language barrier is no match for love Lauren Collins discovered this firsthand when in her early thirties she moved to London and fell for a Frenchman named Olivier a surprising turn of events for someone who didn't have a passport until she was in college But what does it mean to love someone in a second language Collins wonders as her relationship with Olivier continues to grow entirely in English Are there things she doesn't understand about Olivier having never spoken to him in his native tongue Does I love you even mean the same thing as je t'aime When the couple newly married relocates to Francophone Geneva Collins fearful of one day becoming a Borat of a mother who doesn't understand her own kids decides to answer her questions for herself by learning French When in French is a laugh out loud funny and surprising memoir about the lengths we go to for love as well as an exploration across culture and history into how we learn languages and what they say about who we are Collins grapples with the complexities of the French language enduring excruciating role playing games with her classmates at a Swiss language school and accidentally telling her mother in law that she's given birth to a coffee machine In learning French Collins must wrestle with the very nature of French identity and society which it turns out is a far cry from life back home in North Carolina Plumbing the mysterious depths of humanity's many forms of language Collins describes with great style and wicked humor the frustrations embarrassments surprises and finally joys of learning and living in French

s accompanying website www.routledge.com/cw/cook *Second Language Learning and Language Teaching* remains the essential textbook for all student teachers of modern languages and TESOL as well as applied linguistics *Handbook of Teaching and Learning Persian as a Second Language* Hooman Saeli, 2025-09-26 This collection explores relevant pedagogical and sociolinguistic topics in the teaching and learning of Persian as a foreign and second language. Owing to the dearth of research in many areas pertaining to the teaching and learning of Persian, this handbook provides empirically supported insights into various aspects of these areas. While the literature on teaching and learning Persian is growing, the field lacks a cohesive collection on Persian as a foreign second language. The book addresses issues pertaining to the standardization and validation of teaching and assessment methods which remain under explored in the contexts of teaching and learning Persian. It also covers the teaching of Persian pragmatics, the use of corpora as well as a range of different areas within linguistics including phonetics, prosody and historical linguistics. This comprehensive collection contributes substantially to the scientific study of many aspects of teaching and learning Persian which have been neglected for decades. A must have text in Persian language pedagogy and Persian sociolinguistics, it is an essential book for those in teaching and learning in Persian language programs worldwide.

Second Language Acquisition and Lifelong Learning Simone E. Pfenninger, Julia Festman, David Singleton, 2023-05-05 Language fundamentally defines and distinguishes us as humans as members of society and as individuals As we go through life our relationship with language and with learning shifts and changes but it remains significant This book is an up to date resource for graduate students and researchers in second language L2 acquisition who are interested in language learning across the lifespan The main goal is to survey and evaluate what is known about the linguistic cognition affect associations that occur in L2 learning from birth through senescence passing through the stages of childhood adolescence adulthood and third age the extent to which L2 acquisition may be seen as contributing to healthy and active aging the impact of the development of personalized technology enhanced communicative L2 environments and how these phenomena are to be approached scientifically and methodologically The effects of certain specific variables such as gender socio economic background and bilingualism are also analyzed as we argue that chronological age does not determine the positioning of L2 learners across the lifespan age is part of a complex web of social distinctions such as psychological and individual factors that intersect in the construction of a learner's relative status and opportunities
