Looking For The Worm:

Out of Service Joseph Heywood, 2024-09-17 Just when longtime Michigan conservation officer Grady Service is certain that he's seen it all he learns once again that he hasn't. After so many decades protecting his state's natural resources here he still is undercover yet again not in a case he's developed but dumped into a case by the Feds with his governor's approval. And as time passes he can't figure out if what he's buried in is truly a religious nationalist militia group set on overturning the U.S. Constitution or one man's cash cow a sort of half-assed redneck Ponzi aimed solely at fattening a single bank account. The newest Woods Cop Mystery 12 in the legendary series is another soaring brainchild of Joseph Heywood author of the Woods Cop and Lute Bapcat Mysteries both of which explore a way of life lived by Michigan game wardens over many different decades from the Bapcat mysteries of the early 1900s to Grady Service and compatriots in contemporary times.

The James Code O. S. Hawkins, 2015-11-10 The James Code helps believers go from knowing about God to living for God. Bestselling author of The Joshua Code and The Jesus Code O. S. Hawkins is back with a new book that is all about putting your faith into action. The James Code is practical, personal, and action-packed, straight from one of the most popular books of the Bible. Once readers have devoted themselves to Scripture memory in The Joshua Code and have equipped themselves to give answers in The Jesus Code, The James Code challenges readers to give feet to their faith. Hawkins gives applicable truth from the book of James, emphasizing that an effective Christian life is not about faith and works but is about faith that works. As with The Joshua Code and The Jesus Code, all author royalties will go to Mission Dignity, whose mission supports retired pastors and their spouses living near the poverty level.

It's what you do in your spare time, just take little ideas and mess around with them. This is a book of inspiration, beautiful enough to leave on the coffee table but addictive enough to keep by your computer and sneak out while no one's looking so you can go back to that movie that you were tinkering with till three o'clock this morning. It's a fun book. It's a book of iterative experiments, generative design. Each author does four experiments. Each experiment takes up four pages. We give you the code and explain the essence, then you take away your inspiration and run with it. The purpose of the book is to learn through experimentation because you are inspired to do so, not because someone is telling you to do so. Follow the fmc site link for more information.
