Fate, Glory, and Love in Early Modern Gallery Decoration Margaretha Rossholm Lagerlof,2017-07-05 Analysing the decorative programmes of the most opulent European palaces of the time Margaretha Rossholm Lagerl f investigates how meaning was conveyed through

display and visual effects She explores the visual meaning inherent in the scheme of spatial relations in effects of scale perspective lighting figures positions and postures and in relations among image types The analysis concerns the interrelations of various kinds of images in the ensembles the relations between images and physical site and the address to the beholder Lagerl f considers the visual impact of the imagery in conjunction with readable or symbolically coded meanings thus the study does not merely subject these decorations to formalist aesthetic principles She shows the visual meaning generally to sustain the verbal or readable messages but often in subtle ways extending or elaborating the meaning Occasionally the visual meaning comes forth as an undercurrent or complication deviating from the proclaimed and symbolic meaning Fate Glory and Love in Early Modern Gallery Decoration contributes to the body of scholarship on visual rhetoric and on how images act out their messages
