Michigan Explorations In Its Social History:

Michigan Francis X. Blouin, Maris Vinovskis, Maris A. Vinovskis, 1987 **Options for the Future of the Office of Education Research and Improvement** United States. Congress. House. Committee on Education and the Workforce. Subcommittee on Early Childhood, Youth, and Families, 2000 **Mine Towns** Alison K. Hoagland, 2010-04-20 During the nineteenth century the Keweenaw Peninsula of Northern Michigan was the site of America's first mineral land rush as companies hastened to profit from the region's vast copper deposits In order to lure workers to such a remote location and work long hours in dangerous conditions companies offered not just competitive wages but also helped provide the very infrastructure of town life in the form of affordable housing schools health care facilities and churches The first working class history of domestic life in Copper Country company towns during the boom years of 1890 to 1918 Alison K Hoagland's *Mine Towns* investigates how the architecture of a company town revealed the paternal relationship that existed between company managers and workers a relationship that both parties turned to their own advantage The story of Joseph and Antonia Putrich immigrants from Croatia punctuates and illustrates the realities of life in a booming company town While company managers provided housing as a way to develop and control a stable workforce workers often rejected this domestic ideal and used homes as an economic resource taking in boarders to help generate further income Focusing on how the exchange between company managers and a largely immigrant workforce took the form of negotiation rather than a top down system Hoagland examines surviving buildings and uses Copper Country's built environment to map this remarkable connection between a company and its workers at the height of Michigan's largest land rush **The Rise and Fall of an Urban School System** Jeffrey Mirel, 1999 The updated edition of the difficulties faced by the Detroit public schools and the historical reasons that led to the present situation **Dr. John Harvey Kellogg and the Religion of Biologic Living** Brian C. Wilson, 2014-09-18 A biography of the physician and health guru examining his views on science and medicine as he evolved religiously Purveyors of spiritualized medicine have been legion in American religious history but few have achieved the superstar status of Dr John Harvey Kellogg and his Battle Creek Sanitarium In its heyday the San was a combination spa and Mayo Clinic Founded in 1866 under the auspices of the Seventh day Adventist Church and presided over by the charismatic Dr Kellogg it catered to many well heeled health seekers including Henry Ford John D Rockefeller and Presidents Taft and Harding It also supported a hospital research facilities a medical school a nursing school several health food companies and a publishing house dedicated to producing materials on health and wellness Rather than focusing on Kellogg as the eccentric creator of corn flakes or a megalomaniacal quack Brian C Wilson takes his role as a physician and a theological innovator seriously and places his religion of Biologic Living in an on going tradition of sacred health and wellness With the fascinating and unlikely story of the San as a backdrop Wilson traces the development of this theology of physiology from its roots in antebellum health reform and Seventh day Adventism to its ultimate accommodation of genetics and eugenics in the Progressive Era A

well researched biography that seeks to restore the reputation of the doctor satirized in T C Boyle s novel The Road to Wellville and in the film of the same name Wilson has done much more than provide a sympathetic biography of the man who headed the once famous Battle Creek Sanitarium There s much here to interest both adherents to and skeptics of today s alternative and holistic medicines as well as fans of American history especially the history of religions Kirkus Reviews While he may look like a certain Kentucky Fried Colonel Kellogg was an early advocate of a vegan diet and the intriguing figure behind the famous Battle Creek Sanitarium that paved the way for many contemporary ideas of holistic health and wellness Wilson s lively and accessible writing introduces readers to spiritualism millennialism the temperance and social purity movements Swedenborgians and Mormons A thought provoking portrait of a charismatic intelligent medical doctor who never stopped absorbing new information and honing his theories even when he was faced with disfellowship from his church and ostracism by friends and colleagues ForeWord Reviews Wilson does an admirable job of portraying how the doctor s beliefs shifted and adapted over time Readers with a keen interest in religious history particularly as it relates to health care will enjoy this biography the most Library Journal

Little 'Red Scares' Robert Justin Goldstein,2016-05-13 Anti communism has long been a potent force in American politics capable of gripping both government and popular attention Nowhere is this more evident than the two great red scares of 1919 20 and 1946 54 the latter generally if somewhat inaccurately termed McCarthyism The interlude between these two major scares has tended to garner less attention but as this volume makes clear the lingering effects of 1919 20 and the gathering storm clouds of McCarthyism were clearly visible throughout the 20s and 30s even if in a more low key way Indeed the period between the two great red scares was marked by frequent instances of political repression often justified on anti communist grounds at local state and federal levels Yet these

events have been curiously neglected in the history of American political repression and anti communism perhaps because much of the material deals with events scattered in time and space which never reached the intensity of the two great scares By focusing on this twenty five year interim period the essays in this collection bridge the gap between the two high profile red scares thus offering a much more contextualised and fluid narrative for American anti communism In so doing the rationale and motivations for the red scares can be seen as part of an evolving political landscape rather than as isolated bouts of hysteria exploding onto and then vanishing from the political scene Instead a much more nuanced appreciation of the conflicting interests and fears of government politicians organised labour free speech advocates employers and the press is offered which will be of interest to anyone wishing to better understand the political history of modern America **Age**

Structuring in Comparative Perspective David I. Kertzer,K. Households of Faith Nancy Christie,2002 Households of Faith examines a variety of religious traditions with a particular focus on the way in which religious communities define gender identities The authors explore the boundaries drawn in

religious discourse between the private and public offering a revisionist perspective on the theoretical framework of separate spheres By analysing gender relations within the matrix of the family they explore both the conflicts and interdependency of gender roles

Psychology of Development and History Klaus Riegel, 2012-12-06 This book documents my return to a topic that has always been one of my closest interests the systematic study of intellectual and political history I became involved in historical studies while in high school and continued this work during the years that I spent as a metalworker in a shipyard and in a factory Indeed I succeeded in being admitted to the University of Hamburg only after submitting a comparative analysis of the history of early Greek and early Western philosophy to the late Professor G Ralfs He gave me much encouragement and remained one of my main academic sponsors during the years in Hamburg Recently I translated into English the manuscript that had opened the doors of the university for me and extended it to the history of psychology The results present the unfolding of an intellectual theme as if it were an historical dialogue They chaps 10 and 11 are perhaps controversial achievements but they are among my proudest Before I began my studies in psychology and philosophy I spent almost two years in physics and mathematics Subsequently I began to approach psychology with a natural science emphasis Even when I began to shift my attention from general experimental to developmental psychology especially gerontology I continued to maintain this orientation and deemphasized my historical interest This interest did not find any resonance in the developmental research and theory of these years anyhow
