Liberation as Affirmation Ge Ling Shang,2012-02-01 In this book author Ge Ling Shang provides a systematic comparison of original texts by Zhuangzi fourth century BCE and Nietzsche 1844 1900 under the rubric of religiosity to challenge those who have customarily relegated both thinkers to relativism nihilism escapism pessimism or anti religion Shang closely examines Zhuangzi s and Nietzsche s respective critiques of metaphysics morals language knowledge and humanity in general and proposes a conception of the philosophical outlooks of Zhuangzi and Nietzsche as complementary In the creative and vital spirit of Nietzsche as in the tranquil and inward spirit of Zhuangzi Shang argues that a surprisingly similar vision and aspiration toward human liberation and freedom exists one in which spiritual transformation is possible by religiously affirming life in this world as sacred and divine *Intelligence and Spirit* Reza Negarestani,2019-02-12 A critique of both classical humanism and dominant trends in posthumanism that formulates the ultimate form of intelligence as a theoretical and practical thought unfettered by the temporal order of things In *Intelligence and Spirit* Reza Negarestani formulates the ultimate form of intelligence as a theoretical and practical thought unfettered by the temporal order of things a real movement capable of overcoming any state of affairs that from the perspective of the present may appear to be the complete totality of history Intelligence pierces through what seems to be the totality or the inevitable outcome of its history be it the manifest portrait of the human or technocapitalism as the alleged pilot of history Building on Hegel s account of Geist as a multiagent conception of mind and on Kant s transcendental psychology as a functional analysis of the conditions of possibility of mind Negarestani provides a critique of both classical humanism and dominant trends in posthumanism The

assumptions of the former are exposed by way of a critique of the transcendental structure of experience as a tissue of subjective or psychological dogmas the claims of the latter regarding the ubiquity of mind or the inevitable advent of an unconstrained superintelligence are challenged as no more than ideological fixations which do not stand the test of systematic scrutiny This remarkable fusion of continental philosophy in the form of a renewal of the speculative ambitions of German Idealism and analytic philosophy in the form of extended thought experiments and a philosophy of artificial languages opens up new perspectives on the meaning of human intelligence and explores the real potential of posthuman intelligence and what it means for us to live in its prehistory **Preferring Justice** Eric Cave,2019-07-11 This manuscript is about the sense of justice that limits what individuals can do in pursuit of their ends and opens them to exploitation It shows how flawed agents choosing under partial information advance those of their ends having nothing to do with justice by maintaining such a disposition Santo Daime Andrew Dawson,2013-05-30 Introduces the Brazilian new religion and treats it in relation to ongoing developments influencing the status nature and future of religion in the modern world
