang takes on these questions by exploring Sino American confrontations between 1949 and 1958 Zhang draws on recently declassified U S documents and previously inaccessible Chinese Communist Party records to demonstrate that the Chinese and the Americans had vastly different assessments of each other's intentions interests threats strengths and policies during this period **Britain's Encounter with Revolutionary China, 1949-54** James Tuck-Hong

Tang, 2016-07-27 This book examines Britain's recognition of the newly established Peoples Republic of China in 1950 and the developments leading to the establishment of formal Anglo Chinese diplomatic relations in 1954 The importance of the USA in Anglo Chinese relations is also highlighted by this study Based on archival materials and interviews this is an attempt to apply a decision making framework to study the formulation and implementation of Britain's China policy and to explore revolutionary China's conduct in international relations Economic Reforms and Political Attempts in China 1979-1989

Barna Talas, 2012-12-06 In our quickly changing world authors who are analyzing the social economic and political processes going on in different countries often find themselves in a situation where the development of processes they have already described take a turn in another direction before their work is in final form or appears in print As a consequence some of their statements are no longer valid More rarely it occurs that after the writing of a book presenting a reform process covering 10 years the writing itself taking one and a half years exceptional events take place in the given country within 1 or 2 months of the delivery of the manuscript that indicate a sharp break in this process one that makes it doubtful whether the process can continue along the same channel This is what has happened to this text and to its author at the beginning of June 1989 when in Beijing after the brutal suppression of student demonstrations and of protests lasting several weeks the General Secretary of the Communist Party of China Zhao Ziyang was relieved of his office and arrested along with several other prominent representatives of reform policy and reform endeavors of the past decade The manuscript of this book was handed over to the publisher on May 4 1989 for editing Immediately thereafter I left for nearly 2 months in the United States consequently I did not receive the manuscript again until in early July *Mao's Military Romanticism* Shu Guang Zhang, 1995 Zhang argues that war in Korea offered Mao yet another opportunity to expand and consolidate his political power at home while at the same time uniting the Chinese proletariat against Yankee imperialism and proving to the

international community that China had arrived as a major world power *The Communist Takeover of Hangzhou* James Z. Gao, 2004-02-28 Existing literature on the Chinese Revolution takes into account the influence of peasant society on Mao's ideas and policies but rarely discusses a reverse effect of comparable significance namely how peasant cadres were affected by the urban environment into which they moved In this detailed examination of the cultural dimension of regime change in the early years of the Revolution James Gao looks at how rural based cadres changed and were changed by the urban culture that they were sent to dominate He investigates how Communist cadres at the middle and lower levels left their familiar rural environment to take over the city of Hangzhou and how they consolidated political control established economic stability developed institutional reforms and created political rituals to transform the urban culture His book analyzes the interplay between revolutionary and non revolutionary culture with respect to the varying degrees with which they resisted and adapted to each other It reveals the essential role of cultural identity in legitimizing the new regime and keeping its revolutionary ideal alive *The Cold War: Cold War espionage and spying* Lori Lyn Bogle, 2001 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play's various printed versions and its theatrical productions Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play The issues discussed include gender authority female autonomy and unruliness courtship and marriage language and speech and performance and theatricality *How the Red Sun Rose* Gao Hua, 2018-11-15 This work offers the most comprehensive account of the origin and consequences of the Yan'an Rectification Movement from 1942 to 1945 The author argues that this campaign emancipated the Chinese Communist Party from Soviet-influenced dogmatism and unified the Party preparing it for the final victory against the Nationalist Party in 1949 More importantly this monograph shows in great detail how Mao Zedong established his leadership through this partywide political movement by means of aggressive intraparty purges thought control coercive cadre examinations and total reorganizations of the Party's upper structure The result of this movement not only set up the foundation for Mao's new China but also deeply influenced the Chinese political structure today The Chinese version of *How the Red Sun Rose* was published in 2000 and has had nineteen printings since then *China's Road to the Korean War* Chen Jian, 1995-01-05 *China's Road to the Korean War* **Historical Dictionary of the Chinese Civil War** Christopher R. Lew, Edwin Pak-wah Leung, 2013-07-29 The Chinese Civil War which lasted several years or several decades depending on how you define it was one of the most momentous wars of the 20th century for it determined the fate of the world's most populous country and was bitterly fought with millions of combatants involved and hundreds of millions of civilians affected More to the point it was won by the Chinese Communist Party under Mao Zedong who imposed Communist rule while the Nationalists retreated to Taiwan It also heated up the Cold War for quite some time as the Communists were supported by the Soviet Union and the Nationalists by the United States This second edition of the *Historical Dictionary of the Chinese Civil War* studies the longer

broader war and its chronology carefully tracks the major events The introduction then provides a broad overview describing the contending forces and showing how the Communists come out on top The details and these are crucial are laid out in over 200 cross referenced dictionary entries dealing with the opposing forces and parties the major campaigns and battles the Long March and of course the leadership on both sides This book one of few such in English provides a very solid basis for study but that can be accomplished more effectively by consulting the titles listed in an extensive bibliography

Mao and the Economic Stalinization of China, 1948-1953 Hua-Yu Li, 2006-02-01 In the first systematic study of its kind Hua yu Li tackles one of the most important unresolved mysteries of the early history of the People s Republic of China_ the economic policy shift of 1953 As a result of this policy shift the moderate economic policies of New Democracy were abruptly terminated_ much sooner than specified by the official party line_ and replaced with a radical Stalinist economic program called the general line for socialist transition Utilizing the rich archival materials released in China since the mid 1980s and Russian archival information released since the early 1990s Li presents a compelling explanation for the policy shift Placing the analysis within the larger context of the world communist movement communist ideology and Mao s complicated relationship with Stalin this book makes it clear that the policy shift was initiated by Mao and that he did so for two reasons First he was committed to a history text compiled under Stalin s guidance that purported to describe the Soviet experience of building socialism in the 1920s and 1930s Mao relied heavily on this text as a road map for China to follow in building socialism in the early 1950s Second Mao was driven by feelings of personal rivalry with Stalin and of national rivalry with the Soviet Union he wanted China to achieve socialism faster than the Soviet Union had The precise timing of the change Li argues resulted from Mao s belief that China was economically ready to build socialism and from his decision to interpret an ambiguous statement made by Stalin in October 1952 as a clear endorsement of a policy shift Li asserts that Mao was a committed Stalinist that he dominated domestic policy decision making and that he skillfully maneuvered his way through his negotiations with Stalin in advancing his own agenda Situating its analysis within the larger context of the world communist movement this carefully researched book will have a profound impact on the fields of communist studies and Sino Soviet relations and in studies of Mao Stalin and their relationship

The Chinese at the Negotiating Table Alfred D. Wilhelm, 1994 Examines the process of negotiating with the Chinese using historical examples and analyses of cases from 1953 to the present The author debunks the myth of legendary Chinese patience assesses American reaction to negotiating with the Chinese and analyzes the Chinese approach to negotiations He reveals the elements of continuity in Chinese behavior that surfaced during talks with the U S as early as 1949

Deng Xiaoping Alexander V. Pantsov, Steven I. Levine, 2015-04-01 Deng Xiaoping joined the Chinese Communist movement as a youth and rose in its ranks to become an important lieutenant of Mao s from the 1930s onward Two years after Mao s death in 1976 Deng became the de facto leader of the Chinese Communist Party and the prime architect of China s post Mao reforms

Abandoning the Maoist socio economic policies he had long fervently supported he set in motion changes that would dramatically transform China's economy, society and position in the world. Three decades later we are living with the results. China has become the second largest economy and the workshop of the world. And while it is essentially a market economy, socialism with Chinese characteristics. Deng and his successors ensured the continuation of CCP rule by severely repressing the democratic movement and maintaining an iron grip on power. When Deng died at the age of 92 in 1997 he had set China on the path it is following to this day. Alexander Pantsov and Steven Levine's new biography of Deng Xiaoping does what no other biography has done: based on newly discovered documents it covers his entire life from his childhood and student years to the post Tiananmen era. Thanks to unprecedented access to Russian archives containing massive files on the Chinese Communist Party, the authors present a wealth of new material on Deng dating back to the 1920s. In a long and extraordinary life, Deng navigated one epic crisis after another. Born in 1904, Deng like many Asian revolutionary leaders spent part of the 1920s in Paris where he joined the CCP in its early years. He then studied in the USSR just as Stalin was establishing firm control over the Soviet communist party. He played an increasingly important role in the troubled decades of the 1930s and 1940s that were marked by civil war and the Japanese invasion. He was commissar of a communist dominated area in the early 1930s, loyal henchman to Mao during the Long March, regional military commander in the anti Japanese war, and finally a key leader in the 1946-49 revolution. During Mao's quarter century rule, Deng oscillated between the heights and the depths of power. He was purged during the Cultural Revolution only to reemerge after Mao's death to become China's paramount leader until his own death in 1997. This objective, balanced and unprecedentedly rich biography changes our understanding of one of the most important figures in modern history. *Chinese Communist Espionage* Peter Mattis, Matthew

Brazil, 2019-11-15. This is the first book of its kind to employ hundreds of Chinese sources to explain the history and current state of Chinese Communist intelligence operations. It profiles the leaders, top spies and important operations in the history of China's espionage organs and links to an extensive online glossary of Chinese language intelligence and security terms. Peter Mattis and Matthew Brazil present an unprecedented look into the murky world of Chinese espionage both past and present, enabling a better understanding of how pervasive and important its influence is both in China and abroad. **The Chinese**

Communist Party During the Cultural Revolution P. Lubell, 2001-12-17. In 1936 a group of Chinese communists were released from jail after a humiliating renunciation of communism. The Chinese Communist Party then secretly employed them to galvanise support in nationalist areas of the country. It later condemned the members of this group as renegades before finally rehabilitating them in 1978. Pamela Lubell uncovers the fascinating history of these communists, known as the Sixty-one, and in doing so produces a revealing account of the tensions within the Chinese Communist Party. *Mao, Stalin and the Korean War* Shen Zihua, 2012-06-25. This book examines relations between China and the Soviet Union during the 1950s and provides an insight into Chinese thinking about the Korean War. This volume is based on a translation of Shen Zihua's

best selling Chinese language book which broke the mainland Chinese taboo on publishing non heroic accounts of the Korean War The author combined information detailed in Soviet era diplomatic documents released after the collapse of the Soviet Union with Chinese memoirs official document collections and scholarly monographs in order to present a non ideological realpolitik account of the relations motivations and actions among three Communist actors Stalin Mao Zedong and Kim Il sung This new translation represents a revisionist perspective on trilateral Communist alliance relations during the Korean War shedding new light on the origins of the Sino Soviet split and the rather distant relations between China and North Korea It features a critical introduction to Shen s work and the text is based on original archival research not found in earlier books in English This book will be of much interest to students of Communist China Stalinist Russia the Korean War Cold War Studies and International History in general

The Third Chinese Revolutionary Civil War, 1945-49 Christopher R. Lew, 2009-03-30 This book examines the Third Chinese Revolutionary Civil War of 1945 1949 which resulted in the victory of the Chinese Communist Party CCP and the founding of the People s Republic of China in 1949 It provides a military and strategic history of the conflict exploring how the communists achieved victory

Making Urban Revolution in China Joseph K. S. Yick, 1995 An attempt to rethink the traditional interpretation of the victory of Mao Zedong s Chinese Communist Party CCP in 1949 The focus is on the activities of the student intellectual based communist underground which played a crucial role
