*An Arena for Educational Ideologies* Miriam Ben-Peretz, Sharon Feiman-Nemser, 2017-05-22. Educational processes are shaped by societal ideas and values. Different ideologies shape the discourses, content, processes, and pedagogies of teacher education processes. The book includes cases or illustrations of teacher education in the Montessori, Waldorf, Reggio Emilia, and Pistoia traditions, as well as the democratic tradition embraced by the Kibbutz Movement in Israel. Understanding the ideologies that constitute the basis of teacher education programs might predict some of the outcomes of diverse programs on one hand and serve the adaptation of teacher education to societal needs and requirements on the other hand. Purposes of schooling, the value of knowledge, and the relationship between teacher education and the goals of a democratic society have to be clarified in order to improve education in the service of society and its future. The work of schools depends on the interaction between content, teacher, and student. Therefore, the preparation of teachers becomes a central aspect of education.

Long Range Planning Strategic Planning Society, 2000. The Wisdom of Strategic Learning Ian Cunningham, 1999. Change means learning. There is no possibility for organizations to change unless the people in them learn. In this new book, Ian Cunningham writes about his pioneering work in developing strategic learning. He shows the need to go beyond vague prescriptions for learning organizations. Instead, he advocates the value of a learning business which integrates learning with the strategic direction of the organization. He elaborates practical examples of implementing strategic learning using self-managed learning. For the organization, self-managed learning has a strategic advantage in creating a focused, active, and committed team. Ian Cunningham's powerful, tried, and tested approach is backed by evaluation.
