The Romance of Flamenca E. D. Blodgett, 1995 Variouslly described as a comedy of manners a psychological romance and a type of fabliau the 13th century narrative *Flamenca* is the best medieval romance written in Occitan Its uniqueness springs from qualities that anticipate the preoccupations of modern day narrative Not content with being a love story fraught with risk and intrigue the poem is layered with responses to the troubadour tradition of love and poetry as well as the Bible and the classics Though among the most bookish of romances its tone is invariably ironic comic and satirical This playfulness may be measured by the variety and vehemence of critical response to the poem Is it a vindication of the troubadour ideal a mockery of the Church a satire on jealous husbands or an undermining of the ideals that romance is said to inscribe Or is it all of these elements held in suspense The introduction confronts these questions provided by publisher

Edinburgh German Yearbook 11 Helmut Schmitz, Peter Davies, 2017 New essays exploring the resurgence of the theme of romantic relationships and love in German literature since around the turn of the millennium While sociologists have long agreed that the problems of modern and contemporary subjectivity crystallize in the issue of romantic relationships and love e.g. Luhmann Illouz Beck etc the theme of love so crucial to the foundational text of modern German literature Goethe's *Werther* all but disappeared from German prose literature in the second half of the twentieth century Yet over the past fifteen years German language literature has witnessed an explosion of novels with *Liebe* in their titles as well as novels that centrally focus on intersubjective erotic and emotional relationships A number of major contemporary writers Treichel Walser Kermani Ortheil Maron Zaimoglu Genazino have written *Liebesromane* or novels in which significant sociohistorical questions are refracted through the love relationships of their protagonists German film likewise has increasingly thematized love relationships under postromantic conditions e.g. in the films of the Berlin school Simultaneously the development of both

feminist and LGBTQ politics over the past decades has exploded the heteronormative discourses of desire in a way that has both expanded and enriched the lovers discourse while recent developments of urban hetero sexuality have expanded the previously available models of expressing erotic relationships in ways that are reminiscent of the utopian ending of Goethe's first version of *Stella*. The present collection offers a wide ranging set of essays on these developments. Contributors: Esther K. Bauer, Sven Glawion, Silke Horstkotte, Sarra Kassem, Maria Roca Lizarazu, Helmut Schmitz. Love, Inc. Laurie Essig, 2019-02-05. The notion of happily ever after has been ingrained in many of us since childhood: meet someone, date, have the big white wedding and enjoy your well deserved future. But why do we buy into this idea? Is love really all we need? Author Laurie Essig invites us to flip this concept of romance on its head and see it for what it really is: an ideology that we desperately cling to as a way to cope with the fact that we believe we cannot control or affect the societal economic and political structures around us. From climate change to nuclear war, white nationalism to the worship of wealth and conspicuous consumption as the future becomes seemingly less secure, Americans turn away from the public sphere and find shelter in the private. Essig argues that when we do this we allow romance to blind us to the real work that needs to be done: building global movements that inspire a change in government policies to address economic and social inequality.

Transformation of Love Elif Gündü Yalçın, 2022-11-03. Romances date back to the creation of stories. Although the definition of the genre has changed in time from the Ancient Greeks to the Bildungsromans to the 19th century and today's courtship novels, both scholarship and widely held attitudes towards romance have remained fixedly and prioritized only the universality, unoriginality and continuity of romance fiction instead of its sociocultural effect of promoting positive ideals like female empowerment. The portrayal of women in social roles has been in a state of constant change including their relationship with and relation to men. This book explores only medieval historical romance fictions and their changes through the course of the time. I examine three medieval romances: content: Walter Scott's *Ivanhoe* 1920, Kathleen Woodiwiss's *The Wolf and the Dove* 1974 and Amanda Quick's *Mystique* 1995, written in different time periods based on content analysis using Anthony Giddens's 1992 theories of intimacy. In addition, it will address romance novels' views about sex, gender and love roles.
