of ancient North America dinosaurs and many other species struggle daily to survive Each of these creatures have their own stories and this collection of tales takes place before and during the events of Bladefoot Preston the baby troodon who learns fast to reach adulthood and follows in Bladefoot s footsteps Axel the young dakotaraptor who strives to earn his place in the pack Flo the elasmosaurus who must navigate an ocean filled with deadly predators Tyler the mosasaurus the blood thirsty killer of the Pierre Seaway Sky Rider the Quetzalcoatlus the winged giant that masters the air Rumble the triceratops and his great ambitions to rule his own herd Cutter the wounded troodon who tries to find peace at a waterhole but will receive anything but All these stories have climatic endings although some individuals will be more fortunate than others

Bladefoot David Pratt, 2017-10-18 This is a tale set sixty five million years ago in what is now Alberta Canada during the Age of Dinosaurs Bladefoot the Troodon must depart from his parent s territory before they turn against him while dodging his long time rival Cutter Once he leaves his dwindling sanctuary he must avoid vicious bloodthirsty predators that thunder across the land swoop down from the air and lurk beneath the apparent still waters Bladefoot must also confront volatile armoured herbivores and the threats of an angry Earth if he is to succeed his mission of finding his own home range and a female companion to start a family During his quest Bladefoot will face many different trials and tribulations For Bladefoot failure is not an option is he is to pass on his genes to the next generation However the world where he lives is in the shadow of a much greater power *Day of the Dragon* Joseph G. Whelan, What If What if a very long time ago there existed on this Earth a species as intelligent as Homo sapiens and maybe more intelligent What if this ancient creature ruled the entire planet and half the solar system What if this creature s civilization rose and fell and disappeared into the mists of Time What if evidence of this lost world remained buried for tens of millions of years What if one day a modern human paleontologist looking for fossilized bones finds an artifact instead What if this artifact turns up at the Cretaceous Tertiary boundary the dividing line between the Age of Mammals and the Age of Reptiles What if this thing reemerges into the sunlight after being buried for sixty five million years It was madness even to contemplate that this man made thing no this dinosaur made thing could exist It was mad crazy insane impossible But there it was Day of the Dragon tells this incredible tale
